

1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

In this book, David K. Levine questions the idea that behavioral economics is the answer to economic problems. He explores the successes and failures of contemporary economics both inside and outside the laboratory, and asks whether popular behavioral theories of psychological biases are solutions to the failures. The book not only provides an overview of popular behavioral theories and their history, but also gives the reader the tools for scrutinizing them.

Do you think you know everything about the United States? Think again! Did you know that tomatoes were once put on trial in New Jersey? Or that it's illegal to whistle underwater in West Virginia? From the #1 bestselling author of History's Greatest Generals comes an exciting new paperback book on the greatest explorers in history and how their discoveries shaped the modern world Whether it is Rabban Bar Sauma, the 13th-century Chinese monk commissioned by the Mongols to travel West form a military alliance against the Islam; Marco Polo, who opened a window to the East for Europe; or Captain James Cook, whose maritime

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

voyages of discovery created the global economy of the 21st century, each of these explorers had an indelible impact on the modern world. This book will look at the 11 greatest explorers in history. Some travelled for religious piety, such as Ibn Battuta, who travelled from North Africa to Indonesia in the 1300s, visiting every Islamic pilgrimage site between -- and becoming counselor to over 30 heads of state. Others travelled for profit, such as Ferdinand Magellan, who wanted to consolidate Spain's holdings on the spice trade. Still others travelled for discovery, such as Ernest Shackleton, who led two dozen men to the bottom of the world in an attempt to cross Antarctica on foot. Whatever their reason for discovery, these explorers still inspire us today to push the limits of human achievement -- and discover something about ourselves in the process.

Picked with unusual and fun knowledge for the whole family. Did you know? Certain fish can cough. Whale poo is an ingredient in some perfumes. Scotland has the highest number of redheads. Do you want to take a tour through time and go deep into the minds of the most influential philosophers of all humanity? If you want to immerse yourself in some words of wisdom from these great thinkers, then keep reading... 'It is the mark of an educated mind to be able to

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

entertain a thought without accepting it' - Aristotle I have been a deep thinker for as long as I can remember. I would continually question existence, identity, reality, ethics, politics, religion, metaphysics and everything in between. I've always found it fascinating to entertain those thoughts, but for the most part, could never share it with others as it can come off strange and intense to many who are not on the same 'wavelength'. Sound familiar? Realising that not a lot of others might think in the same exploratory way as me, I decided to look elsewhere to see if other thinkers of the past thought or shared similar ideas. Aristotle, Plato, Descartes to name a few; they all shared such a wise and unique way of thinking, with the continuous pursuit to challenge conventional knowledge and thought processes. Many of these philosophers were strong believers that you should always question everything. They believed that for one to become fully realised you must first begin to look inside and reflect on yourself and your thoughts. Do you sometimes find yourself deep in thought, feeling connected to a train of thought and your mind in a way that feels foreign but natural? Do you ever find yourself contemplating reality, the origins of ethics, or if our current social structure is the most efficient to society it can be? Through reading quotes we can travel through time and by practice of evaluation we can start connecting with how these thinkers thought. We can read a quote and resonate with it so deeply to the point it's as if we share the same experience as the quoter. This skill can be developed through this practice and has scientifically proven benefits such as increased critical thinking and information organisation. In Simply Philosophical Quotes you will discover: A swift introduction to the most influential thinkers of all time Their top 3 teachings and ideas 5 fascinating facts you won't have heard before 915 inspiring, thought-provoking quotes that will leave you deep in reflection The importance of evaluating your own thoughts

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

Philosophers include Plato, Aristotle, Socrates, René Descartes, Confucius, Immanuel Kant, The Buddha, John Locke, Epictetus and Friedrich Nietzsche. If you're looking for an in-depth book on these philosophers' lives and teachings with an expansive evaluation of their quotes then this book is not for you! It's up to you to evaluate these quotes without external influence. Through reading Simply Philosophical Quotes you can start to dissect and gain a deeper understanding of the minds of ten of the most influential philosophers of all time. If you want to gain a brief insight into the lives these philosophers lived and their main teachings, and a comprehensive compilation of their best quotes, this book for you. If you want to expand your own thought processes, problem solving skills, decision making, creative thinking, evaluation of ideas and more, this book is absolutely for you.

some Star Wars trivia as well. Keep an eye out for an easy-to-miss cameo from your favourite droids! So are you ready to learn the secrets from the Hollywood vault? Good, because we're ready to share them! Enjoy the ride!

