The Curriculum Management Audit Larry E. Frase, Fenwick W. English, William K. Poston, 2000 Overviews the curriculum management audit (CMA) and compares and contrasts it with principles of total quality management (TQM), asking whether a school district can use curriculum audit principles in conjunction with TQM. Part I examines the history, critics, and practical compatibility of the CMA

Politics, Race, and Schools Joseph Watras, 2013-11-26 First Published in 1997. Focusing on a case study from the civil rights movement, the author illuminates the issues and problems that emerge when schools are used to advance social equality. He examines the political controversies surrounding the racial desegregation of public and private schools in Dayton over a 40-year period during which the city initiated several nationally recognized programs to overcome segregation. The book also discusses racial integration in public and religious schools in different parts of the United States during that time. It describes experiences in public schools, Catholic schools, and private schools covering individually guided education, ethnic studies, magnet schools, compensatory education, and the New Futures Program funded by a

private foundation. The text is innovative in its survey of the relationships between city administrators, public school officials, and Catholic and private school educators. It also provides important analysis of how curriculum changes have affected desegregation and examines the role of private philanthropies in education.

Diversity and Motivation Margery B. Ginsberg, Raymond J. Wlodkowski, 2015-02-27 When the first edition of *Diversity and Motivation* was published in 1995, it became a premier resource for faculty and administrators seeking effective and practical strategies that foster motivation among culturally diverse student groups. This revised and updated second edition of *Diversity and Motivation* offers a comprehensive understanding of teaching methods that promote respect, relevance, engagement, and academic success. Margery B. Ginsberg and Raymond J. Wlodkowski base their insights and concrete suggestions on their experiences and research as college faculty. The book defines norms, illustrates practices, and provides tools to develop four foundational conditions for intrinsically motivated learning: establishing inclusion, developing a positive attitude, enhancing meaning, and engendering competence. The authors provide perspectives on the social justice implications of each condition. *Diversity and Motivation* includes resources to help educators create a supportive community of learners, facilitate equitable discussions in linguistically diverse classrooms, design engaging lessons, and assess students fairly. The ideas in this book apply across disciplines and include teaching practices that can be easily adapted to a range of postsecondary settings. In addition, the authors include a cohesive approach to syllabus construction, lesson design, and faculty development. This new edition also contains a framework for motivating students outside traditional classroom settings.

Assessment in Couple Therapy Lee Williams, 2021-10 This innovative text offers a simple but comprehensive framework for couple assessment that integrates research and information on couples from a wide range of models. Using the 7 Cs as a basis for guiding assessment, chapters move through key areas of couple functioning including communication, conflict resolution, culture, commitment, caring and sex, contract, and character. An additional chapter on children also offers insights into assessment of couples who parent. Offering a broad and accessible framework that can be applied to a variety of theoretical perspectives, the book highlights how the 7 Cs can be used to inform both assessment and treatment of couples. Numerous case examples are interwoven throughout the text to demonstrate how therapists may utilize this approach to work with a diverse client base. Written in an accessible style, *Assessment in Couple Therapy* is an essential tool for students of marriage and family therapy and beginning therapists, as well as seasoned mental health professionals working with couples in a range of settings.

Evelyn Del Rey Is Moving Away Meg Medina,2020-09-08 From Newbery Medalist Meg Medina comes the bittersweet story of two girls who will always be each other's número uno, even though one is moving away. A big truck with its mouth wide open is parked at the curb, ready to gobble up Evelyn's mirror with the stickers around the edge . . . and the sofa that we bounce on to get to the moon. Evelyn Del Rey is Daniela's best friend. They do everything together and even live in twin apartments across the street from each other: Daniela with her mami and hamster, and Evelyn with her mami, papi, and cat. But not after today—not after Evelyn moves away. Until then, the girls play amid the moving boxes until it's time to say goodbye, making promises to keep in touch, because they know that their friendship will always be special. The tenderness of Meg Medina's beautifully written story about friendship and change is balanced by Sonia Sánchez's colorful and vibrant depictions of the girls' urban neighborhood.

And the Category Is. Ricky Tucker,2022-01-25 A 2023 Lambda Literary Award Finalist in Nonfiction An Electric Literature "Most Anticipated LGBTQ+ Book of 2022" Selection A love letter to the legendary Black and Latinx LGBTQ underground subculture, uncovering its abundant legacy and influence in popular culture. What is Ballroom? Not a song, a documentary, a catchphrase, a TV show, or an individual pop star. It is an underground subculture founded over a century ago by LGBTQ African American and Latino men and women of Harlem. Arts-based and intersectional, it transcends identity, acting as a fearless response to the systemic marginalization of minority populations. Ricky Tucker pulls from his years as a close friend of the community to reveal the complex cultural makeup and ongoing relevance of house and Ballroom, a space

where trans lives are respected and applauded, and queer youth are able to find family and acceptance. With each chapter framed as a “category” (Vogue, Realness, Body, et al.), *And the Category Is . . .* offers an impressionistic point of entry into this subculture, its deeply integrated history, and how it’s been appropriated for mainstream audiences. Each category features an exclusive interview with fierce LGBTQ/POC Ballroom members—Lee Soulja, Benjamin Ninja, Twiggy Pucci Garçon, and more—whose lives, work, and activism drive home that very category. At the height of public intrigue and awareness about Ballroom, thanks to TV shows like FX’s *Pose*, Tucker’s compelling narratives help us understand its relevance in pop culture, dance, public policy with regard to queer communities, and so much more. Welcome to the norm-defying realness of Ballroom.

Improving Academic Achievement Joshua Aronson, Joshua Michael Aronson, 2002-04-15 In this book, authors discuss research and theory on the social psychological forces that shape academic achievement. A key focus is to show how psychological principles can be used to foster achievement and make schooling a more enjoyable process. Topics are highly relevant to both social and educational psychology, with discussions of core concepts such as intelligence, motivation, self-esteem and self-concept, expectations and attributions, prejudice, and interpersonal and intergroup relations.

The Leader in Me Stephen R. Covey, 2012-12-11 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? *The Leader in Me* is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught *The 7 Habits of Highly Effective People* to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Community Newspapers and the Japanese-American Incarceration Camps Ronald Bishop,2015-06-03 Though much has been said about Japanese-American incarceration camps, little attention is paid to the community newspapers closest to the camps and how they constructed the identities and lives of the occupants inside. Dependent on government and military officials for information, these journalists rarely wrote about the violation of the evacuees' civil rights. Instead, they concentrated on the economic impact the camps—and the evacuees, who would replace workers off to enlist in the military and work for defense contractors—would have on the areas they covered. Newspapers like the Cody Enterprise and Powell Tribune in Wyoming, the Lamar Daily News, and the Casa Grande Dispatch regularly published overly optimistic updates on the progress of construction, the size of the contractor payrolls, and the amount of materials used to build the camps. Ronald Bishop and his coauthors reveal how journalists positioned the incarceration camps as a potential economic boon and how evacuees were framed as another community group, there to contribute to the region's economic well-being. Community

Newspapers and the Japanese-American Incarceration Camps examines the rhetoric and journalistic approach of the local papers and how they informed the communities just outside their walls. This book will appeal to scholars of history and journalism.
