Chris Coste dreamed of playing major-league baseball from the age of seven. But after eleven grueling years in the minors, a spot on a major-league roster still seemed just out of his reach—until that fateful call came from the Philadelphia Phillies in May 2006. At age thirty-three (“going on eighty”), Coste was finally heading to the big time. The 33-Year-Old Rookie is like a real-life Rocky, an unforgettable and inspirational story of one man’s unwavering pursuit of a lifelong goal. Beginning in a single-parent home in Fargo, North Dakota, and ending behind home plate on the flawless diamond of the Phillies’ Citizens Bank Park—where fans and teammates call him “Chris Clutch” because of his knack for getting timely hits—this intimate account of Coste’s baseball odyssey is a powerful story of determination, perseverance, and passion. For eleven seasons, Coste hustled, fought, and gritted his way to his breakthrough—and never lost faith in his abilities. Along the way, he gained the affection and admiration of baseball fans from Ottawa and Scranton to various Mexican and Venezuelan cities. Battered by years spent behind a catcher’s mask, and faced with bracing realities—there were bills to pay, and his young daughter was entering first grade—Coste decided to give it one last shot in 2006. But that year, during the Phillies’ major-league spring training, Coste was demoted to the minors at the last minute to make room for a utility outfielder, despite having hit a blistering .463 and earning the trust of the team’s pitchers. Later that season, though, Coste finally got the call-up, and he hit .364 during the Phillies’ furious battle to nail down the final postseason berth. Coste takes us through the 2006 spring training season—with its pulse-quickening moments

and close calls—and into his first season as a major-league catcher with the Phillies. From tense stretch-run games that kept Phillies' fans on the edge of their seats to moments of intimate personal reflection, Coste's saga offers baseball aficionados an inside look at a remarkable life and career. In this stirring, wry, and candid look at the life of a professional baseball nomad who never surrendered his dream, we savor the sometimes bittersweet fruits of victory against seemingly insurmountable odds.

Alex Davies tells the dramatic, colorful story of the quest to develop driverless cars—and the fierce competition between Google, Uber, and other companies in a race to revolutionize our lives. The self-driving car has been one of the most vaunted technological breakthroughs of recent years. But early promises that these autonomous vehicles would soon be on the roads have proven premature. Alex Davies follows the twists and turns of this story from its origins to today. The story starts with the Defense Advanced Research Projects Agency (DARPA), which was charged with developing a land-based equivalent to the drone, a vehicle that could operate in war zones without risking human lives. DARPA issued a series of three “Grand Challenges” that attracted visionaries, many of them students and amateurs, who took the technology from Jetsons-style fantasy to near-reality. The young stars of the Challenges soon connected with Silicon Valley giants Google and Uber, intent on delivering a new way of driving to the civilian world. Soon the automakers joined the quest, some on their own, others in partnership with the tech titans. But as road testing progressed, it became clear that the challenges of driving a car without human assistance were more formidable than anticipated. Davies profiles the industry’s key players from the early

enthusiasm of the DARPA days to their growing awareness that while this spin on artificial intelligence isn't yet ready for rush-hour traffic, driverless cars are poised to remake how the world moves. *Driven* explores this exciting quest to transform transportation and change our lives.

The tale of two American teenagers recruited as killers for a Mexican cartel, and the Mexican-American detective who realizes the War on Drugs is unstoppable. "A hell of a story...undeniably gripping." (The New York Times) In this astonishing story, journalist Dan Slater recounts the unforgettable odyssey of Gabriel Cardona. At first glance, Gabriel is the poster-boy American teenager: athletic, bright, handsome, and charismatic. But the ghettos of Laredo, Texas—his border town—are full of smugglers and gangsters and patrolled by one of the largest law-enforcement complexes in the world. It isn't long before Gabriel abandons his promising future for the allure of juvenile crime, which leads him across the river to Mexico's most dangerous drug cartel: Los Zetas. Friends from his childhood join him and eventually they catch the eye of the cartel's leadership. As the cartel wars spill over the border, Gabriel and his crew are sent to the States to work. But in Texas, the teen hit men encounter a Mexican-born homicide detective determined to keep cartel violence out of his adopted country. Detective Robert Garcia's pursuit of the boys puts him face-to-face

with the urgent consequences and new security threats of a drug war he sees as unwinnable. In *Wolf Boys*, Slater takes readers on a harrowing, often brutal journey into the heart of the Mexican drug trade. Ultimately though, *Wolf Boys* is the intimate story of the lobos: teens turned into pawns for the cartels. A nonfiction thriller, it reads with the emotional clarity of a great novel, yet offers its revelations through extraordinary reporting.

Since 1991, the popular and highly modifiable Ford 4.6-liter has become a modern-day V-8 phenomenon, powering everything from Ford Mustangs to hand-built hot rods and the 5.4-liter has powered trucks, SUVs, the Shelby GT500, and more. The wildly popular 4.6-liter has created an industry unto itself with a huge supply of aftermarket high-performance parts, machine services, and accessories. Its design delivers exceptional potential, flexibility, and reliability. The 4.6-liter can be built to produce 300 hp up to 2,000 hp, and in turn, it has become a favorite among rebuilders, racers, and high-performance enthusiasts.

4.6-/5.4-Liter Ford Engines: How to Rebuild expertly guides you through each step of rebuilding a 4.6-liter as well as a 5.4-liter engine, providing essential information and insightful detail. This volume delivers the complete nuts-and-bolts rebuild story, so the enthusiast can professionally rebuild an engine at home and achieve the desired performance goals. In

The automobile industry is evolving rapidly on a worldwide basis. Manufacturers are merging, component design and manufacture are now frequently outsourced instead of being created in-house, brands are changing and the giant auto makers are expanding deeper into providing financial services to car buyers. The skyrocketing price of gas spurs developments in hybrid technology and clean diesel, as manufacturers look for ways to improve fuel efficiency. Meanwhile, all of the biggest, most successful firms have become totally global in nature. Plunkett's Automobile Industry Almanac will be your complete guide to this immense, fascinating industry. On the car dealership side, giant, nationwide holding companies have acquired the best dealers in major markets. Even the used car business is being taken over by national chains. E-commerce is having profound effects on the car industry. Consumers use the Internet to become better informed before making a purchase. Online sites like Autobytel steer millions of car buyers toward specific dealers while the same sites deliver competing bids for cars, insurance and financing in a manner that lowers costs and improves satisfaction among consumers. Meanwhile, auto makers are using the latest in e-commerce methods to manage their supply chains and replenish their inventories. This exciting new book (which includes a database on CD-ROM) is a complete reference tool for everything you need to know about the car, truck and specialty vehicles business, including: Automotive industry trends and market research; Mergers, acquisitions, globalization; Automobile manufacturers; Truck makers; Makers of specialty vehicles such as RVs; Automobile loans,