Fact: Chocolate contains the alkaloid theobromine, which in high doses can be toxic to humans, and in even small amounts can kill dogs, parrots, horses, and cats. This means that despite its name, the Kit-Kat candy bar is not a recommended snack for your kitty-cat. I wonder how many cats have died because of this confusion. Fact: The most germ-laden place on your toilet isn't the seat or even the bowl--it's the handle. The solution: Don't flush. Let the next guy worry about it. There are "just the facts"--and then there are just the facts that will frighten the bejeezus out of you. And thanks to this little gem of a bathroom book, you'll never look at the world the same way again, without, er, dry heaving a little bit. From the sneaky fish that can swim up our genitals to the E. coli bacteria lurking in the very water we drink, disturbing phenomena are everywhere we turn. Educational, entertaining, and undeniably horrifying, this book isn't guaranteed to help you, um, go to the bathroom, but it's certain to make your time there more...informed.

Aim For The Stars, is the first book of Dominican actress and producer, Yissendy Trinidad. A personal and passionate testimony that seeks to empower women, and men who dare to go there! Economic Facts and Fallacies exposes some of the most popular fallacies about economic issues-and does so in a lively manner and without requiring any prior knowledge of economics by the reader. These include many beliefs widely disseminated in the media and by politicians, such as mistaken ideas about urban problems, income differences, male-female economic differences, as well as economics fallacies about academia, about race, and about Third World countries. One of the themes of Economic Facts and Fallacies is that fallacies are not simply crazy ideas but in fact have a certain plausibility that gives them their staying power-and makes careful examination of their flaws both necessary and important, as well as sometimes humorous. Written in the easy-to-follow style of the author's Basic Economics, this latest book is able to go into greater depth, with real world examples, on specific issues.

"Unleash the magic of math with Danica McKellar, her friends Mr. Mouse and Ms. Squirrel, and the exciting contraption the Times Machine!"--

Laudato Si 'is Pope Francis' second encyclical which focuses on the theme of the environment. In fact, the Holy Father in his encyclical urges all men and women of good will, the rulers and all the powerful on earth to reflect deeply on the theme of the environment and the care of our planet. This is our common home, we must take care of it and love it - the Holy Father tells us - because its end is also ours.

Like many baby boomers, David Haldane got swept into the turbulence of the late 1960s and early '70s, first as a radical activist and then a writer for an underground newspaper. Eventually, after self-imposed exiles in Europe and Mexico, he married, started a family and graduated to a significant position in mainstream journalism from

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

which he chronicled many of the events that shaped an era. But Haldane always longed for something more, a "green leafy space" in which he could feel at peace. Finally, after a painful divorce, he found it in an unconventional way; with a dark-haired woman met on the Internet and wooed on the exotic islands of the Philippines. "Nazis and Nudists" is a series of poignant - and sometimes humorous - essays recounting that long journey. It is a story of love lost and love found. More importantly, it is about the lifelong spiritual quest for a place to call home.

A fine quotation is a diamond in the hand of a man of wit and a pebble in the hand of a fool. Joseph Roux This is a collection of the funniest quotes culled by the author from the thousands that are out there to save the reader the trouble of perusing the multitude of mediocre to find the best. This is a book which you can just pick up anytime and carry on where you left off last time. It is for those who want to pep up a speech, a presentation or an email and for those who just want to sit at home and enjoy the best humorous quotations for their own amusement. In the author's view the best humorous quotations are often those which contain an essence of truth viewed from an unexpected and quirky angle unseen previously.

