Broadening Financial Indicators in the Special Data Dissemination Standard International Monetary Fund, 2010-02-22 In December 2008, the IMF Executive Board discussed the Seventh Review of Data Standards Initiatives, and Directors requested staff to return to the Board within about a year with a proposal for the inclusion of selected financial indicators in the Special Data Dissemination Standard (SDDS). This paper responds to the 2008 request taking into account recent developments. The recent financial crisis has heightened the need for policymakers, financial regulators and capital market participants to put in place conditions that would help prevent the occurrence of similar crises in the future. One of the areas identified by the international community as key in crises prevention is the availability of timely and more detailed financial data that could provide early warning signals of impending risks and vulnerabilities

Islamic Feminisms Roja Fazaeli, 2016-11-10 This book explores the contentious topic of women's rights in Muslim-majority countries, with a specific focus on Iran and the Iranian women's movement from 1906 to the present. The work contextualizes the authorial self through the use of personal narrative and interviews. A new critique of Islamic law is produced through an in-depth study of the Iranian Constitution, civil and criminal codes. The work presents a novel reconceptualization of the term Islamic feminism by revisiting the arguments of various scholars and through analysis of interviews with Iranian women's rights activists. It is contended that the feminist movements can play a critical role in Islamic law reform and consequently the eventual implementation of international human rights law in Muslim-majority countries. What emerges from this study is not only a feminist critique of two major regimes of law, but also the identification of possibilities for reform in the future. The study transitions from the Iranian national context to the international by way of a comparative legal study of international human rights laws and Islamic laws. The book will appeal both to academics and human rights practitioners.

A Contemporary Concept of Monetary Sovereignty Claus D. Zimmermann, 2013-11-07 Monetary sovereignty is a

crucial legal concept dictating that states have sovereignty over their own monetary, financial, and fiscal affairs. However, it does not feature as part of any key instruments of international law, including the Articles of Agreement of the International Monetary Fund. Rather, it has remained a somewhat separate notion, developed under contemporary international law from an assertion of the former Permanent Court of International Justice in 1929. As a consequence of globalization and increasing financial integration and a worldwide trend towards the creation of economic and monetary unions, the principle of monetary sovereignty has undergone significant change. This book examines this evolution in detail, and provides a conceptual framework to demonstrate what this means for the legal and economic challenges faced by the international community. The book examines the historic origins and evolution of the concept of monetary sovereignty, putting it into the context of broader concepts of sovereignty. It argues that monetary sovereignty remains relevant as a dynamic legal concept with both positive and normative components. It investigates the continuing hybridization of international monetary law resulting from changes to its formal and material sources. It then examines the complex phenomenon of exchange rate misalignment under international monetary and trade law, and the increasing regionalization of monetary sovereignty, notably in light of the European sovereign debt crisis. Finally, it assesses the role the concept of monetary sovereignty can play in the reorganization of international finance following the recent global financial crisis.

Near-Coincident Indicators of Systemic Stress Mr. Ivailo Arsov, Mr. Elie Canetti, Ms. Laura E. Kodres, Ms. Srobona Mitra, 2013-05-17
The G-20 Data Gaps Initiative has called for the IMF to develop standard measures of tail risk, which we identify in this paper with systemic risk. To understand the conditions under which tail risk is present, it is first necessary to develop a measure of what constitutes a systemic stress, or tail, event. We develop such a measure and use it to assess the performance of eleven near-term systemic risk indicators as 'early' warning of distress among top financial institutions in the United States and the euro area. Two indicators perform particularly well in both regions, and a couple of other simple indicators do well across a number of criteria. We also find that the sizes of institutions do not necessarily correspond with their contribution to spillover risk. Some practical guidance for policies is provided.

Handbook of Literacy in Africa R. Malatesha Joshi, Catherine A. McBride, Bestern Kaani, Gad Elbeheri, 2023-07-28
This volume highlights the shortcomings concerning literacy development in Africa and collates the current available literature based on empirical research in various countries in a coherent manner. Further emphasized is how the current research can guide practical information to improve the literacy situation in Africa. The research studies will encompass various fields such as linguistics, neurosciences, and education and will provide future research directions and instructional

recommendations to improve the literacy situation in Africa.

Poetry from Chicago Christine M. Nava,2010-09-24 What a wonderful anthology of factual and fictional poetry for all ages, from pre-school through adulthood. Included are hundreds of poems, simple ones for the beginning reader, limericks, riddles, Haiku about names, personal, and, even, historical poems. Also, included are two lists of words: the first, of over 1200 basic primary words which were, cleverly, used in The First Poems Chapter for the purpose of making easy, enjoyable, daily reading and writing activities, and, the second, a list of over 300 basic, chunked, generated rhyming words that can be used as references and study sheets, or, simply, as 5 minute, daily reading lessons! This anthology is fun, interesting, practical, and relevant, and is a must for every classroom and for every library, personal and public!

And They Left... Lubin Doe,2022-04-14 This book will appeal to the curiosity of people interested in the movements of the Ewe population from ancient Egypt to its present location straddling three Western African countries, namely Benin (formerly Dahomey), Togo, and Ghana (formerly Gold Coast). The book also highlights the saga of an Anlo couple fleeing from the mysterious death of their children in Tegbi, a coastal Ghanaian village, the origin of the husband. It chronicles social, religious, and political life in the late 1800s and early 1900s in Mission Tove, a Togolese hamlet where husband and wife ultimately settled and begat their two surviving children. A window is also opened into the life of the descendants of one of these children representing the ninth generation of Togbi Atsu Madokpui Wenya, the leader of the Ewes who founded the Anlo community in the Gold Coast.

