201 Icebreakers PbMcGraw Hill Professional

This collection of 50 icebreakers is organized around common business situations. 50 illustrations.

Shortlisted for the Financial Times and Goldman Sachs Business Book of the Year Prize 2008 *The Snowball* is the first and will be the only biography of the world's richest man, Warren Buffett, written with his full cooperation and collaboration. Combining a unique blend of "The Sage of Omaha's" business savvy, life story and philosophy, *The Snowball* is essential reading for anyone wishing to discover and replicate the secrets of his business and life success. Warren Buffett is arguably the world's greatest investor. Even as a child he was fascinated by the concept of risk and probability, setting up his first business at the age of six. In 1964 he bought struggling Massachusetts textile firm Berkshire Hathaway and grew it to be the 12th largest corporation in the US purely through the exercise of sound investing principles - a feat never equalled in the annals of business. Despite an estimated net worth of around US\$62 billion, Buffett leads an intriguingly frugal life taking home a salary of only £50,000 a year. His only indulgence is a private jet, an extravagance he wryly acknowledges by calling it "The Indefensible". In 2006, he made the largest charitable donation on record, with most of it going to the Bill & Melinda Gates Foundation. *The Snowball* provides a comprehensive, richly detailed insight one of the world's most extraordinary and much loved public figures.

Moving Beyond Icebreakers contains 440 pages packed with insight and ideas about building community, engaging students in learning, and making meetings work. It describes an innovative meeting format and documents over 300 interactive exercises (not just "icebreakers") that enable readers to: * Achieve group goals * Build relationships * Resolve group problems * Teach, lead, motivate, and inspire The first 130 pages describe how to use "icebreakers" and other interactive methods to help group members make decisions, create new ideas, solve problems, resolve conflicts, and understand new concepts. In these pages you will find a five-part meeting structure that you can use to become an expert facilitator, following an approach that engages both youth and adults in meeting the group's goals. You will also find detailed agendas, lesson plans, and scenarios that show how this approach works in the real world. Table of contents: * Why use interactive methods? * Working into interaction * Coping with resistance and fear of failure * The interactive meeting format * Interactive exercises (name exercises, warm-up questions, five-minute springboard exercises, fifteen-minute springboard exercises, in-your-chair springboard exercises, tag-style springboard exercises, springboard exercises for groups both large and small, the rest of the springboard exercises, work-station exercises, evaluation exercises).

Engineering Innovation is an overview of the interconnected business and product development techniques needed to nurture the development of raw, emerging technologies into commercially viable products. This book relates Funding Strategies, Business Development, and Product Development to one another as an idea is refined to a validated concept, iteratively developed into a product, then produced for commercialization. *Engineering Innovation* also provides an introduction to business strategies and manufacturing techniques on a technical level designed to encourage passionate clinicians, academics, engineers and savvy entrepreneurs. Offers a comprehensive overview of the process of bringing new technology to market. Identifies a variety of technology management skill sets and management tools. Explores concept generation in conjunction with intellectual property development for early-stage companies. Explores Quality and Transfer-to-Manufacturing.

religious studies, Ernst describes how Protestant definitions of religion and anti-Muslim prejudice have affected views of Islam in Europe and America. He also covers the contemporary importance of Islam in both its traditional settings and its new locations and provides a context for understanding extremist movements like fundamentalism. He concludes with an overview of critical debates on important contemporary issues such as gender and veiling, state politics, and science and religion.

In *Teacher in the Cupboard: Self-reflective, solution-focused teaching and learning*, Lisa Jane Ashes takes educators on a self-reflective journey that will inspire them to challenge the 'how to', tick-box approach to teaching. Even if all the problems in your classroom have been solved by the time you read this, plenty more would surface to take their place ... And while each problem has multiple solutions, you'll need your creativity in order to find them. In this book, Lisa explores how spending time 'in the cupboard' - a metaphor for removing yourself from a situation and seeing it through a more objective lens - can help teachers come up with creative solutions to everyday challenges and positively transform their classroom practice and human interactions. *Teacher in the Cupboard* encompasses Lisa's many and varied observations in education - and each chapter includes real-life experiences to make you think, as well as practical techniques to help educators avoid retreating into self-blindness: a common affliction that robs them of their perception of their own contribution as part of the teaching and learning process. Brimming with fresh perspectives, the book presents a wide range of innovative ideas to enable educators to harness the power of self-reflection and create a stimulating learning environment that produces excellent results for them, their students and their colleagues. It also talks teachers through a number of methods, approaches and resources that will enable them to instil in their learners a sense of satisfaction derived from the learning skills and behaviours being developed in the classroom. These materials are collated in the 'Resource Cupboard' section at the back of the book, offering adaptable - and downloadable - resources that Lisa has used to successfully enhance learning in the classroom. Suitable for NQTs, teachers and school leaders.

