This is a clearly structured introductory English learning book intended to offer readers an advanced fluency in both spoken and written English.

English pronunciations are given in easy way helping the readers to understand the complexities of English pronunciation. If one of those sounds familiar to you, perhaps you have found the right book. This book is essential for you to break through and not only improving your spoken skills but developing them so well regardless of your age. Armed with the proven tips, tricks, and techniques in this book, you'll discover that you'll be soaring to an entirely new and exciting level of learning within days. On top of that, these guidelines can be used nearly effortlessly. Proven Technique That Works You'll discover what "Immersion" is and how it can painlessly take you to a supreme status in your studies. You'll also learn about a related method of learning to pronounce English fearlessly. It's called the "Shadowing." Once you try it you'll realize why so many people praise its effectiveness. Salient Features of the Book: • Self-Sufficient, Self-Study Book. • Detailed Explanation of English Grammar Topics. • Easy tools for Written and Spoken English. • Complete Guide to Error-free usage of English in day-to-day life. • Easy to Grasp Language for better understanding. English is not an easy language to learn. But if you are using proper methods to learn and speak, you'll find that your next level of learning is just a click away. Learn and adopt these techniques, tips, and many more secrets revealed in this book, and your English fluency will be on a whole different level in 60 days ! Remember: Practice doesn't make perfect. Perfect practice makes perfect. Download Now and Start Speaking Fluent English! - Sakha Global Books

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

"[W]e can't come off as a bunch of angry white men." Robert Bennett, chairman of the Ohio Republican Party One of the enduring legacies of the 2012 Presidential campaign was the demise of the white American male voter as a dominant force in the political landscape. On election night, after Obama was announced the winner, a distressed Bill O'Reilly lamented that he didn't live in "a traditional America anymore." He was joined by others who bellowed their grief on the talk radio airwaves, the traditional redoubt of angry white men. Why were they so angry? Sociologist Michael Kimmel, one of the leading writers on men and masculinity in the world today, has spent hundreds of hours in the company of America's angry white men – from white supremacists to men's rights activists to young students –in pursuit of an answer. Angry White Men presents a comprehensive diagnosis of their fears, anxieties, and rage. Kimmel locates this increase in anger in the seismic economic, social and political shifts that have so transformed the American landscape. Downward mobility, increased racial and gender equality, and a tenacious clinging to an anachronistic ideology of masculinity has left many men feeling betrayed and bewildered. Raised to expect unparalleled social and economic privilege, white men are suffering today from what Kimmel calls "aggrieved entitlement": a sense that those benefits that white men believed were their due have been snatched away from them. Angry White Men discusses, among others, the sons of small town America, scarred by underemployment and wage stagnation. When America's white men feel they've lived their lives the 'right' way – worked hard and stayed out of trouble – and still do not get economic rewards, then they have to blame somebody else. Even more terrifying is the phenomenon of angry young boys. School shootings in the United States are not just the work of "misguided youth" or "troubled teens"—they're all committed by boys. These alienated young men are transformed into mass murderers by a sense that using violence against others is their right. The future of America is more inclusive and diverse. The choice for angry white men is not whether or not they can stem the tide of history: they cannot. Their choice is whether or not they will be dragged kicking and screaming into that inevitable future, or whether they will walk openly and honorably – far happier and healthier incidentally – alongside those they've spent so long trying to exclude.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city

itself, while celebrating New York as both a place and an idea.

EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

Chilton's General Motors Full Size Trucks 1988-98 Repair Manual Chilton Book Company

The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and measurements, prices, production figures, standard equipment and more.

The 1973 oil crisis forced the American automotive industry into a period of dramatic change, marked by stiff foreign competition, tougher product regulations and suddenly altered consumer demand. With gas prices soaring and the economy in a veritable tailspin, muscle cars and the massive "need-for-speed" engines of the late '60s were out, and fuel efficient compacts were in. By 1980, American manufacturers were churning out some of the most feature laden, yet smallest and most fuel efficient cars they had ever built. This exhaustive reference work details every model from each of the major American manufacturers from model years 1973 through 1980, including various "captive imports" (e.g. Dodge's Colt, built by Mitsubishi.) Within each model year, it reports on each manufacturer's significant news and details every model offered: its specifications, powertrain offerings, prices, standard features, major options, and production figures, among other facts. The work is heavily illustrated with approximately 1,300 photographs.

Spanning murder cases from the beginning of the twentieth century to today, this is a must-read for fans of true crime and will also be compelling to mystery and thriller readers. The contributors include Harold Schechter, Katherine Ramsland, Carol Anne Davis, Burl Barer, and other leading writers in this genre. In February 1975, nine-year-old Marcia Trimble left her house in Nashville to deliver Girl Scout cookies in the neighborhood. She never returned. After a massive but fruitless search, her body was discovered on Easter Sunday. Outrage and horror gripped the community of Nashville, but the murder investigation was frustrated at every turn. The case went cold for three decades until it was finally solved. In January 1997, Herbert Blitzstein was found murdered in the living room of his Las Vegas townhouse. A notorious mob insider, "Fat Herbie" had pursued loan sharking and other rackets for decades. Now, Blitzstein had been dispatched gangland style—by three bullets to the back of the head—in what appeared to be a classic contract killing. But the details of who killed him and why turned out to be much more complicated, and the real motives and circumstances remain murky to this day. These are just two examples of the riveting stories assembled in this unparalleled collection of some of the top true-crime writers in the world. Each of the seventeen contributors draws on his or her own strengths, backgrounds, interests, and research skills to describe in a vivid narrative not only the facts of each notorious case but also the terrible emotions and macabre circumstances surrounding the crimes.