Financial Market Regulation and Reforms in Emerging Markets Masahiro Kawai,Eswar Prasad,2011 In the wake of the global financial crisis that began in 2008, offers a systematic overview of recent developments in regulatory frameworks in advanced and emerging-market countries, outlining challenges to improving regulation, markets, and access in developing economies--Provided by publisher.

Financial Sector Surveillance and the IMF Carlo Gola,Francesco Spadafora,2009-11-01 The global financial crisis has magnified the role of Financial Sector Surveillance (FSS) in the Fund's activities. This paper surveys the various steps and initiatives through which the Fund has increasingly deepened its involvement in FSS. Overall, this process can be characterized by a preliminary stage and two main phases. The preliminary stage dates back to the 1980s and early 1990s, and was mainly related to the Fund's research and technical assistance activities within the process of monetary and financial deregulation embraced by several member countries. The first official phase of the Fund's involvement in FSS

started in the aftermath of the Mexican crisis, and relates to the international call to include financial sector issues among the core areas of Fund surveillance. The second phase focuses on the objectives of bringing the coverage of financial sector issues up to par with the coverage of other traditional core areas of surveillance, and of integrating financial analysis into the Fund's analytical macroeconomic framework. By urging the Fund to give greater attention to its member countries' financial systems, the international community's response to the global crisis may mark the beginning of a new phase of FSS.

European Yearbook of International Economic Law 2016 Marc Bungenberg, Christoph Herrmann, Markus Krajewski, Jörg Philipp Terhechte, 2016-07-16 Volume 7 of the EYIEL focusses on critical perspectives of international economic law. Recent protests against free trade agreements such as the Transatlantic Trade and Investment Partnership (TTIP) remind us that international economic law has always been a politically and legally contested field. This volume collects critical contributions on trade, investment, financial and other subfields of international economic law from scholars who have shaped this debate for many years. The critical contributions to this volume are challenged and sometimes rejected by commentators who have been invited to be "critical with the critics". The result is a unique collection of critical essays accompanied by alternative and competing views on some of the most fundamental topics of international economic law. In its section on regional developments, EYIEL 7 addresses recent megaregional and plurilateral trade and investment agreements and negotiations. Short insights on various aspects of the Transpacific Partnership (TPP) and its sister TTIP are complemented with comments on other developments, including the African Tripartite FTA and the negotiations on a plurilateral Trade in Services Agreement (TiSA). Further sections address recent WTO and investment case law as well as recent developments concerning the IMF, UNCTAD and the WCO. The volume closes with reviews of recent books in international economic law.

Changes in the Sheep Industry in the United States National Research Council, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Committee on the Economic Development and Current Status of the Sheep Industry in the United States, 2008-10-26 The U.S. sheep industry is complex, multifaceted, and rooted in history and tradition. The dominant feature of sheep production in the United States, and, thus, the focus of much producer and policy concern, has been the steady decline in sheep and lamb inventories since the mid-1940s. Although often described as an industry in decline, this report concludes that a better description of the current U.S. sheep industry is an industry in transition.

The Laboratory Small Ruminant Matthew J. Allen, Gary L. Borkowski, 1999-03-30 The Laboratory Small Ruminant details basic information and common procedures for individuals performing research with small ruminants. Details include duties of animal husbandry, regulatory compliance, and technical procedures. It is designed to assist in the humane care and use of small ruminants in the laboratory and to provide immediate information for investigators, technicians, and animal caretakers.

It includes references to alternative procedures and methods and offers possible sources and suppliers of animals, feed, sanitation supplies, cages, and research and veterinary supplies. Researchers, investigators, lab technicians and animal caretakers will need this resource.

Adequacy of Fund Resources—Further Considerations International Monetary Fund. Finance Dept., International Monetary Fund. Strategy, Policy, & Review Department, 2021-03-05 This paper is part of the workplan on the 15th General Review of Quotas (15th Review). The paper provides a two-pillar framework for assessing the adequacy of Fund resources, building on the staff paper discussed by the Board in March 2016. The second pillar of the framework is qualitative in nature. The paper also provides information to support a discussion on the mix of Fund resources.

The Name of the Number Michael A. B. Deakin, 2007 Looks at the history and anthropology of the expression of numbers throughout the ages and across different cultures. It deals with the different ways that number representation has been structured, the history and prehistory of number concepts, and the evolution of numerical representation (in word and symbol). These themes are explored through the various expressions of number-concepts in different cultures in different places and times.

Handbook of Safeguarding Global Financial Stability Gerard Caprio, Philippe Bacchetta, 2012-11-27 Political and social forces exert pressure on our globalized economy in many forms, from formal and informal policies to financial theories and technical models. Our efforts to shape and direct these forces to preserve financial stability reveal much about the ways we perceive the financial economy. The Handbook of Safeguarding Global Financial Stability examines our political economy, particularly the ways in which these forces inhabit our institutions, strategies, and tactics. As economies expand and contract, these forces also determine the ways we supervise and regulate. This high-level examination of the global political economy includes articles about specific countries, crises, and international systems as well as broad articles about major concepts and trends.. Substantial articles by top scholars sets this volume apart from other information sources Diverse international perspectives result in new opportunities for analysis and research Rapidly developing subjects will interest readers well into the future
