WHAT AM I DOING HERE? by Dr. LeRoy Maleck O.D. is Book III and potentially the most moving of his life experiences. This book contains the recollections of that time in life when a 22 year old army combat infantry medic was forced to rapidly mature and change forever. The author's first person style and account clearly comes from being there. This book chronicles his entry into the army as seen by a new recruit. The true account continues through basic training, continued training and the introduction to army life and situations that seem as a satire and have humorous moments. Follow his journey with the 137th Infantry Regiment, aboard a troop ship to England. Then in early July, D Day ] 28 Days, his Regiment is on Omaha Beach. Roughly 11 days later he, with his unit is engaged in something his training could not prepare him for, combat with a determined, entrenched enemy. Follow the exploits of war through the eyes of a combat infantry medic who went through, survived, and helped others survive. of some of the most brutal battles faced by the U.S. Army in World War II, Including the Northern France Campaign and the Battle of the Bulge. In addition to an army combat medic's first person account of his participation in World War II, the author has included a sorry about a rather amazing four legged friend, Speed. Speed was his Uncle Bill's dog, companion, and often hunting partner. In contrast to the War chronicles you may find this amazing

A new edition of the trusted bestseller *Intermediate Algebra* offers a practical approach to the study of intermediate algebra concepts, consistent with the needs of today's student. The authors help students to develop a solid understanding of functions by revisiting key topics related to functions throughout the text. They put special emphasis on the worked examples in each section, treating them as the primary means of instruction, since students rely so heavily on examples to complete assignments. The applications (both within the examples and exercises) are also uniquely designed so that students have an experience that is more true to life--students must read information as it appears in headline news sources and extract only the relevant information needed to solve a stated problem. The unique pedagogy in the text focuses on promoting better study habits and critical thinking skills along with orienting students to think and reason mathematically. Through *Intermediate Algebra*, students will not only be better prepared for future math courses, they will be better prepared to solve problems and answer questions they encounter in their own lives.