To the young child holding this book in your hand. Do you believe someone just like you could become a history maker? I believe you can. Read this story and discover how Devon, a little boy from Jamaica, became a Canadian history maker. You will see that anything is possible and that dreams can come true. For Parents, Teachers and

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

Everyone who cares for a Child There's nothing like the inspiration to be drawn from a story of someone overcoming challenges and achieving the impossible, especially when that story involves a child. And no example sings so loudly as this one, about a little black boy growing up in rural Jamaica without electricity or indoor plumbing who would go on to become Canada's first-ever black Chief of Police. In Devon Clunis's inspiring tale, we find a shining illustration of how hope can lift a person above their conditions to the very height of their dreams. In the simple, welcoming language that ushers along this moving narrative, we learn about the simplicity of the life that marked Devon's early years. When he was a little boy, Devon had no lights or power or running water in his house. Today, that same boy — now a man — holds an impressively prominent position in Canada's law enforcement community and history. Through Devon's story, readers will learn that hard work, help from others, and a powerful belief in yourself, are all essential elements in achieving truly spectacular things. The potential for greatness resides in all of us, just as they did little Devon. If we can each capitalize on this immense gift to the best of our abilities, think how far we can go toward making our world a better place.

A bride wasn't in his plans . . . The last thing Marcus, the Duke of Autenberry, expects to see after sleeping off a night's drunken shenanigans is a woman being auctioned in the village square. Before he can think about the ramifications, he buys her, thinking he's winning the girl her freedom. Instead, he discovers he's bought a wife. A duke wasn't in hers . . . Alyse Bell is almost rid of the shackles that bound her in a name-only marriage, but the day her friend promised to purchase her in a wife auction, he vanishes, leaving her to face a mob of unsavory bachelors intent on owning her body

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

and soul. But the appearance of a wicked, wealthy stranger changes her path forever. The road to ruin . . . Marcus doesn't know what to do with the impertinent chit who clearly isn't duchess material! Insisting their marriage isn't legitimate, they leave for his estate in Scotland, hoping to devise a plan to get rid of each other. However, on a journey fraught with misadventure, their attraction grows and Marcus realizes he'll do anything to keep this fiery woman for his own.

Following the success of my site <http://www.RaiseYourBrain.com> and numerous requests from readers, I decided to compile some of the most interesting facts in an e-book. That's why I decided to collect the best gems of breath-taking trivia and to present you a great compilation of facts, suitable for a broad audience. This is the result of years of sifting through history and reference books on a myriad of subjects as well as searching the Internet and paying attention to the news. This book is intended to be fun for anyone older than 14 - even the most 'spicy' entries, neatly separated in the chapter 'Facts about human and animal sexuality,' remain factual and abstain from profanity. To my greatest delight, an avid reader of my site explained that she has been preparing daily fact sheets for her son's lunch box. She prints out three facts every day to create some lunchtime fun for her son, thus enticing him to read more and provoking his intellectual curiosity. I wish my parents had done something like that for me! I confess that most trivia books are insufferably boring. This book is different, packed with interesting, educational and fun ingredients; it seeks to entertain as well as

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

challenge. It will provide you with never-ending intellectual ammunition for a lifetime of dinner parties. You will amaze your friends and family by recounting to them that the greatest Chinese pirate of all times was a woman, or that herrings use flatulence to communicate! The book will be your strongest ally in combatting social awkwardness and will arm you with plenty of icebreaking pieces of trivia, suitable for any occasion. If you like to read for hours about weird trivia and funny facts, then this book is for you! Samuel Walz is an expert in the extraordinary, and will have you entertained for hours and hours with hilarious facts that you never heard before... Useless Facts Galore - Yes, It's A Weird And Crazy World! contains a massive collection of some of the most useless, funny and weird facts, laws and trivia about all kinds of different subjects. You can use this book as a reference guide to create a quiz, or to entertain your friends with the most crazy facts and trivia... Examples: Crime fact: A San Diego man sued the city for emotional trauma during a concert when he saw women using the men's rest room. History fact: Louis XV was the first person to use an elevator: in 1743 his "flying chair" carried him between the floors of the Versailles palace. Food fact: Native Americans never actually ate turkey; killing such a timid bird was thought to indicate laziness. Inventor fact: The first VCR, made in 1956, was the size of a piano. Medical fact: It takes an interaction of 72 different muscles to produce human speech. Musical fact: The rock band Lynyrd Skynyrd took their name from a high school teacher named Leonard Skinner who had suspended several students for having long hair. Geography

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

fact: If you could cut out the United States, its center of gravity would be at Friend, Nebraska. Strange law: In Idaho a citizen is forbidden by law to give another citizen a box of candy that weighs more than 50 pounds. Survey fact: A recent study conducted by the Shyness Clinic in Menlo Park, California, revealed that almost 90 percent of Americans label themselves as shy. - And these are just a tiny fraction of all the facts and trivia that you will find inside Useless Facts Galore - Yes, It's A Weird And Crazy World! Get your copy today, get yourself a drink, find a nice place to relax and just enjoy! Samuel Walz.

