Comprehension Connections is a guide to developing children's ability to fully understand texts by making the comprehension process achievable, accessible, and incremental. McGregor's approach sequences stages of learning for each strategy that take students from a fun object lesson to a nuanced and lasting understanding. Her lessons build bridges between the concrete and the abstract by incorporating writing, discussion, song, art, and movement into a web of creative connections that reinforce each strategy on a variety of levels. All the while Comprehension Connections offers an inside look at the dynamic of McGregor's teaching, showing you how her ideas look in action, and including the language she uses and that she encourages her students to use as they build their facility with: schema inferring questioning determining importance visualizing synthesizing. Many students struggle to understand what it is they are supposed to do as they learn to read strategically. and information texts. Often, vocabulary instruction focuses on a few target words in specific texts. However, to understand the many new words in complex texts students need to know how words work. This book, written by an award-winning authority on reading instruction, shows teachers how to make small changes to teach more words and also how words work. Many of these small changes involve enrichments to existing vocabulary practices, such as word walls and conversations with students. Each chapter includes descriptions of teachers' implementation of small changes to support big gains in students' vocabulary. This book, which has sufficient depth in research and theory for graduate and undergraduate courses in vocabulary instruction, also offers practical steps that K–8 teachers can use in any reading program to help all students grow their vocabulary. Teaching Words and How They Work shows teachers how to: Identify the most important word families to teach. Teach students to use opening text as background knowledge for comprehending the rest of the text. Use word walls with more purpose and greater student engagement. Select the right words to teach from new information texts. Better understand limitations of leveled texts and how to adjust. Use assets and address challenges to support English learners.
