A Story of Big Tech Censorship and Bias and the Fight to Save Our Country The madness of Big Tech and their attempt to mold our reality into a version compatible with their globalist view of the world has never been portrayed better than in this chilling account by Google whistleblower, Zach Vorhies. As a senior engineer at Google for many years, Zach was aware of their bias, but watched in horror as the 2016 election of Donald Trump seemed to drive them into dangerous territory. The American ideal of an honest, hard-fought battle of ideas—when the contest is over, shaking hands and working together to solve problems—was replaced by a different, darker ethic alien to this country's history. Working with New York Times bestselling author Kent Heckenlively (Plague of Corruption), Vorhies and Heckenlively weave a tale of a tech industry once beloved by its central figure for its innovation and original thinking, turned into a terrifying intellectual wasteland of brutality and censorship. For Zach, an intuitive counter-thinker, brought up on the dystopian futures of George Orwell, Aldous Huxley, and Ray Bradbury, it was clear that Google was attempting nothing less than a seamless rewriting of the operating code of reality in which many would not be allowed to participate. Using Google's own internal search engine, Zach discovered their six-part plan for complete information dominance and released 950 pages of these documents to the world in June 2019 with an appearance with James O'Keefe on Project Veritas, which quickly became one of their most popular stories. From the globalist enclaves of Silicon Valley in 2016 in the wake of the Trump victory to the November 3, 2020 election, Zach provides a "you are there" perspective on these events and where we may be headed as a country. Read this book if you care about the future of America.

Agriculture Priorities and Allocations System (US Farm Service Agency Regulation) (FSA) (2018 Edition) The Law Library presents the complete text of the Agriculture Priorities and Allocations System (US Farm Service Agency Regulation) (FSA) (2018 Edition). Updated as of May 29, 2018 The Farm Service Agency (FSA) is establishing the regulation for the Agriculture Priorities and Allocations System (APAS). Food is a critical commodity essential to the national defense (including civil emergency preparedness and response). To avoid civilian hardship during national defense emergencies, it may be necessary to regulate the production, processing, storage, and wholesale distribution of food. Through the APAS rule, the U.S. Department of Agriculture (USDA) will respond to requests to place priority ratings on contracts or orders (establishing priority on which contracts or orders are filled first) for agriculture commodities up through the wholesale levels, including agriculture production equipment, and allocate resources, as specified in the Defense Production Act (DPA) of 1950, as amended, if the necessity arises. FSA is implementing this rule as a way to redirect the agriculture commodities and resources to areas of hardship or potential hardship due to national emergencies. In most cases, there is likely to be no economic impact in filling priority orders because it would generally just be changing the timing in which orders are completed. ****Now on Netflix as The Call to Courage**** 'She's so good, Brené Brown, at finding the language to articulate collective feeling' Dolly Alderton Every time we are faced with change, no matter how great or small, we also face risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - or feel guilt for feeling them in the first place. In a powerful new vision Dr Brené Brown challenges everything we think we know about vulnerability, and dispels the widely accepted myth that it's a weakness. She argues that, in truth, vulnerability is strength and when we shut ourselves off from vulnerability - from revealing our true selves - we distance ourselves from the experiences that bring purpose and meaning to our lives. *Daring Greatly* is the culmination of 12 years of groundbreaking social research, across every area of our lives including home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly.

Preface 2012 edition: The United States Code is the official codification of the general and permanent laws of the United States. The Code was first published in 1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First session, enacted between January 3, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited "U.S.C. 2012 ed." As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 USC 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office. -- John. A. Boehner, Speaker of the House of Representatives, Washington, D.C., January 15, 2013--Page VII.
