This book covers the transition of individuals with mild and moderate disabilities to all aspects of adult life. It includes not only the transition to employment, but also the transition to future living and post-secondary educational environments. Transition Education and Services for Adolescents with Disabilities builds upon the success of past editions, but it also presents a new and fresh look at the areas of transition education and transition services. Two separate models are proposed: one to cover transition education and the other to provide an overview of transition services. The separate-but-equal emphasis on each model component will help readers see their own roles more clearly. For those in pre-service education programs as well as those currently in the field.

The plight of the poorest around the world has been pushed to the forefront of America's international agenda for the first time in many years by the war on terrorism and the formidable challenges presented by the HIV/AIDS pandemic. In March 2002, President Bush announced the creation of the Millennium Challenge Account (MCA). This bilateral development fund represents an increase of \$5 billion per year over current assistance levels and establishes of a new agency to promote growth in reform-oriented developing countries. Amounting to a doubling of U.S. bilateral development aid—the largest increase in decades -- the MCA offers a critical chance to deliberately shape the face that the United States presents to people in poor nations around the world. This book makes concrete recommendations on crafting a new blueprint for distributing and delivering aid to make the MCA an effective tool, not only in its own right, but also in transforming U.S. foreign aid and strengthening international aid cooperation more generally. The book tackles head on the tension between foreign policy and development goals that chronically afflicts U.S. foreign assistance; the danger of being dismissed as one more instance of the United States going it alone instead of buttressing international cooperation; and the risk of exacerbating confusion among the myriad overlapping U.S. policies, agencies, and programs targeted at developing nations, particularly USAID. In doing so, *The Other War* draws important lessons from new international development initiatives, such as the Global Fund to Fight AIDS, TB, and Malaria, the mixed record of previous U.S. aid efforts, trends in the U.S. budget for foreign assistance, the agencies currently involved in administering U.S. development policy, and the importance of the relationship between Congress and the executive branch in determining aid outcomes. The MCA holds the promise of substantially increasing U.S. development assistance and pioneering a new era in aid, but the authors caution against creating yet another example of wasted aid that could undermine political support for foreign assistance for decades to come.

About the Authors Lael Brainard is director of the Brookings/CGD Project on the Millennium Challenge Account and holds the New Century Chair in Economic Studies and Foreign Policy Studies at the Brookings Institution. Carol Graham is Vice President and Director of the Governance Studies Program at the Brookings Institution, where she also directs the Global Poverty Reduction Initiative. Steven Radelet is a senior fellow at the Center for Global Development. Nigel Purvis is a senior scholar in Foreign Policy, Economic, and Governance Studies at the Brookings Institution. Gayle E. Smith is a guest scholar at the Brookings Institution and formerly was senior director for African affairs at the National Security Council.

A major thrust of scientific concern in recent years has been the problem of documenting and conserving biodiversity and the establishment of systems of sustainable development. This volume reviews the practical application of concepts and technologies.

In this #1 New York Times bestseller, Detective Harry Bosch and his rookie partner investigate a cold case that gets very hot . . . very fast. In the LAPD's Open-Unsolved Unit, not many murder victims die a decade after the crime. So when a man succumbs to complications from being shot by a stray bullet ten years earlier, Bosch catches a case in which the body is still fresh, but any other clues are virtually nonexistent. Even a veteran cop would find this one tough going, but Bosch's new partner, Detective Lucia Soto, has no homicide experience. A young star in the department, Soto has been assigned to Bosch so that he can pass on to her his hard-won expertise. Now Bosch and Soto are tasked with solving a murder that turns out to be highly charged and politically sensitive. Beginning with the bullet that has been lodged for years in the victim's spine, they must pull new leads from years-old evidence, and these soon reveal that the shooting was anything but random. As their investigation picks up speed, it leads to another unsolved case with even greater stakes: the deaths of several children in a fire that occurred twenty years ago. But when their work starts to threaten careers

and lives, Bosch and Soto must decide whether it is worth risking everything to find the truth, or if it's safer to let some secrets stay buried. In a swiftly-moving novel as relentless and compelling as its hero, Michael Connelly shows once again why Harry Bosch is "one of the most popular and enduring figures in American crime fiction" (Chicago Tribune).

An Agenda for the Nation What are the biggest issues facing the country as Donald Trump and the GOP-led 115th Congress take office? Any new administration faces a myriad of issues and problems it must take on as it ascends to power. In this volume, Brookings scholars and others offer their solutions, from Ben Bernanke and Richard Bush to Richard Reeves and Dayna Matthew, from Bob Reischauer and Alice Rivlin to Robert Kagan and Elaine Kamarck, to Belle Sawhill, Doug Elmendorf, David Wessel, Bill Galston, and Carol Graham, as well as many others. These powerful essays engage and inform readers on a variety of timely, crucial issues that affect the present and the future of the United States. Much of the focus is on the threatened middle-class dream in America. On the domestic front, Brookings scholars tackle topics ranging from health care and jobs to economic opportunity and trade policy, to criminal justice and infrastructure. The alliance system, relationships with China and Mexico, nuclear weapons, terrorism, and the ongoing conflicts in Afghanistan, Syria, and Iraq are among the foreign policies issues addressed.

Christianity Today 1994 Critics Choice Award winner 1993 Christian Booksellers Association/Europe Book of the Year Award winner People today reject Christianity not because they think it is false but because they believe it is irrelevant. John Stott knows otherwise. In this book he challenges all of us to move with the times while standing firmly on the truth of God's Word. "To be 'contemporary' is to live in the present," Stott writes. "To be a 'contemporary Christian,' however, is to ensure that our present is enriched both by our knowledge of the past and by our expectation of the future." The challenge, then, is to be both conservative and radical--conservative in guarding God's revelation and radical in applying that revelation to the realities of the contemporary world: space travel, homelessness, genetic engineering, pollution, war, health care, gang violence, education and more. Opening our eyes to the Word and the world, Stott shows how Christianity can speak effectively and relevantly to the contemporary world. He includes chapters on the human paradox, authentic freedom, mind and emotions, evangelism and social action, the pastoral ideal and dimensions of renewal. For those familiar with Stott, The Contemporary Christian is a "must-read" book. For those who have not yet benefited from his insight and passion, The Contemporary Christian affords the perfect opportunity to get acquainted with one of the most widely read and respected Christian thinkers at work today.