"The book about quieting the mind that everyone is talking about." "For people in recovery from the self-help industry." "An ideal book for people who don't read books!" --All humor is philosophy, and according to Austrian linguist Ludwig Wittgenstein: "An entire treatise of philosophy could be written that consists entirely of humorous statements." The Mexican poet Cesar Cruz said: "All art should comfort the disturbed, and disturb the comfortable." Author Evan Hodkins wrote: "The next religion will be a catalog of jokes." And you, dear reader, have stumbled on a unique body of work that juggles all of the above, in bite-sized, easy-to-digest nuggets! As one reader commented, it is: "A mind-expanding, heart-opening, gut-wrenching read." --(Peek inside the book --- Skip the intro & go straight to Chapter 1.)--(From the Preface) - It's rare to find a trifecta of thought streams and modalities as unexpectedly intertwined as what we find in this one-of-a-kind collection of original, one-sentence jokes, aphorisms (or "laughorisms") known as The Eisenberg Principles. In these one-sentence vignettes, the fields of philosophy, physics, and psychology marry into uproariously funny trysts of paradoxical play,

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

each one like a piece of deluxe brain-candy which is no less serious in its treatment of the human condition as it is absurd. We are not only afforded a chance to glimpse into the thoughts of this wondrously twisted thinker, we are challenged to follow him into the surprising and impossible rabbit holes of language he unearths on every page. F. Scott Fitzgerald wrote: "The test of a first-rate intelligence is the ability to hold two opposing ideas in the mind at the same time -- and still retain the ability to function." This catalog of jokes, like a set of modern Zen koans, puts you through this mental test, playing with the principles of paradox, polarity, and incongruity - sometimes right at the "edge" of knowledge - to take you from the comforts of cliché to the chasms of contradiction with just a few strokes of a pen. Eisenberg uses verbal gymnastics to twist and stretch the boundaries of logic, throwing the semantics of everyday expressions into question - hopefully stirring our collective conversation about meaning and consciousness forward. --"When he said humor can lead to enlightenment, he was NOT joking!" "The book that happenend while you were making other plans."

Praise for the Webby Award-winning newsletter: "I eagerly read 'Now I Know' every day. It's always fresh, always a surprise, and always interesting!" --Jimmy Wales, founder of Wikipedia and Wikia Did you know that there are actually 27 letters in the alphabet, or that the U.S. had a plan to invade Canada? And what actually happened to the flags left on the moon? Even if you think you have a handle on all things trivia, you're guaranteed a big surprise with Now I Know. From uncovering what happens to lost luggage to New York City's plan to crack down on crime by banning pinball, this book will challenge your knowledge of the fascinating stories behind the world's greatest facts. Covering 100 outrageous topics, Now I Know is the ultimate challenge for any know-it-all who thinks they have nothing left to learn.

educational and fun things to read. You'll get everything from the weird to the wonderful and from the horrible to the hilarious. Facts such as: Hugh Thompson Jr. ordered his own crew to fire upon friendly soldiers if they wouldn't

