This book is designed to be an ancillary to the classes, labs, and hands on practice that you have diligently worked on in preparing to obtain your SC-400: Microsoft Information Protection Administrator certification. I won't bother talking about the benefits of certifications. This book tries to reinforce the knowledge that you have gained in your process of studying. It is meant as one of the end steps in your preparation for the SC-400 exams. This book is short, but It will give you a good gauge of your readiness. Learning can be seen in 4 stages: 1.
