Build and modify your Volkswagen Beetle using today's greatest aftermarket parts while implementing historic and modern modifications! If ever a car rolled off the factory floor in the form of a blank slate, the VW Beetle is it. In fact, after taking delivery of their beloved Bug, many owners began modifications and customizations to personalize their favorite German compact. Perhaps the most charismatic automobile ever, the Volkswagen Beetle was the longest-running, most-manufactured automobile on a single platform in automotive history. From 1938 to 2003, more than 21.5 million Bugs were assembled, distributed, and sold on nearly every continent in the world. If there's a component that owners can modify, they'll do it, and each custom touch makes them love their Beetle even more. Airkooled Kustoms, a Volkswagen restoration and modification shop in Hazel Green, Alabama, has served all kinds of classic Volkswagen owners. For those who venture into the world of customization, no modern or historic trend is off-limits. These Volkswagen experts introduce and walk you through some of the most glorious customizations that Beetle owners can make to their rides. You'll find inspiration, instruction, and more modifications than most owners could ever tackle in a lifetime.

One of the main attractions of the VW Bus, apart from its iconic looks and rugged reliability, is the way owners take the bus to heart and into their family, and set about personalizing them through both exterior and interior design and styling. Designing and building [or commissioning] an interior that will service your own needs is a daunting yet exciting task, and within these pages you will find many different sorts of interior to

admire and inspire. Some have been built on a budget from scratch by the owner, some have been adapted and revamped, others are bespoke one-offs, built to the owner's designs. Whatever your taste in camper design, there will be something to amaze and inspire in the pages of VW Camper Inspirational Interiors.

In 1972, after graduating from college, Jerry Steimel set out on a cross country road trip in a 1966 VW Beetle he called Zorba -- named after the literary figure, Zorba the Greek. He aimed to break away from his hometown of Louisville, Kentucky, and explore America--the country sharply divided over the war in Vietnam. He also sought to gain a deeper understanding of himself and the path his life would take. The journey ended prematurely in a small Alabama town far from his goal of California. He returned home, had a life well-lived, but always with a lingering feeling he had some unfinished business. Forty-five years later, during the first year of the Trump Presidency, the country was again in conflict with itself. Steimel took his dream off the shelf, and in a 1973 VW bus began a new journey of self-discovery on the back roads of America. It was a dream deferred, but not forgotten.
