I have written this guide in order to help you create a space for reflection within your life and as a result develop emotional and cognitive strategies that can make you more resistant to love-sickness. Once you learn exactly why we absurdly equate love to suffering, you'll know how to avoid falling into the trap and learn to foster more adaptive schemes of behaviour. Through the concepts of philosophy, psychology and his 30 years plus of experience as a therapist, in the 39 chapters of this book, Walter Riso guides us through a model or scheme of reflection to help us understand the characteristics of a love that is good (healthy, coherent, constructive) and one that is bad (sick, incoherent, destructive).

In the same right-to-the-point, no-nonsense style that was a hallmark of Positioning, this sequel squares off against critical marketing challenges such as how to make sure your message gets through in an era of information overload.

Stunning and elegiac, Norwegian Wood first propelled Haruki Murakami into the forefront of the literary scene. Toru, a serious young college student in Tokyo, is devoted to Naoko, a beautiful and introspective young woman, but their mutual passion is marked by the tragic death of their best friend years before. As Naoko retreats further into her own world, Toru finds himself drawn to a fiercely independent and sexually liberated young woman. A magnificent coming-of-age story steeped in nostalgia, Norwegian Wood blends the music, the mood, and the ethos that were the sixties with a young man's hopeless and heroic first love.

Arranged marriages don't happen in the modern world, so how did the irrepressible Daisy find herself in this fix? Before long, passion will send them flying sky high without a safety net... risking it all in search of a love that will last forever.

This book, Paz's first book-length essay, is the most famous of his works and a modern classic. Published in Spanish in 1950, it is undoubtedly the most influential work that exists on problems of Mexican cultural identity. In this critical edition, Stanton introduces the work, explores the historical circumstances in which it was written, its textual genesis, sequels and its influence. He analyzes key elements of the essay, such as the structure, methodology, use of Freud, Jung, Marx, Nietzsche and the way it relates culture to history. This book contains questions and themes for discussion and a select bibliography.

I've always been a good girl. I work hard, I follow the rules, I always achieve my goals. But sometimes good girls want things that aren't good for them. Or someone who isn't good for them. Like their new boss. And sometimes they do very bad things to get his attention. Like sell their virginity in an auction. Who knew he'd be so very, very mad? Maybe this was not my best laid plan...

«Amo, odio, sufro». Virginia Woolf De Jane Eyre (1847), ciertamente una de las novelas más famosas de estos dos últimos siglos, solemos conservar la imagen ultrarromántica de una azarosa historia de amor entre una institutriz pobre y su rico e imponente patrón, todo en el marco truculento y misterioso de una fantasmagoría gótica. Y olvidamos que, antes y después de la relación central con el abismal, sardónico y volcánico señor Rochester, Jane Eyre tiene otras relaciones, otras historias: episodios escalofriantes de una infancia tan maltratada como rebelde, pasos de enfermedad y arduo aprendizaje en un tétrico internado, estaciones de penuria y renuncia en la más absoluta desolación física y moral, inesperados golpes de fortuna, e incluso remansos de paz familiar y nuevas –aunque engañosas– proposiciones de matrimonio. Olvidamos, en fin, que la novela es todo un libro de la vida, una confesión certera y severísima –rotundamente crítica– de un completo itinerario espiritual, y una exhaustiva ilustración de la lucha entre conciencia y sentimiento, entre principios y deseos, entre legitimidad y carácter, de una heroína que es la «llama cautiva» entre los extremos que forman su naturaleza. Carmen Martín Gaité ha rescatado el vigor, la riqueza y la naturalidad expresiva de un texto un tanto desvirtuado por la popularidad de sus múltiples versiones. Gracias a su traducción, quien creyera conocer esta novela, al leerla de nuevo, más que recordarla, la descubrirá.

Thirty-six questions to make them fall in love. Hildy and Paul each have their own reasons for joining the university psychology study that asks the simple question: Can love be engineered? The study consists of 36 questions, ranging from "What is your most terrible memory?" to "When did you last sing to yourself?" By the time Hildy and Paul have made it to the end of the questionnaire, they've laughed and cried and lied and thrown things and run away and come back and driven each other almost crazy. They've also each discovered the painful secret the other was trying so hard to hide. But have they fallen in love? Told in the language of modern romance -- texting, Q&A, IM -- and punctuated by Paul's sketches, this clever high-concept YA is full of humor and heart. As soon as you've finished reading, you'll be searching for your own stranger to ask the 36 questions. Maybe you'll even fall in love. Rights have sold in 19 territories!

John Boswell's National Book Award-winning study of the history of attitudes toward homosexuality in the early Christian West was a groundbreaking work that challenged preconceptions about the Church's past relationship to its gay members—among them priests, bishops, and even saints—when it was first published thirty-five years ago. The historical breadth of Boswell's research (from the Greeks to Aquinas) and the variety of sources consulted make this one of the most extensive treatments of any single

aspect of Western social history. Now in this thirty-fifth anniversary edition with a new foreword by leading queer and religious studies scholar Mark D. Jordan, *Christianity, Social Tolerance, and Homosexuality* is still fiercely relevant. This landmark book helped form the disciplines of gay and gender studies, and it continues to illuminate the origins and operations of intolerance as a social force. This book is about the central figure of our contemporary, 'liquid modern' times – the man or woman with no bonds, and particularly with none of the fixed or durable bonds that would allow the effort of self-definition and self-assertion to come to a rest. Having no permanent bonds, the denizen of our liquid modern society must tie whatever bonds they can to engage with others, using their own wits, skill and dedication. But none of these bonds are guaranteed to last. Moreover, they must be tied loosely so that they can be untied again, quickly and as effortlessly as possible, when circumstances change – as they surely will in our liquid modern society, over and over again. The uncanny frailty of human bonds, the feeling of insecurity that frailty inspires, and the conflicting desires to tighten the bonds yet keep them loose, are the principal themes of this important new book by Zygmunt Bauman, one of the most original and influential social thinkers of our time. It will be of great interest to students and scholars in sociology and in the social sciences and

"Since they shot her at point-blank range while she was being kissed, she confused the pain of love with that of death." Rosario Tijeras is the violent, violated character at the center of Jorge Franco's study of contrasts, set in self-destructing 1980s Medellín. Her very name-evoking the rosary, and scissors-bespeaks her conflict as a woman who becomes a contract killer to insulate herself from the random violence of the streets. Then she is shot, gravely wounded, and the circle of contradiction is closed. From the corridors of the hospital where Rosario is fighting for her life, Antonio, the narrator, waits to learn if she will recover. Through him, we reconstruct the friendship between the two, her love story with Emilio, and her life as a hitwoman. Rosario Tijeras has been recognized as an admirable continuation of

Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus*

explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.
