This is a relationship book unlike any one you've ever seen. An American monk who spent 25 years in Tibetan monasteries shares ancient secrets on how to find a partner, keep them, and achieve lasting happiness together. The book consists of answers to 100 questions asked by audiences all over the world during decades of his teachings on the Karma of Love. What's the karma to get my husband to hug me? To get my wife interested in sex again? Can I use karma to stop my girlfriend from texting other guys? Is it possible for physical intimacy to be spiritual? How can we use our relationship to help the world? The answers to the 100 questions are drawn from the teachings of The Diamond Cutter, which is the oldest dated printed book in the world. Michael Roach, the first American in history to receive the coveted Tibetan title of Geshe, or Master of Buddhism, applies the world-changing ideas of his international bestselling personal success book—also called The Diamond Cutter—to every aspect of our relationship: trust, communication, addictions, fun, in-laws, sex, peace, self-esteem, and many others.

An A-Level drop-out graduates from evicting immigrants during the heyday of the inner-city slum landlords in the 1960s to stripping redundant churches during the early 1970s, before moving to northern Sweden equipped only with the proceeds of selling stolen property and some hashish. He finds new sources of hashish even in Sweden but eventually the money runs out, and he returns to London: only to discover it is even worse than when he left. Eric Naiman, a Professor of Russian and Comparative Literature at Berkeley, in a six-page attack on

A.D.Harvey's multitudinous literary crimes in THE TIMES LITERARY SUPPLEMENT in 2013, described Harvey's account of drug-taking and other shenanigans in London and the Swedish Arctic as "barely readable," but perhaps that was because he hadn't actually read it. Another of A.D.Harvey's novels, WARRIORS OF THE RAINBOW was described by THE GUARDIAN as "weirdly compelling" and by THE INDEPENDENT as "free-flowing and poetic...unforgettable."

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

The author of *The Wisdom of Insecurity* and *The Way of Zen* draws upon a variety of religious traditions to explore Taoism, living in the present moment, and more In this collection of writings, including nine new chapters never before available in book form, Alan Watts displays the intelligence, playfulness of thought, and simplicity of language that has made him so perennially popular as an interpreter of Eastern thought for Westerners. He draws on a variety of religious traditions, and covers topics such as the challenge of seeing one's life "just as it is," the Taoist approach to harmonious living, the limits of language in the face of ineffable spiritual truth, and the psychological symbolism of Christian thought. "Life exists only at this very moment, and in this moment it is infinite and eternal. For the present moment is infinitely small; before we can measure it, it has gone, and yet it exists forever. . . . You may believe yourself out of harmony with life and its eternal Now; but you cannot be, for you are life and exist Now." —from *Become What You Are*
