The Royal Air Force, 1918-1968 Great Britain. Royal Air Force. Directorate of Public Relations,1968

The Royal Air Force Michael Napier,2018-02-22 A fully illustrated history of the Royal Air Force while on operations, publishing to mark the centenary of its foundation in World War I. The world's first independent air force, the Royal Air Force celebrates its centenary in 2018. In the 100 years since the end of World War I, the service has been involved in almost continuous operations around the globe, giving the RAF the longest and most wide-ranging history of any air force in the world. But over the years this history has also become entangled with myths. The Royal Air Force: A Centenary of Operations sets the record straight, dispelling these as it uncovers - in both words and photographs - the true exploits and accomplishments of RAF personnel over the last 100 years. From its formation as an independent service in the dying days of World War I, its desperate fight against the Axis air forces in World War II, to its commitments during both the Cold War and modern times, this is the complete story of how the RAF has defended Britain for a century.

100 Years of the RAF Higgs COLIN,2018-02-28 The Royal Air Force has been central to the evolution of air power for 100 years. It is also the oldest independent air force in the world with origins that take it back to the earliest days of flight. Formed in 1918 while the outcome of the First World War was still in doubt the Royal Air Force has played a vital part in the defence of Britain and her allies for a century. 100 Years of the Royal Air Force is a fast-paced and authoritative account of the history, the aeroplanes, the technology and the people who have flown and fought for the service and it is illustrated with more than 150 great images from a wide variety of sources. It tells of the early days when the RAF was formed from the merger of the RFC and the RNAS; the fight to stay independent in the inter-war years; the vitally important battles fought during the Second World War - the Battle of Britain, the bomber campaign, Coastal Command's fight to maintain Britain's sealanes and the tireless work of Transport Command. The coming of jet aircraft revolutionised the work of the RAF as did the advent of flight refuelling, the missile and many other key inventions. The modern Royal Air Force, now smaller and constrained by budgets, has maintained its reputation as an agile, adaptable and capable force.

RAF's Centenary Flypast Kevin Lee Gatland,2021-05-30 On 10 July 2018, exactly 100 years and 100 days after the formation of the world's first independent air force, 103 aircraft of twenty-four types from twenty-five squadrons flew over London in the largest formation of military aircraft seen over the capital of the UK in nearly thirty years. Involving over 250 aircrew and operating out of fourteen military and two civilian airfields, with nineteen back-up aircraft and a standby air-to-air refueling tanker, the Royal Air Force put on a unrivaled display to mark the centenary of its creation on 1 April 1918, in the closing months of the First World War. Exemplifying that long and proud history, was the Spitfire, Hurricane, Lancaster and Dakota of the Memorial Flight, as well as the enduring Hercules, with the newly acquired F-35B Lightning displaying the RAF's continuing global importance. This book reveals how the flypast was conceived and examines the detailed planning involved in the event, written by someone who would know - the project manager and coordinator. The composition and size of the flypast was truly momentous, comprising virtually every type of aircraft that the RAF operated at the time. As Chief of Staff at the Tornado GR4 Force Headquarters operating from RAF Marham, and an experienced Tornado GR4 Navigator, Wing Commander Kevin Gatland had the task of pulling together all the necessary components, both military and civilian required to produce an unrivaled aerial display. This involved considering the feasibility of assembling so many varied types of aircraft, all with different speeds and capabilities, in addition to concentrating them into a tight schedule to produce a virtually continuous stream of aircraft over central London, with elements breaking off to pass over the northerly runway at Heathrow Airport, the RAF Memorial at Runnymede, Windsor Castle and the RAF Museum at Hendon. Beautifully illustrated with glorious color in-flight photographs of the magnificent aircraft of the current RAF as well as the briefing and planning session, this book demonstrates the enormous range of factors that had to be taken into consideration to produce the amazing spectacle that was witnessed by the Queen from Buckingham Palace and the thousands who gathered in The Mall - an event captured in the pages of this fascinating book.

The RAF in 100 Objects Peter Jacobs,2017-10-09 It was in the closing year of the First World War, on 1 April 1918, that the Royal Air Force was born from the amalgamation of the Royal Flying Corps and Royal Naval Air Service. Since then, the RAF has helped lead the world in the development of aviation and air warfare. From the fighters and bombers of the Second World War, through the early jet age and into modern remotely piloted air systems, the last hundred years' development has been astronomical, and the human story no less impressive. Here Peter Jacobs gathers the most poignant objects of the RAF's proud history and displays them together, in full splendid colour, for the first time. Aircraft, memorials, uniforms, equipment, and some items you would never expect - it's all here, ready to be explored.