Fully reveals the shocking truth! --Daily News * A landmark book completely revised and updated to reveal what men really know about the opposite sex. In a little more than 100 pages, Dr. Alan Francis distills years of research and thousands of interviews to reveal the most comprehensive understanding of men's knowledge and understanding of the opposite sex in *Everything Men Know About Women*. * Fiercely frank and insightfully funny, Dr. Francis literally spells out everything men know on topics ranging from making friends with women to satisfying women in bed. To quote directly from famed Dr. Francis, men already know, about women and this book will teach them. * That's right, between the pages of this telling tome, readers will find 128 blank pages. Because in reality, what do men really know about women? An anthology of True Crime focused on missing persons... The mysterious disappearance of vulnerable people is always a hard one to swallow. When mothers, elderly people, or children go missing, it often causes empathy and panic to both stir within the community. Perhaps the worst is when children disappear without a trace. Children abductions are very rarely done by someone that the child doesn't know. While stranger abductions are far rarer, they're also far more dangerous. People who study missing children have come up with a formula: or every twenty-four hours that a child is missing, the chance of finding them alive reduces by half. As terrifying as that is, it is the unfortunate reality when it comes to missing children. But what about the children that just disappear out of thin air? In some cases, a child is there one minute, and gone the next, with no understanding of where they have gone, or if anyone has

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

taken them. The story of the Frog Boys has confused, intrigued, and saddened people all over the world for the last twenty-seven years. It is a story of five boys who simply walked into the woods, never to be seen again.

Since 1994, Pastor Doug Batchelor has been using historical, scientific, and other amazing facts to share the gospel. And now many of his popular and unusual facts have been compiled into one comprehensive volume! So whether you're preparing a sermon, need an illustration for a children's story, or just enjoy interesting trivia, this book is sure to be a wonderful resource in your home or office.

The book will be a strong and faithful ally preventing social awkwardness by arming you with plenty of icebreaking pieces of trivia, suitable for any occasion. My goal was to write a quiz book that would stand out with interesting, educational and fun content; a book that would both entertain and challenge. The concept is based on the well-known multiple choice format, with an added twist of introducing the "Which is NOT true?" approach for the half of the questions. This approach has its merit in allowing you to learn two crazy facts about people, places or animals by answering a single question. The book is not meant to be "your go-to" book for facts. I assure you however that it is loaded with fun and verified facts presented in a manner that can provide you with hours of entertainment. All the material is fresh, and is not simply recycled from my previous publication. Life is too short to settle for the run-of-the-mill. This book will show you just how fantastical and funny the real world is. It will provide you with never-ending intellectual ammunition for a lifetime of dinner parties. You can use it to organise pub or family quizzes, or use it as a prep tool to give you the edge when participating in these. He was known simply as the Blind Traveler -- a solitary, sightless adventurer who,

astonishingly, fought the slave trade in Africa, survived a frozen captivity in Siberia, hunted rogue elephants in Ceylon, and helped chart the Australian outback. James Holman (1786-1857) became "one of the greatest wonders of the world he so sagaciously explored," triumphing not only over blindness but crippling pain, poverty, and the interference of well-meaning authorities (his greatest feat, a circumnavigation of the globe, had to be launched in secret). Once a celebrity, a bestselling author, and an inspiration to Charles Darwin and Sir Richard Francis Burton, the charismatic, witty Holman outlived his fame, dying in an obscurity that has endured -- until now. *A Sense of the World* is a spellbinding and moving rediscovery of one of history's most epic lives. Drawing on meticulous research, Jason Roberts ushers us into the Blind Traveler's uniquely vivid sensory realm, then sweeps us away on an extraordinary journey across the known world during the Age of Exploration. Rich with suspense, humor, international intrigue, and unforgettable characters, this is a story to awaken our own senses of awe and wonder.

This book is full of fun and verified facts, presented in an accessible manner that I hope will provide you with hours of entertainment. My objective has been to provide you with a lifetime supply of icebreakers and points of discussion. Amaze your friends and family by telling them that pistachios can combust spontaneously or that the holes in pen caps are there to save people from choking to death! Following the success of my site RaiseYourBrain, I decided to collect the best trivia gems and present you with a fact compendium suitable for a wide audience. This is the product of years of sifting through history and references books on a myriad of subjects as well as searching the Internet and paying attention to the news. In 2016, I published "1123 Hard to Believe Facts," which was read by tens of thousands and

Online Library 1123 Hard To Believe Facts From The Creator Of The Popular Trivia Website Raiseyourbraincom Paramount Trivia And Quizzes

accumulated hundreds of 5-star reviews on Amazon and GoodReads. As it has remained in the Top 10 of its category for almost two years now, I decided that another instalment was merited, this time with more illustrations and detailed explanations. This book is suitable for most audiences across the age spectrum. The "spiciest" entries are neatly separated in the chapter "Facts about human and animal sexuality." They remain factual and abstain from profanity. To my greatest delight, an avid reader of my website explained that he was preparing daily fact sheets for his son's lunch box. He prints out three facts every day to create some lunchtime fun for his child in the hope of sparking intellectual curiosity. I honestly wish my parents had done the same for me when I was a lad!

