Results Bruce A. Pasternack, Gary L. Neilson, 2005-10-18 Every company has a personality. Does yours help or hinder your results? Does it make you fit for growth? Find out by taking the quiz that's helped 50,000 people better understand their organizations at OrgDNA.com and to learn more about Organizational DNA. Just as you can understand an individual's personality, so too can you understand a company's type—what makes it tick, what's good and bad about it. Results explains why some organizations bob and weave and roll with the punches to consistently deliver on commitments and produce great results, while others can't leave their corner of the ring without tripping on their own shoelaces. Gary Neilson and Bruce Pasternack help you identify which of the seven company types you work for—and how to keep what's good and fix what's wrong. You'll feel the shock of recognition ("That's me, that's my company") as you find out whether your organization is: • Passive-Aggressive ("everyone agrees, smiles, and nods, but nothing changes"): entrenched underground resistance makes getting anything done like trying to nail Jell-O to the wall • Fits-and-Starts ("let 1,000 flowers bloom"): filled with smart people pulling in different directions • Outgrown ("the good old days meet a brave new world"): reacts slowly to market developments, since it's too hard to run new ideas up the flagpole • Overmanaged ("we're from corporate and we're here to help"): more reporting than working, as managers check on their subordinates' work so they can in turn report to their bosses • Just-in-Time ("succeeding, but by the skin of our teeth"): can turn on a dime and create real breakthroughs but also tends to burn out its best and brightest • Military Precision ("flying in formation"): executes brilliant strategies but usually does not deal well with events not in the playbook • Resilient ("as good as it gets"): flexible, forward-looking, and fun; bounces back when it hits a bump in the road and never, ever rests on its laurels For anyone who's ever said, "Wow, that's a great idea, but it'll never happen here" or "Whew, we pulled it off again, but I'm tired of all this sprinting," Results provides robust, practical ideas for becoming and remaining a resilient business. Also available as an eBook From the Hardcover edition.

The Cambridge International Handbook of Lean Production Thomas Janoski,Darina Lepadatu,2021-03-11 This handbook focuses on two sides of the lean production debate that rarely interact. On the one hand, management and industrial engineering scholars have presented a positive view of lean production as the epitome of efficiency and quality. On the other hand, sociology, industrial relations, and labor relations scholars focus on work speedups, management by stress, trade union positions, and self-exploitation in lean teams. The editors of this volume understand the merits of both views and present them accordingly, bridging the gaps among five disciplines and presenting the best of each perspective. Chapters by internationally acclaimed authors examine the positive, negative and neutral possible effects of lean, providing a global view of lean production while adjusting lean to the cultural and political contexts of different nation-states. As the first multi-lens view of lean production from academic and consultant perspectives, this volume charts a way forward in the world of work and management in our global economy.

Brand New Justice Simon Anholt, 2006-08-11 Recently vilified as the prime dynamic driving home the breach between poor and rich nations, here the branding process is rehabilitated as a potential saviour of the economically underprivileged. Brand New Justice, now in a revised paperback edition, systematically analyses the success stories of the Top Thirteen nations, demonstrating that their wealth is based on the 'last mile' of the commercial process: buying raw materials and manufacturing cheaply in third world countries, these countries realise their lucrative profits by adding value through finishing, packaging and marketing and then selling the branded product on to the end-user at a hugely inflated price. The use of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process. Applying his observations on economic history and the development and impact of global marketing, Anholt presents a cogent plan for developing nations to benefit from globalization. So long the helpless victim of capitalist trading systems, he shows that they can cross the divide and graduate from supplier nation to producer nation. Branding native produce on a global scale, making a commercial virtue out of perceived authenticity and otherness and fully capitalising on the 'last mile' benefits are key to this graduation and fundamental to forging a new global economic balance. Anholt argues with a forceful logic, but also backs his hypothesis with enticing glimpses of this process actually beginning to take place. Examining activities in India, Thailand, Russia and Africa among others, he shows the risks, challenges and pressures inherent in 'turning the tide', but above all he demonstrates the very real possibility of enlightened capitalism working as a force for good in global terms.

Overhaul Steven Rattner, 2010-09-13 A uniquely informed investigative account of one of the biggest financial crises of President Obama's early administration. During his first year in office, President Obama faced the possibility of more than a million lost jobs as GM and Chrysler headed for financial ruin. He joined forces with Treasury Secretary Tim Geithner and economic advisor Larry Summers in a historic government intervention to keep these two auto-industry giants afloat, working against a ticking clock and fielding vocal opposition from free market champions along the way. It's from this vantage point that former New York Times financial journalist Steven Rattner witnesses a new administration's grace under

pressure in the face of gross corporate mismanagement—a scenario rich in hard-earned lessons for managers and executives in any industry.

Cultural Criminology Jeff Ferrell, Keith Hayward, Jock Young, 2008-09-25 Winner of the ASC Distinguished Book Award for International Research! 'Beautifully written and superbly conceived, with illustrations and examples that combine theory and practice across a range of disciplines, Cultural Criminology should be read by anyone - academics and smart readers alike - interested in crime, media, culture and social theory. Bravo to Ferrell, Hayward and Young on a tour de force that is at once cool and classic! Cultural Criminology will influence the field for a very long time to come.' - Professor Lynn Chancer, Hunter College, CUNY, USA `This is not just a book on the present state and possible prospects of our understanding of crime, criminals and our responses to both. However greatly criminologists might benefit from the authors' illuminating insights and the new cognitive vistas their investigations have opened, the impact of this book may well stretch far beyond the realm of criminology proper and mark a watershed in the progress of social study as such.' - Zygmunt Bauman, Emeritus Professor, University of Leeds, UK `Cultural Criminology offers a fresh new perspective on both criminality and criminal justice. It outlines the cultural hegemony of the powerful while also documenting the growing resistance to mindless criminalization and mass incarceration. Artfully written, the authors also document the work of those consciously creating a new political space to challenge the increasingly global, security society that seems inextricably tied up with late capitalism.' - Meda Chesney-Lind, University of Hawaii at Manoa `Creative, challenging and controversial: a manifesto for mean times' - Tony Jefferson, Visiting Presidential Scholar, John Jay College of Criminal Justice, USA Here is the definitive book on cultural criminology. Lively, innovative, engaging and accessible, Cultural Criminology draws together the work of three of the leading international figures in the field today. The book traces the history, current configuration, methodological innovations and future trajectories of cultural criminology, mapping its terrain for students and academics interested in this exciting field. The book highlights and analyses issues of representation, meaning and politics in relation to crime and criminal justice, covering areas such as: - Crime and the media - Everyday life and everyday transgression - Popular culture - Consumerism - Globalisation - Social control The use of vignettes, case studies and visual material throughout the text brings the subject to life. Cultural Criminology is indispensable to students, lecturers and researchers in criminology, sociology, cultural studies and media studies. Jeff Ferrell is Professor of Criminal Justice at Texas Christian University and Visiting Professor at the University of Kent. Keith Hayward is Director of Studies for Criminology/ Senior Lecturer in Criminology at the University of Kent. Jock Young is Professor of Sociology at the University of Kent and Distinguished Professor at John Jay College, CUNY.