RAF in Camera Keith Wilson,2022-09-15 In July 2018, the nation looked skyward over Buckingham Palace in awe as the Royal Air Force celebrated its first 100 years with a spectacular parade and flypast over London. This event demonstrated a very different perspective of the RAF; well away from its operational commitments. The expertise and precision of those RAF

pilots flying in some of the most famous aircraft in the world has been displayed since the very first days of military aviation. The Inter-War period was dominated by the Hendon Air Pageants; where many aircraft made their public appearance. Post-war, it was the turn of the jet display teams, with the Black Arrows and Firebirds' laying the foundations for the aerial mastery that is today's Red Arrows. The various anniversaries have seen a growth in special artwork being applied to aircraft flown by squadrons celebrating key anniversaries. This is covered in considerable detail within this volume. On the ground, the RAF is represented at major celebrations and key public events by the Queen's Colour Squadron, which demonstrates its world-famous continuity drill routine while providing a guard of honor for visiting Heads of States. They are frequently accompanied with the Service's own bands; which have grown from those created by its squadrons over a century ago. From the Berlin Airlift in 1948; to flood relief in Kenya; and the international relief effort in the Caribbean following Hurricane Irma in 2017; the RAF has been deployed overseas in response to numerous international crises. But aid operations have also been mounted at home. Under the banner of 'Military Aid to the Civil Powers', helicopters and aircraft have airlifted food and supplies to areas cut off by severe weather; Sea King helicopters have rescued villagers stranded by flash flooding in Boscastle; while Chinook helicopters have assisted with the rebuilding of flood defenses breached by severe floods across the country. The golden age of record-breaking also features in this book. From long-range flights to South Africa and Australia; the Schneider Trophy triumph; speed records in the jet age; along with altitude records with pilots in special pressure suits; the RAF has demonstrated its reputation as a truly pioneering Air Arm. Keith Wilson takes us on a journey through the Royal Air Force's public persona during their 100 year history. All landmark events are referenced in this thorough, well-researched and image-packed publication. As with the three previous releases, this new addition to the In Camera series is sure to be regarded as something of a collector's edition and a real enthusiast's favorite.

The Royal Air Force Great Britain. Royal Air Force, 1968

The Royal Air Force John Buckley, Paul Beaver, 2018-06-22 In 1918, the Royal Air Force became the first major independent air force in the world. Formed to serve a strategic need in the most intensive war that Britain had then fought, the RAF continued in the inter-war era to play a key role in the political and diplomatic world, and in defending the Empire. During the Second World War, the RAF was pivotal in defending Britain from invasion in the Battle of Britain, and then in leading the assault on the Axis powers, most notably through the contentious bomber offensive against Germany. In the post-war world, the RAF adapted and developed into a force to meet the needs of the United Kingdom during the Cold War, the retreat from Empire, and most recently in the move to coalition warfare against low intensity threats, all against a backdrop of diminishing resources and shifting priorities. This is the story of the RAF over the first century of its existence: how it has confronted the many challenges and threats it has faced — from the Luftwaffe in 1940, through the spectre of nuclear holocaust in the Cold War, to the fight against terrorism in the 21st century — and how it has contributed to the defence of

the United Kingdom throughout that period.

Forever Vigilant Graham Pitchfork, 2016-05-05 208 Squadron based at RAF Valley in Anglesey will be celebrating its 100th anniversary in October 2016, making it one of the few RAF squadrons to achieve this unique distinction whilst still part of the RAF's current order of battle. To celebrate this achievement, Air Commodore Pitchfork has compiled a chronological history of the squadron's main activities and personnel with the aim of illustrating the spirit, comradeship, and professionalism of the squadron. Taking its title from the squadron's motto, 'Vigilant', the book starts with the formation of Naval 8 as a scout squadron on the Western Front during the First World War. It then continues through the various conflicts that Naval 8/208 Squadron has played a key role in, including the Second World War and Gulf War. The squadron's move to Egypt in the inter-war years as an army cooperation squadron, which inspired the Gizah Sphinx motif for 208 Squadron, is also covered. Its modern-day role as an advanced flying training squadron concludes the squadron's story. This history has been written with the use of important sources from the squadron's archives, along with interviews from veterans and current members of the squadron. It also has the support of the squadron's Old Comrade's Association, which was pioneered and fostered by its first CO, Air Vice-Marshal Sir Geoffrey Bromet. The association is very active and one of the longest serving and strongest associations within the RAF.

Official History of the Royal Air Force 1935-1945 — Vol. I — Fight at Odds [Illustrated Edition] Denis Richards, 2014-08-15 Includes, 21 maps/diagrams and 17 Illustrations/photos The Royal Air Force is the oldest independent air force in the world, having gained its spurs over the trenches of Flanders in the First World War it was officially established in 1918. However it was during the Second World War that it would achieve its greatest successes yet, from an inauspicious start following post war budget cuts it would rise to become a decisive factor in the campaign to remove the Nazis from Europe and the Japanese from mainland Asia. The three volume Official History gives a sound and broad narrative of all of the campaigns, actions and engagements that the Royal Air Force was party to across Europe, Asia, Africa and Australasia. The text was set out in manageable chapters, each dealing with a particular episode of the struggle against Fascism; and is written in an easy and accessible style free from the specialised vocabulary of flying or aerial combat. The first volume covers the period - 1939-1942; including The Initial Phoney War period. The Norway Expedition The Battle of France The Battle of Britain The Blitz The opening stages of the Battle of the Atlantic The opening stages of the North African Campaign.

The RAF At 100 Mirrorpix, 2021-05-28 Celebrating a century of the world's oldest independent air force, The RAF at 100 showcases vivid and evocative images from the Mirrorpix archive that trace the story of the RAF from its earliest days through wartime and peacetime and into the modern age.