Since the publication of the Institute of Medicine (IOM) report Clinical Practice Guidelines We Can Trust in 2011, there has been an increasing emphasis on assuring that clinical practice guidelines are trustworthy, developed in a transparent fashion, and based on a systematic review of the available research evidence. To align with the IOM recommendations and to meet the new requirements for inclusion of a guideline in the National Guidelines Clearinghouse of the Agency for Healthcare Research and Quality (AHRQ), American Psychiatric Association (APA) has adopted a new process for practice guideline development. Under this new process APA's practice guidelines also seek to provide better clinical utility and usability. Rather than a broad overview of treatment for a disorder, new practice guidelines focus on a set of discrete clinical questions of relevance to an overarching subject area. A systematic review of evidence is conducted to address these clinical questions and involves a detailed assessment of individual studies. The quality of the overall body of evidence is also rated and is summarized in the practice guideline. With the new process, recommendations

are determined by weighing potential benefits and harms of an intervention in a specific clinical context. Clear, concise, and actionable recommendation statements help clinicians to incorporate recommendations into clinical practice, with the goal of improving quality of care. The new practice guideline format is also designed to be more user friendly by dividing information into modules on specific clinical questions. Each module has a consistent organization, which will assist users in finding clinically useful and relevant information quickly and easily. This new edition of the practice guidelines on psychiatric evaluation for adults is the first set of the APA's guidelines developed under the new guideline development process.

These guidelines address the following nine topics, in the context of an initial psychiatric evaluation: review of psychiatric symptoms, trauma history, and treatment history; substance use assessment; assessment of suicide risk; assessment for risk of aggressive behaviors; assessment of cultural factors; assessment of medical health; quantitative assessment; involvement of the patient in treatment decision making; and documentation of the psychiatric evaluation. Each guideline recommends or suggests topics to include during an initial psychiatric evaluation. Findings from an expert opinion survey have also been taken into consideration in making recommendations or suggestions. In addition to reviewing the available evidence on psychiatry evaluation, each guideline also provides guidance to clinicians on implementing these recommendations to enhance patient care.

Which was the first country to give the citizenship to a robot? Is the dark side of the Moon always dark? What is the Sismo Detector? Discover the answers to these seemingly random facts and more! The interesting trivia in this page turning fact book were collected by Nayden Kostov, founder of the RaiseYourBrain website and author of popular fact books such as:

"1123 Hard to Believe Facts" and "853 Hard to Believe Facts." As the third installment of this series, 523 Hard to Believe Facts has more detail for each fact, as requested by previous readers! These facts are a result of years of sifting through history and reference books, as well as searching the Internet and researching the news. Each fact is suitable for nearly any age - the "spiciest" entries are separated by their own chapter but still use clean language! Become a trivia whiz with even more facts in the Hard to Believe Facts series!

This volume examines the phenomenon of fake news by bringing together leading experts from different fields within psychology and related areas, and explores what has become a prominent feature of public discourse since the first Brexit referendum and the 2016 US election campaign. Dealing with misinformation is important in many areas of daily life, including politics, the marketplace, health communication, journalism, education, and science. In a general climate where facts and misinformation blur, and are intentionally blurred, this book asks what determines whether people accept and share (mis)information, and what can be done to counter misinformation? All three of these aspects need to be understood in the context of online social networks, which have fundamentally changed the way information is produced, consumed, and transmitted. The contributions within this volume summarize the most up-to-date empirical findings, theories, and applications and discuss cutting-edge ideas and future directions of interventions to counter fake news. Also providing guidance on how to handle misinformation in an age of "alternative facts", this is a fascinating and vital reading for students and academics in psychology, communication, and political science and for professionals including policy makers and journalists.
