From the Chrysler Six of 1924 to the front-wheel-drive vehicles of the 70s and 80s to the minivan, Chrysler boasts an impressive list of technological "firsts." But even though the company has catered well to a variety of consumers, it has come to the brink of financial ruin more than once in its seventy-five-year history. How Chrysler has achieved monumental success and then managed

colossal failure and sharp recovery is explained in *Riding the Roller Coaster*, a lively, unprecedented look at a major force in the American automobile industry since 1925. Charles Hyde tells the intriguing story behind Chrysler-its products, people, and performance over time-with particular focus on the company's management. He offers a lens through which the reader can view the U.S. auto industry from the perspective of the smallest of the automakers who, along with Ford and General Motors, make up the "Big Three." The book covers Walter P. Chrysler's life and automotive career before 1925, when he founded the Chrysler Corporation, to 1998, when it merged with Daimler-Benz. Chrysler made a late entrance into the industry in 1925 when it emerged from Chalmers and Maxwell, and further grew when it absorbed Dodge Brothers and American Motors Corporation. The author traces this journey, explaining the company's leadership in automotive engineering, its styling successes and failures, its changing management, and its activities from auto racing to defense production to real estate. Throughout, the colorful personalities of its leaders-including Chrysler himself and Lee Iacocca-emerge as strong forces in the company's development, imparting a risk-taking mentality that gave the company its verve.

In *Comeback*, Pulitzer Prize-winners Paul Ingrassia and Joseph B. White take us to the boardrooms, the executive offices, and the shop

floors of the auto business to reconstruct, in riveting detail, how America's premier industry stumbled, fell, and picked itself up again. The story begins in 1982, when Honda started building cars in Marysville, Ohio, and the entire U.S. car industry seemed to be on the brink of extinction. It ends just over a decade later, with a remarkable turn of the tables, as Japan's car industry falters and America's Big Three emerge as formidable global competitors. Comeback is a story propelled by larger-than-life characters -- Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith, among many others -- and their greed, pride, and sheer refusal to face facts. But it is also a story full of dedicated, unlikely heroes who struggled to make the Big Three change before it was too late.

Dodge Caravan Chrysler Voyager & Town & Country 2003 thru 2007 Haynes Manuals N. America, Incorporated

It has, improbably, been called uncommonly lucid, even riveting by The New York Times, and it was a finalist for the 2004 National Book Awards nonfiction honor. It is a literally chilling read, especially in its minute-by-minute description of the events of the morning of 9/11 inside the Twin Towers. It is The 9/11 Commission Report, which was, before its publication, perhaps one of the most anticipated government reports of all time, and has been since an unlikely bestseller. The official statement by the National Commission on Terrorist Attacks Upon the United States—which was instituted in late 2002 and chaired by former New Jersey Governor Thomas Kean—it details what went wrong on that day (such as intelligence failures), what went right (the heroic response of emergency services and self-organizing civilians), and how to avert similar future attacks. Highlighting evidence from the day, from airport surveillance footage of the terrorists to phone calls from the doomed flights, and offering details that have otherwise gone unheard, this is an astonishing firsthand document of contemporary history. While controversial in parts—it has been criticized for failing to include testimony from key individuals, and it completely omits any mention of the mysterious collapse of WTC 7—it is nevertheless an essential record of one of the most transformational events of modern times.

Models covered: Dodge Caravan/Mini Ram van and Plymouth Voyager, 1984 thru 1991 ; does not include four-wheel drive information.
