Point Sur Lightstation was carved out of solid volcanic rock more than a century ago. When the light was turned on in 1889, no towns or roads were nearby to support the four families that lived atop the giant "moro" rock located just offshore in Big Sur, California. These vintage images tell the story of Pt. Sur Lightstation with its state-of-the-art lighthouse and fog signal system, and the lightkeepers and their families who kept it operating until 1974. The remote location and treacherous coast were constant adversaries. Today, Pt. Sur's lighthouse is automated. The vacant lightstation buildings are a ghost town that reminds us of our proud maritime heritage and the hearty souls who helped light the way.

Available in English for the first time—the internationally bestselling graphic novel and an Official Selection at France's prestigious Angoulême International Comics Festival by master illustrator-storyteller Chabou  (Park Bench, Moby-Dick). On a tiny lighthouse island far from the rest of the world, a lonely hermit lives out his existence. Every week a supply boat leaves provisions, its occupants never meeting him, never asking the obvious questions: Who are you? Why do you hide? Why do you never leave? What is it like to be so alone? Years spent on a deserted rock—a lifetime, really—with imagination his sole companion has made the lighthouse keeper something more than alone, something else entirely. For him, what lies beyond the horizon might be...nothing. And so, why not stay put? But one day, as a new boatman starts asking the questions all others have avoided, a chain of events unfolds that will irrevocably upend the hermit's solitary life.... Filled with stunning and richly executed black-and-white illustrations, Alone is Chabou 's masterpiece—an unforgettable tale where tenderness, despair, and humor intertwine to flawlessly portray how someone can be an everyman, and every man is someone. Translated from the French by Ivanka Hahnenberger.

As his ship rounded the high point off Point Loma, San Diego, in 1859, Richard Henry Dana wrote, "We were greeted by the cheering presence of a light-house." In reality, beams from San Diego's first lighthouse were repeatedly lost in cloud and fog, and all too soon came agitation for a more effective light at a lower elevation. By 1891, two new lighthouses were constructed to achieve what one could not--a major light on the low tip of Point Loma and a secondary light at Ballast Point. Although abandonment of the first lighthouse structure was nearly catastrophic, it still survives today to charm millions of visitors. Now, and long overdue, are new glimpses of the famous and lesser-known lighthouses of San Diego thanks to the memories and photographs belonging to families of the men who kept the lights burning. Dawn Conners's parents are famous for finding historic treasures, but she has a knack for losing things—her job, her boyfriend, and now, her reputation. Thanks to a mud-slinging exposé, Dawn's late great-grandfather is assumed guilty of stealing silver from a century-old shipwreck. Hoping to clear his name, Dawn returns to Starlight Cove, her idyllic hometown on Lake Michigan, where the doomed vessel sleeps beneath the beam of a ramshackle lighthouse. Her plan: remodel and sell the lighthouse while untangling the perplexing family mystery. Neither task is easy, especially once her well-meaning parents and the quirky locals—including nautical researcher and Starlight Cove's most eligible bachelor, Kip Whittaker—get involved. Despite their attraction, Dawn is reluctant to trust Kip, or any of the close-knit townsfolk. But as she pieces together the truth, Dawn's once-shuttered heart opens up. And if she's willing, the lighthouse might guide her to a place she never expected to find, where the past entwines with a bright new beginning.

Public policy is a set of principles used to uphold the well-being of citizens. These principles are often unwritten and form the basis of social laws. This book focuses on 'unlocking the black box of UAE Public Policy'. It presents several cases that give an insight into the UAE leadership, the areas the government has prioritized and how these fold into UAE Vision 2021. Viewpoints on provoking topics by thought leaders like Her Excellency Sheikha Lubna bint Khalid Al Qasimi, UAE Cabinet Member and UAE Minister of State for Tolerance; Fadi Ghandour, Co-Founder and Vice Chairman of Aramex and Managing Partner, Wamda Capital and Christopher M. Schroeder, Venture Investor and Author. Under the leadership of His Highness Sheikh Mohammed bin Rashid Al Maktoum, Prime Minister and Vice President of UAE and Ruler of Dubai, Dubai has grown from a tiny village by a creek to a globally recognized megapolis. Through these cases, you will get a glimpse of strategic decisions taken by His Highness Sheikh Mohammed and how these decisions taken by the UAE Government have led to the creation of one of the most connected cities and competitive countries in the world. The book is divided into six sections: Government leadership, national competitive advantage, social and sustainable development, national human capital development, entrepreneurship and government systems. The UAE 2021 Vision aims for UAE to be one of the top 10 countries in the world. The future focus for UAE is to increase competitiveness in foreign markets especially looking at trade, entrepreneurship and focusing on seven high-value adding innovation sectors like renewable energy, transport, education, health, technology, water, and space. One of the challenges this resource-rich country has had is moving away from oil dependency. By 2016, oil formed less than 30% of the UAE GDP, and the plan is to have a 20% dependency by 2021. The book covers a variety of cases that address many of these issues. This book can be used to teach public policy and help international industry leaders and academics understand the context of UAE and the role it plays in the global arena. This project is a series by the Academy of International Business - MENA chapter, supported by the Mohammed Bin Rashid School of Government, Dubai. The acclaimed author of *Carved in Sand*—a veteran investigative journalist who endured persistent back pain for decades—delivers the definitive book on the subject: an essential examination of all facets of the back pain industry, exploring what works, what doesn't, what may cause harm, and how to get on the road to recovery. In her effort to manage her chronic back pain, investigative reporter Cathryn Jakobson Ramin spent years and a small fortune on a panoply of treatments. But her discomfort only intensified, leaving her feeling frustrated and perplexed. As she searched for better solutions, she exposed a much bigger problem. Costing roughly \$100 billion a year, spine medicine—often ineffective and sometimes harmful—exemplified the worst aspects of the U.S. health care system. The result of six years of intensive investigation, *Crooked* offers a startling look at the poorly identified risks of spine medicine, and provides practical advice and solutions. Ramin interviewed scores of spine surgeons, pain management doctors, physical medicine and rehabilitation physicians, exercise physiologists, physical therapists, chiropractors, specialized bodywork practitioners. She met with many patients whose pain and desperation led them to make life-altering decisions, and with others who triumphed over their limitations. The result is a brilliant and comprehensive book that is not only important but essential to millions of back pain sufferers, and all types of health care professionals. Ramin shatters assumptions about surgery, chiropractic methods, physical therapy, spinal injections and painkillers, and addresses

evidence-based rehabilitation options—showing, in detail, how to avoid therapeutic dead ends, while saving money, time, and considerable anguish. With *Crooked*, she reveals what it takes to outwit the back pain industry and get on the road to recovery.

For centuries, the hard-packed shoal at Thomas Point menaced Chesapeake Bay mariners. Even after two separate stone towers were built on the shoreline, sailors continued to request a light at the end of the mile-long shoal. When a new lighthouse was finally approved in 1873, experts deemed its novel design too fragile for the location--it was built anyway. Long overdue and of an inappropriate design, the iconic Thomas Point Shoal Lighthouse was lit in November 1875 and continues to serve mariners. Thomas Point is the last Chesapeake Bay screwpile-style lighthouse in its original location and one of only twelve American lighthouses designated as a National Historic Landmark. Join Annapolis sailor David Gendell as he explores Thomas Point.
