The automobile industry is evolving rapidly on a worldwide basis. Manufacturers are merging, component design and manufacture are now frequently outsourced instead of being created in-house, brands are changing and the giant auto makers are expanding deeper into providing financial services to car buyers. The skyrocketing price of gas spurs developments in hybrid technology and clean diesel, as manufacturers look for ways to improve fuel efficiency. Meanwhile, all of the biggest, most successful firms have become totally global in nature. Plunkett's Automobile Industry Almanac will be your complete guide to this immense, fascinating industry. On the car dealership side, giant, nationwide holding companies have acquired the best dealers in major markets. Even the used car business is being taken over by national chains. E-commerce is having profound effects on the car industry. Consumers use the Internet to become better informed before making a purchase. Online sites like Autobytel steer millions of car buyers toward specific dealers while the same sites deliver competing bids for cars, insurance and financing in a manner that lowers costs and improves satisfaction among consumers. Meanwhile, auto makers are using the latest in e-commerce methods to manage their supply chains and replenish their inventories. This exciting new book (which includes a database on CD-ROM) is a complete reference tool for everything you need to know about the car, truck and specialty vehicles

business, including: Automotive industry trends and market research; Mergers, acquisitions, globalization; Automobile manufacturers; Truck makers; Makers of specialty vehicles such as RVs; Automobile loans, insurance and other financial services; Dealerships; Components manufacturers; Retail auto parts stores; E-commerce ; and much, much more. You'll find a complete overview, industry analysis and market research report in one superb, value-priced package. This book also includes statistical tables, an automobile industry glossary, industry contacts and thorough indexes. Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

A thought-provoking essay on the troubling issue of racism explains how self-serving individuals and political hacks have used accusations of racism, sexism, homophobia, and other kinds of bias to further their own agenda, in a study that blends legal analysis and anecdotes to call for the treatment of racism as a social problem requiring understanding and honest evaluation. Alternately lauded as the future of architecture or dismissed as pure folly, revolving buildings are a fascinating missing chapter in architectural history with surprising relevance to issues in contemporary architectural design. Rotating structures have been employed to solve problems and create effects that stationary buildings can't achieve. Rotating buildings offered ever-changing vistas and made interior spaces more flexible and adaptable. They were used to impress visitors, treat patients, and improve the green qualities of a structure by keeping particular rooms in or out of the sun. The follow-up to his critically acclaimed book *A-frame*, Chad Randl's *Revolving Architecture: A History of Buildings that Rotate, Swivel, and Pivot* explores the history of this unique building type, investigating the cultural forces that have driven people to design and inhabit them. *Revolving Architecture* is packed with a variety of fantastic revolving structures such as a jail that kept inmates under a warden's

constant surveillance, glamorous revolving restaurants, tuberculosis treatment wards, houses, theaters, and even a contemporary residential building whose full-floor apartments circle independently of each other. International examples from the late 1800s though the present demonstrate the variety and innovation of these dynamic structures.

New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Sarah Bartlett was an Academy Award-nominated film star, an Emmy-nominated television actress and a Tony-

nominated stage performer. She was also awarded her very own Varsity Jacket by the former director of the US Department of Music's Federal Hip Hop Administration. Appearing in over 20 films (including *Hearts of Sorrow*, *Hearts of Celery*; *Perkwit's Secret Bramboráky* (the fourth installment of the *Blurg* movies), and *Shadow of the Fish*), she also starred on stage in such shows as *Howling at the Moon: The Dog Musical*; *Billiard Balls of Death*; and *Dreadful About Those Shock Treatments, Eh?* The woman was also an accomplished musician who performed guitar and baglama not only with her own group (*Zooney's Lampshade*) but also with the *Hattiesburg Symphony Orchestra* and *Industrial Pole Bean Outlet*; with the *Palm Frond and Banana Spider Symphony Orchestra*; and with the '56 *Elvis Quintet* at the *Memphis in November: From Too Cool to Too Cold Music, Art and Law Practice Festival*). There were other sides to Sarah, sides that she preferred people not know much about, sides involving Queen Victoria costumes, drinking way too many sodas at one sitting, and that whole ceramic curry serving bowl (from 2400 BCE) incident, which she knew would greatly upset anthropologists all over the world. Here, for the first time, is the entire story of Sarah Bartlett's life, including her children, her husband, her boyfriend, her shoes, her Toyota Cadberry, and her dreams (some of them involving picture frames made of cheese; some of them involving the Poky Little Puppy; some of them involving Gloria Swanson wearing a miniskirt, a pair of orange flip-flops and a T-shirt with a picture of Andy Warhol and the phrase "Hey, look, I'm a can of soup" on it; some of

them involving cats with lobster claws for legs; and some of them involving copious amounts of Ranch Dressing). The book also includes over 150 illustrations, and some of them actually make sense. If you're looking for a book that offers the best ratio of cost per laugh, look no further. Further? Farther? Wait, let's think this out. Uhh, farther has an a in it, and measure has an a in it, so farther relates to distance. So, yeah, further is the right adjective to use. The Seattle Drainpipe Gazette says, "Rigatoni is to books as cat hair is to dogs." The Farmington Inquirer calls Rigatoni "unobtrusive," "mildly trapezoidal," and "looks great under some flowerpots." And the Tucson Rock Trader says, "If we crowdfund, we can raise enough money to get this author the serious help he so obviously needs. This isn't a cry for help, this is a sustained scream through a set of Peavey Dark Matter DM 118 Powered PA Subwoofer Speakers." The Ohio Farmer Official Gazette of the United States Patent and Trademark Office Patents Revolving Architecture A History of Buildings That Rotate, Swivel, and Pivot Princeton Architectural Press American Motorcyclist magazine, the official journal of the American Motorcyclist Association, tells the stories of the people who make motorcycling the sport that it is. The relationship between the United States and Saudi Arabia has always been a marriage of convenience, not affection. In a bargain cemented by President Roosevelt and Saudi Arabia's founding king in 1945, Americans gained access to Saudi oil, and the Saudis sent the dollars back with purchases of American planes, American weapons, American construction projects and American know-how that brought them modernization, education and security. The marriage has suited both sides. But how long can it last? In *Inside the Mirage*, veteran Middle East journalist Thomas W. Lippman shows that behind the official proclamations of friendship and alliance lies a complex relationship that has often
