In this marvelously original book, three-time Pulitzer Prize finalist Leslie Savan offers fascinating insights into why we're all talking the talk—Duh; Bring it on!; Bling; Whatever!—and what this reveals about America today. Savan traces the paths that phrases like these travel from obscure slang to pop stardom, selling everything from cars (ads for VWs, Mitsubishis, and Mercurys all pitch them as “no-brainer”s) to wars (finding WMD in Iraq was to be a “slam dunk”). Real people create these catchy phrases, but once media, politics, and businesses broadcast them, they burst out of our mouths as celebrity words, newly glamorous and powerful. Witty, fun, and full of thought-provoking stories about the origins of popular expressions, *Slam Dunks and No-Brainers* is for everyone who loves the mysteries of language.

Test reports, profiles, and advice on nearly 200 new cars, sport-utility vehicles, minivans, and pickups are provided by America's #1 consumer product-testing center. 240 photos and charts.

Prepare yourself to relocate from the grievous path of Uncertainty to the indescribable aisle of Destiny to fulfill a God breathed and endowed Purpose. God does not desire for you to live in uncertainty. He desires for you to reach your destiny. Though moments of uncertainty may cloud your atmosphere, God allows them for the simple act of appreciation and for His works to be displayed in your life.

From the high alpine lakes of Idaho and the mighty Madison River of Montana to lesser known creeks and ponds throughout the west, come join the author, Andrew Marshall Wayment, on a journey, which takes you from the halls of the author's law school to

the cathedrals of the great outdoors. Along the way, you will read some good tips on fly fishing, but more importantly, you will learn some deeper spiritual truths that the author found along the way. Heaven on Earth is a compilation of true stories from the author's life with fly fishing as the theme, but used as a vehicle to share a greater message of faith, hope, joy, peace, and our Heavenly Father's love.

A complete revision of the first edition, this book presents the most current concepts of chiropractic diagnostic workup, injury mechanisms, patient management, and prognosis of cervical and soft tissue injuries caused by automobile crashes. It is a comprehensive overview of all relevant issues facing clinicians in private practice. This edition includes five new chapters and includes real world examples that can be used in everyday practice. With an entire section devoted to automobile collision data, crash dynamics, and human tolerance and injury factors, it's extensively referenced from the clinical and automotive crash literature. The second edition contains 5 new chapters that cover:- Emerging concepts in treating chronic whiplash pain has been added to explore some of the newer forms of treating the chronic patient.- Crash speeds and injury risk. This chapter is unique in that it explores various international publications that evaluate the risk. Attempts to dispel myths about crash speeds and gives a forensic overview of the application of these studies.- Have split the original chapter on injury mechanisms into 4 chapters in the

second edition. Chapter 15 focuses specifically into the arena of general applications of biomechanics relating to automobile crashes. Chapters 16-18 provide individual chapters on frontal, side, and rear crash biomechanics. These chapters explore the individual complexities of the varying types of crashes.- Human factors that influence injury and recovery has been added as a separate chapter to provide more detailed information to the clinician. In addition, the authors have focused on adding more information about the sensitivity and specificity of various orthopedic and neurological tests, and have further explored the types of conditions that chiropractors treat.
