A personal account of the seven life-changing miracles experienced by Evelyn L. Whitfield.

"It seems to me that a good deal has been crowded into my life and I almost feel that if I had to 'lay off' I could easily live on the fond recollections of the past ... I'm almost willing to wager, at this early day, that sometime in the years hence I'll have collected a batch of such sweet and wholesome recollections that can be rated second to none. But best of all, there will be something besides a batch of recollections. For I believe that work with a capital W is the great source of contentment and pleasure, and since consistent work is bound, in my line, to produce something lasting, I hope some day to give pleasure to others in helping them to fish up some pleasant recollection that had most slipped away in the past." -- Albert H. Krehbiel, Paris, France, 1904

Nothing comes easy for rabbit ronin Usagi, not even being a spectator at the planned duel between his former teacher Katsuichi and Katsuichi's rival Nakamura Koji. Before the duel even begins, Usagi becomes embroiled in a dispute between Koji and a local fencing school. Along the way, Usagi discovers a devastating secret — a weakness in Koji's style. It's a secret that could save his teacher's life, but at the cost of his own honor. This 17th volume of Usagi Yojimbo collects issues #43-60, including the entire "Duel at Kitanoji" story, and a handful of other great shorts. And, as a special treat for our longtime fans, this collection features—for the first time!—preliminary sketches and designs by Sakai.

This book is an in-depth, comparative study of two of the most popular and influential intellectual and spiritual traditions of West Africa: Tijani

Sufism and Ifa. Employing a unique methodological approach that thinks with and from—rather than merely about—these traditions, Oludamini Ogunnaike argues that they contain sophisticated epistemologies that provide practitioners with a comprehensive worldview and a way of crafting a meaningful life. Using theories belonging to the traditions themselves as well as contemporary oral and textual sources, Ogunnaike examines how both Sufism and Ifa answer the questions of what knowledge is, how it is acquired, and how it is verified. Or, more simply: What do you know? How did you come to know it? How do you know that you know? After analyzing Ifa and Sufism separately and on their own terms, the book compares them to each other and to certain features of academic theories of knowledge. By analyzing Sufism from the perspective of Ifa, Ifa from the perspective of Sufism, and the contemporary academy from the perspective of both, this book invites scholars to inhabit these seemingly “foreign” intellectual traditions as valid and viable perspectives on knowledge, metaphysics, psychology, and ritual practice. Unprecedented and innovative, *Deep Knowledge* makes a significant contribution to cross-cultural philosophy, African philosophy, religious studies, and Islamic studies. Its singular approach advances our understanding of the philosophical bases underlying these two African traditions and lays the groundwork for future study.

Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international—and intranational—level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of ‘undoing violence’ by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.

Emma Price is only a pit bank wench, but her corn-coloured hair and blue eyes win the love of Paul Felton, younger brother of the colliery owner. Carver Felton has no intention of seeing his brother throw away his future on such a humble girl and savagely rapes Emma, leaving her isolated and pregnant with his bastard child. It looks as though she is destined for the workhouse, but there are kindly folk in Wednesbury: Emma is taken in by butcher Samuel Hollington and his wife and gives birth to her son, Paul, under their care. But Carver Felton has not forgotten the girl he wronged. Once he has ruthlessly achieved his business ambitions, he turns his attentions to finding an heir to the Felton fortune - and he determines to track down Emma and her child.