stay up-to-date on developments in modern electrical motors and drives, including their control, simulation, and CAD. Reflecting innovations in the development of PM motors for electromechanical drives, *Permanent Magnet Motor Technology: Design and Applications*, Third Edition demonstrates the construction of PM motor drives and supplies ready-to-implement solutions to common roadblocks along the way. This edition supplies fundamental equations and calculations for determining and evaluating system performance, efficiency, reliability, and cost. It explores modern computer-aided design of PM motors, including the finite element approach, and explains how to select PM motors to meet the specific requirements of electrical drives. The numerous examples, models, and diagrams provided in each chapter facilitate a lucid understanding of motor operations and characteristics. This 3rd edition of a bestselling reference has been thoroughly revised to include: Chapters on high speed motors and micromotors Advances in permanent magnet motor technology Additional numerical examples and illustrations An increased effort to bridge the gap between theory and industrial applications Modified research results The growing global trend toward energy conservation makes it quite possible that the era of the PM brushless motor drive is just around the corner. This reference book will give engineers, researchers, and graduate-level students the comprehensive understanding required to develop the breakthroughs that will push this exciting technology to the forefront.

engrossing.”—People • “Lisa Wingate takes an almost unthinkable chapter in our nation’s history and weaves a tale of enduring power.”—Paula McLain Memphis, 1939. Twelve-year-old Rill Foss and her four younger siblings live a magical life aboard their family’s Mississippi River shantyboat. But when their father must rush their mother to the hospital one stormy night, Rill is left in charge—until strangers arrive in force. Wrenched from all that is familiar and thrown into a Tennessee Children’s Home Society orphanage, the Foss children are assured that they will soon be returned to their parents—but they quickly realize the dark truth. At the mercy of the facility’s cruel director, Rill fights to keep her sisters and brother together in a world of danger and uncertainty. Aiken, South Carolina, present day. Born into wealth and privilege, Avery Stafford seems to have it all: a successful career as a federal prosecutor, a handsome fiancé, and a lavish wedding on the horizon. But when Avery returns home to help her father weather a health crisis, a chance encounter leaves her with uncomfortable questions and compels her to take a journey through her family’s long-hidden history, on a path that will ultimately lead either to devastation or to redemption. Based on one of America’s most notorious real-life scandals—in which Georgia Tann, director of a Memphis-based adoption organization, kidnapped and sold poor children to wealthy families all over the country—Lisa Wingate’s riveting, wrenching, and ultimately uplifting tale reminds us how, even though the paths we take can lead to many places, the heart never forgets where we belong. Publishers Weekly’s #3 Longest-Running Bestseller of 2017 • Winner of the Southern Book Prize • If All Arkansas Read the Same Book Selection This edition includes a new essay by the author about shantyboat life.

Business Games for Management and Economics: Learning by Playing presents board and video business games which combine teamwork with individual decisions based on computer models. Business games support integration of learning experience for different levels of education and between different disciplines: economics, management, technological, environmental and social studies. The work is based on experience in adaptation, design and conducting of field, and board and video games played in college settings within standard schedules. Most of the games are played in Modeling and Simulation, Microeconomics, Logistics and Supply Chain Management courses. Game boards are 2- or 3-dimensional displays of subsystems, their components and phases of technological and business processes, which allow customization of games of the same type for different missions in schools, universities, and corporate training centers. The range of games applied to economics and management classes spreads from 2-person games for kid's “Aquarium” up to the REACTOR games for several teams of executives.

