English words are astonishingly versatile and could readily be made to serve a new and extraordinary purpose, but nobody seems to care about this except SPAL (Society for the Promotion of the Anguish Languish).[1] In keeping with its lofty ideals and its slogan, ANGUISH FOR EVERYBODY, the Society is sponsoring this little text, which has three aims: 1. To improve the public's understanding of the Anguish Languish. 2. To improve the academic standing of the Anguish Languish. 3. To improve the social and financial standing of the Society. ? Policemen and Magicians A visiting professor of Anguish, Dr., who, while learning to understand spoken English, was continually bewildered and embarrassed by the similarity of such expressions as boys and girls and poisoned gulls, used to exclaim: "Gracious! What a lot of words sound like each other! If it wasn't (sic) for the different situations in which we hear 'em, we'd have

a terrible time saying which was which." Of course, these may not have been the professor's exact words, because he often did his exclaiming in Anguish rather than in English. In that case he would say: "Crashes! Water larders warts sunned lack itch udder! Effervescent further deferent saturations an witch way harem, wade heifer haliver tam sang witch worse witch." Dr. -- was right, both in English and Anguish. Although other factors than the pronunciation of words affect our ability to understand them, the situation in which the words are uttered is of prime importance. You can easily prove this, right in the privacy of your own kitchen, by asking a friend to help you wash up a dozen cops and sorcerers. Ten to one, she'll think you said a dozen cups and saucers, and be genuinely surprised if you put her to work cleaning up even one police officer, let alone all the others, and the magicians, too. If you think that she misunderstands merely because the two phrases sound somewhat alike and not because of the situation, read what SPAL's Committee on Housewives has to say: "Presented with a dishes-piled-in-sink situation, several hundred well-adjusted housewives thought that cops and sorcerers referred to dishes, but seldom did normal subjects, interviewed under the same conditions, make the opposite mistake. When they were asked to help us wash cups and saucers, some women consented, some made stupid excuses, and some told us bluntly to go wash them ourselves, but practically no one thought that we were talking about policemen and magicians." "Are empty mustard off mar fate Are empty catsup off mouse hole." What Anguish Really Is. ? The experiments described above, and hundreds of similar ones conducted by SPAL show that an unbelievable number of English words, regardless of their usual meanings, can be substituted quite satisfactorily for others. When all the words in a given passage of English have been so replaced, the passage keeps its original meaning, but all the words have acquired new ones. A word that has received a new meaning has become a wart, and when all the words in the passage have become warts, the passage is no longer English; it's Anguish. Are There Any Good Reasons to Study Anguish? ? This is not an altogether silly question, and it deserves the prompt and unequivocal answer any Anguish Languish enthusiast will give it. "Watcher mane, ardor rainy gut raisins toe sturdy anguish?" he will say, and will probably give you an impressive list of them which will certainly include the following: 1. Anguish is fun. 2. Anguish Languish means verbal economy. 3. Anguish helps out in certain social situations.
