Jaguar XJS Paul Skilleter, 2005-03-04 A renowned Jaguar expert offers a comprehensive historical review of the highly collectable XJS series of coupes, cabriolets and convertibles with particular emphasis on quality evaluation, maintenance and upgrades. Jaguar XJS takes the reader through the 20-year history of a model series which, after a lukewarm reception in 1975 by Jaguar enthusiasts who expected a replacement for the famed E-Type, matured through many evolutions into some of the most stylish cars ever to wear the Jaguar badge, earning along the way an enviable reputation on the international motor racing scene.

Original Jaguar XJ Nigel Thorley, 2006 Jaguars epitomize the very best in traditional British automobiles, and the XJ series is one of the most popular and well regarded models. Original Jaguar XJ is the ultimate companion to these cars. For the restorer, collector, or enthusiast interested in the correctness and originality of a classic XJ, this book is essential. The major and minor design changes, production details, mechanics, accessories, and more are explained in meticulous detail.

The Last Jaguar Bruce Bradley, 2006-01-11 He thought he'd found the GRANDDADDY of all mountain lions. When Tom Allison discovered that something had pulled down one of his 1,000-pound longhorn steers and dragged it a quarter-mile across a rocky hillside, he thought it must have been a bear--probably a large grizzly. When he finally got a look at the track he realized he was wrong. The steer had been taken by a cat--a 400-pound cat. But Tom has even bigger problems coming his way....men who would steal everything he owns, and a seven-foot halfbreed Indian who wants to take his son--and will kill anyone who gets in his way!

Lotus 72 Pete Lyons,2019-03-26 This book, the first in Evro's new Formula 1 Greats series, covers one of the most revered Formula 1 cars ever made. Introduced in 1970, the wedge-shaped Lotus 72 competed for six seasons, winning 20 World Championship Grands Prix, two Drivers' titles (for Jochen Rindt in 1970 and Emerson Fittipaldi in 1972) and three Constructors' titles (in 1970, 1972 and 1973), racing first in Lotus's evocative red, white and gold livery, then the equally eye-catching black and gold of the John Player Special period. Pete Lyons, Autosport's renowned Formula 1 reporter for part of the Lotus 72 era, explores the car's entire race-by-race career in his insightful commentary accompanying a magnificent array of more than 300 photos. The 1970 season: after troubled early development, the 72 finally took over from the long-serving 49, its four consecutive race wins enough to secure the World Championship for Jochen Rindt, posthumously after his death during practice for the Italian Grand Prix. The 1971 season: with promising youngster Emerson Fittipaldi elevated to team leader after Rindt's death, great things were expected of the 72's second season but it proved to be winless. The 1972 season: now in black and gold John Player livery, the 72 became far more competitive and Fittipaldi's four Grand Prix victories made him World Champion. The 1973 season: Ronnie 'SuperSwede' Peterson joined Fittipaldi to form a dream team and together they won seven races, but because Lotus's spoils were divided between the two drivers Jackie Stewart was able to come through to become World Champion. The 1974 season: still the 72 soldiered on, now as the fall-back car after its successor, the 76, failed to deliver; partnered by Jacky Ickx, Peterson won three Grands Prix. The 1975 season: well beyond its sell-by date, the 72 did a final season but by now it was far from effective, with Ickx's second place in the tragic Spanish Grand Prix its best result.

Jaguar XJ-S Graham Robson,2007-11-01 The XJ-S was Jaguar's most controversial car. Despite offering a superb blend of performance and refinement it was a radical departure in style from the elegant E-type. It appeared at a time when fuel-thirsty luxury cars were unfashionable. However, Jaguar stuck with the car and the result is a twenty-one year production history and a firm place in the classic jaguar list.

Impact and Explosion M. Y. H. Bangash,1993-07-15 Impact and Explosion: Structural Analysis and Design presents a comprehensive study of the structural dynamics of impact and explosion by providing a survey of types of aircraft, missiles,

bombs, and detonators. Impact dynamics, including empirical models developed for different materials, water surfaces, and soil/rock mediums, is discussed. Other topics include load time history; explosion dynamics related to material damage capabilities; dynamic finite elements with provisions for impact and explosions; a discussion of solution procedures, acceleration, and convergence criteria; methods for designing structures resistant to impact and explosions; and how damage results due to impact or explosions. Case histories, comparative studies, numerous examples, appendices, and extensive references reinforce information presented in this important book for engineers and researchers working in government and private industry laboratories concerned with blast or impact loading effects on structures. Small firms that deal with impact loading (e.g., automobile collisions) will also find this book valuable.

Autocourse 50 Years of World Championship Grand Prix Motor Racing Alan Henry,2000 Tracing the history of Grand Prix racing since the inaugural race was first held on a wartime airfield at Silverstone in 1950, this book examines how motor racing has evolved in spectacular fashion, developing from a minority sport followed by a dedicated few into the worldwide spectacle it is now. Although the book is broadly chronological, it does not describe every race ever run since the creation of the FIA Driver's World Championship, instead it captures the flavour of each period and identifies the trends and technical developments that characterise it. The history also includes a detailed results section.