"I thought life was pretty much over." Paul Herman "I was afraid people wouldn't see me for who I still was." Cathy Green "I didn't need this to be a better person." Susan Douglas "I wasn't sure I wanted to live 'this way.'" Kevin Wolitzky The above four people and 49 more just like them went on to find high levels of success and lead satisfying lives. Together they tell 53 stories of moving forward to meet all the challenges, fears, obstacles, and problems common to the life-altering circumstances after spinal cord injury, and doing it without benefit of wealth, large settlements or solid health coverage. Ranging in age from 21 to 67, disabled from three to 48 years they share 931 years of disability experience. Roll Models is a valuable new resource for recently injured people and their families, and for nurses, therapists, psychologists and all other professionals who treat, work with and care for people with spinal cord injury. Straight from the horse's mouth, survivors explore their experiences with disability and answer many questions those in rehab are asking: Early Thoughts What were your thoughts immediately following injury? What were your initial thoughts and reactions regarding SCI and the future? The First Years What were your biggest fears during that first year or so? How did you get past those early fears? Changes, Obstacles and Solutions How much different are you now, compared to how you were before injury? What's been the biggest obstacle? How did you address these obstacles? Finding What Works What have been the most difficult things for you to deal with since injury? What's the worst thing about having an SCI and using a chair? What's been your biggest loss due to injury? Is SCI the worst thing that ever happened to you? Tell me something about your problem solving skills. How do you deal with stress? What do you do to relieve stress? Salvations, Turning Points and More Was there any one thing that was your "salvation" or key to your success? Was there a turning point for you when you began to feel things were going to get better? What personal factors, habits and beliefs have helped you the most? SCI and Meaning Do you find any meaning, purpose or lessons in your disability? Did any positive opportunities come your way because of your injury? What's your greatest accomplishment? What are you most proud of? "A wonderful roadmap with many alternate routes to living and thriving with SCI." Minna Hong, SCI survivor and Peer Support Coordinator/Vocational Liaison, Shepherd Center "Avoids the trap of providing a 'one size fits all mentality' and provides solutions as varied as the individuals used as examples. Accentuates the positives while not sugar coating the difficulties. Essential reading." Jeff Cressy SCI survivor and Director of Consumer and Community Affairs, SCI Project, Rancho Los Amigos "A great resource for people as they venture out into the world, or search for meaning and a deeper, richer life. Filled with examples of real people and their real experiences." Terry Chase, ND, RN; SCI survivor; Patient & Family Education Program Coordinator, Craig Hospital "A wonderful tool for the newly spinal cord injured individual, as well as the therapists and counselors working with them. This certainly hits the mark in capturing important survival strategies." Jack Dahlberg, SCI survivor, Past President of the National Spinal Cord Injury Association "Artfully crafted and organized, Roll Models sensitively portrays life following spinal cord injury. Informative, creative, sensitive, as well as infused with humor and a kind heart. Recommended with my highest accolades." Lester Butt, Ph.D., ABPP, Director of the Department of Psychology, Craig Hospital

In this comprehensive resource, nursing staff development expert Jim Hansen, MSN, RN-BC, provides instruction and tools to plan, justify, and structure a nurse residency program that develops and retains new nurses through their first year. The phenomenon returns! Originally published in 1987, *The Book of Questions*, a New York Times bestseller, has been completely revised and updated to incorporate the myriad cultural shifts and hot-button issues of the past twenty-five years, making it current and even more appealing. This is a book for personal growth, a tool for deepening relationships, a lively conversation starter for the family dinner table, a fun way to pass the time in the car. It poses over 300 questions that invite people to explore the most fascinating of subjects: themselves and how they really feel about the world. The revised edition includes more than 100 all-new questions that delve into such topics as the disappearing border between man and machine—How would you react if you learned that a sad and beautiful poem that touched you deeply had been written by a computer? The challenges of being a parent—Would you completely rewrite your child's college-application essays if it would help him get into a better school? The never-endingly interesting topic of sex—Would you be willing to give up sex for a year if you knew it would give you a much deeper sense of peace than you now have? And of course the meaning of it all—If you were handed an envelope with the date of your death inside, and you knew you could do nothing to alter your fate, would you look? *The Book of Questions* may be the only publication that challenges—and even changes—the way you view the world, without offering a single opinion of its own.

Offers advice on how to start a youth services organization by documenting the history of the Committee Representing our Young Adults (C.R.O.Y.A.) which was formed in Lake Forest, Illinois to combat social problems affecting the youth in that community.
