Michael Grainger is a disaffected young man living with his parents in 1970s Stockton-on-Tees. Frustrated with the banality of his existence, and fully aware of his own intellect and lack of scruples, he resolves to escape by making as much money as he can in the least possible time. After a brief dalliance with petty crime, he eventually enrolls on an art course at a local college with the express intention of doing as little work as possible while pursuing attractive female students. Mick, as he becomes known, has absolutely no artistic talent but discovers a personal flair for 'conceptual art' and a genius for shocking people. Thus begins the career of a charlatan... Once established in London, it is not long before Grainger is rubbing shoulders with a rogue's gallery of slippery agents, drug-dealers, gangsters and ladies of questionable virtue in his pursuit of fame and fortune - all through the hokum he pretends is art.

100 Secrets of the Art World Everything You Always Wanted to Know from Artists, Collectors and Curators, But Were Afraid to Ask

Art Savvy is a systematic approach to understanding art. It gives you methods to assess a design and really see what the artist was doing. Unlike chaotic art writings, terms are clearly defined, categorized, organized and illustrated. It is designed to answer questions like: What things will allow me to understand art? What are the basic elements? What is concept art? Can you "read" a work of abstract art? Visual literacy is the ability to interpret, negotiate, and make meaning from information presented in art work. Art Savvy gives you this.

Defining Terms: Often art terms are not clearly defined, are used interchangeably or get mixed up with other types of analysis. For a thorough exploration of all aspects of art, photos of great works are referenced with color keyed notations to illustrate the 5 easy pieces: 1. Design Elements- Visual grammar, line, shape, form, mass etc. - definitions & how to see them. 2. Organization Principles- How elements are arranged and how this effects the concept. 3. Style- Relation to other groups of work and formulas for design. 4. Technique- How methods and materials are used to impact the concept. 5. Concept- What this piece about. What major themes and elements were used. Assessment techniques in each section of Art Savvy will train your eye to always see these 5 aspects of any artwork. It is not attempting judgments of relevance, philosophy, spiritual meanings and other ethereal aspects that a work may convey. This text poses the question: "What is the basic concept here?" but sticks to pure analysis and leaves all judgment to you and the experts. This field guide is a mini textbook on design principles that will let you understand art!

If you've ever read any self-help books, you'll know that many of them are quite the same. They talk about dealing with people, leading, managing, making money, making good decisions, building things, and cultivating the type of attitude that is necessary to have for success, among other things. So, there's a lot of common denominators in self-help books. If you read a top success book, however, they're a little bit different - a little bit more straightforward, a little bit more of the WEALTH mindset built into them, which is a no-nonsense, honest approach designed to maximize the reader's time. These books just want to give you the facts and the information needed to get the job done. This little summary covers a number of key topics, ideas, and concepts that will help you get into the mind of leaders like Trump, Pickens, Gates, Bezos, Google's Page, and other billionaire entrepreneurs. I am not a profiler, but you could call me a scientist of behavioral leadership and metaphysics. Mind you, I've read hundreds of books written by success gurus, world leaders, and billionaires, and, based on these observations, here are some of the fundamentals that make up the character of someone who makes it BIG. With the information in this book, you will be informed of how top performers think and, more importantly, how a self-made billionaire views you and your ethics. Don't forget that top leaders have been making billions for 20+ years and have been paying and leading thousands of employees for decades. They have been working tirelessly for decades to become the best they can be, improve their community, be a master builder and philanthropist, and defend his nation: thus, success is NO accident. This work was originally commissioned at the request of George Mentz at the conclusion of a 25-year research project based upon conversations of over 500 global leaders in over 50 countries, including such self-made giants as CEOs, inventors, MVP Athletes, world champions, presidents, bishops, kings, royalty, billionaires, and top gurus on the subject. The Law of Achievement was first delivered as a lecture, and part of this famous guidance was given in China, Arabia, Europe, India, Latin America, the West Indies, and throughout Asia. To go to the next level, read this book intently, contemplate the timeless wisdom contained, take action, and become a master of your destiny. This is the timeless framework for achievement and progress that has been proven to work over the last 25 years. "Belief is the energy that animates the wings of the soul." GM
