This book discusses the rapidly growing interest in economic diversification through partnerships between industry, university and government (IUGP), with a focus on the economic diversification of the state of Qatar. It provides a comparative account of the knowledge ecosystem in the USA, Norway, Singapore and Qatar, and offers an evolutionary, national economic-transformational perspective on legislation, institutional and cultural settings, intermediary structures, and support programs. Providing a broad overview of the knowledge ecosystems in these countries, it is suitable for readers at various learning levels. It also includes case studies and a concise comparison of the Global Innovation Index (GII) of the four countries, and explores in detail the under-par comparative performance of Qatar, revealing that the country is still at the engagement level of IUGP. Further, it proposes evidence-based recommendations and strategies, making it a valuable resource for researchers, graduate students and policymakers.

This is a guide to computer-readable databases available online, in CD-ROM format, or in other magnetic formats. Details include database descriptions, costs, and whom to contact for purchase. The material is indexed alphabetically, and by subject, vendor, and producer.

The year 2019 marked a time of growth and renewed commitments for FAO's Flexible Multi-Partner Mechanism (FMM), the main pooled funding mechanism for resource partners to contribute flexible, voluntary, annual, and multi-year resources to the Organization for the achievement of results under FAO's Strategic Framework and the realization of catalytic impact. This annual report provides an overview of major improvements and transformational changes to the FMM since 2018, in addition to presenting key achievements, challenges, and lessons learned thus far in the implementation of the Fund in 2019.
