Multi Linguis offers you a frequency-thematic learner's dictionary of the Portuguese language. It includes up to 9000 essential words and phrases belonging to the levels from Beginner to Upper Intermediate II (A1 - B2.2 CEFR). The entries are divided into 150 vocabulary themes as well as 6 learning steps. They are arranged by steps and then by themes, not by the alphabet. The book is intended to help you learn this language step by step but can also be applied for translating or entertaining. You may use it separately or as an additional tool for any suited educational course. The Multi Linguis Project is based on the Wiktionary corpus and created by one person. The database of the Learner's Dictionaries includes 9 000 lemmas (words and phrases), their translations in many languages as well as transcriptions, transliterations and grammar information. All these lemmas are divided into 6 learning steps of 1500 entries each and also 150 vocabulary themes grouped in 30 super themes. They can be arranged by themes, steps, parts of speech or keywords, but never by the alphabet. Different types of dictionaries are offered for the same language. They are designed in an original way to be convenient and efficient. All of them are available in epub format. Multi Linguis is presently able to publish such books for more than 70 languages. It's planned to improve them and increase their number. You can find more dictionaries in this store.

"Harmonic Patterns Strategy" is the first volume of the series "Trading with the Trendlines." The book explains a strategy applicable in every market (forex, equities, commodity...), based on a harmonic pattern and trendline. You will see the harmonic patterns from a different perspective. The strategy, in fact, seeks to exploit the completion of a Gartley or Butterfly, trying to ride the last leg. What you are going to read in the book is, therefore, my interpretation of this type of pattern. A way to predict a future movement of a market, and that I have studied after observing many similar situations, and to have identified, under certain conditions, a subsequent trend common to most cases. Easy and clear is the identification of the target profit and stop-loss of the strategy. Not only. Depending on your account, I will also explain to you the correct position sizing, for proper money management. If you are a beginner, do not worry; the first two chapters will provide you with adequate knowledge for understanding the strategy and using it correctly. Do not be tricked by the fact that the book is free. The strategy, if you use it correctly and with money management appropriate to your account, will give you a high percentage of profitable trades. However, it is recommended to combine the strategy with the fundamental analysis and open a position only if both give the same signal.

Jasime Hayward's plans for junior year include juggling two boyfriends, landing lead roles in school plays, and having fun with her A-list clique--to be followed by a triumphant senior year, then acting school in Hollywood. Life has a funny way of changing our plans. When a mysterious package arrives at Jasmine's Albuquerque home, her family learns that Great-aunt Olivia has passed away and left them a five million dollar inheritance. There's just one catch. Worried about the environment and climate change, Olivia demands that the Haywards slash their energy use--their carbon footprint--by 80 percent in a year. Suddenly, every part of day-to-day life, from getting to school to making a sandwich, puts a fortune on the line. Jasmine's family of reluctant eco-warriors strives, connives, invents, and sometimes cheats its way toward the goal. Jasmine worries that winning the money means losing friends, boyfriends, and her dream of an acting career, but she finds love and friendship in the last place she expected it. She also makes it to Hollywood, though not in the way she imagined.

You are about to become obsolete. You think you are special, unique, and that whatever it is that you are doing is impossible to replace. You are wrong. As we speak, millions of algorithms created by computer scientists are frantically running on servers all over the world, with one sole purpose: do whatever humans can do, but better. That is the argument for a phenomenon called technological unemployment, one that is pervading modern society. But is that really the case? Or is it just a futuristic fantasy? What will become of us in the coming years, and what can we do to prevent a catastrophic collapse of society? Robots Will Steal Your Job, But That's OK: how to survive the economic collapse and be happy explores the impact of technological advances on our lives, what it means to be happy, and provides suggestions on how to avoid a systemic collapse.

Napoleon Hill's timeless classic, Think and Grow Rich, has the distinction of being the best read self-help book of the twentieth century. Not so well known is how Hill earned his livelihood before he wrote 'Think and Grow Rich'. Another classic work of Dr. Hill is 'How to Own Your Own Mind' which shows the way to stabilise your mind and achieve success in life. As Dr. Hill repeatedly emphasised, action is critical to success. But you must think before you act or your actions will be wasted. These timeless chapters about the importance of thought before action will prove to be very instructive in helping you attain your own Definite Major Purpose. To do so, you must learn how to own your own mind, and this book will tell you how to do it.

In the early 1980s, The Police went on tour accompanied by a photographer who documented the band behind the scenes in a series of candid and striking black and white photos. This talented photographer also happened to be the bands guitarist, Andy Summers. Containing more than 600 photos and filled with diary-style entries, ""Ill Be Watching You"" is a sumptuous volume beating with musical energy, nostalgia, and atmospheric beauty. Taschen

"The Power of Divergence" is the second volume of the series "Trading with the Trendlines." The book explains a strategy applicable in every market (forex, equities, commodity...), and it is a combination of divergence, trendline, and a little of Fibonacci; a simple strategy that seeks to exploit the reversal of a market. What you will read in the book, is a correct way to use the divergences, in particular, the one between the price and Commodity Channel Index (CCI). Every aspect is well explained, including the proper position sizing, with many examples. Easy and clear is the identification of the target profit and stop-loss of the strategy. Not only. Depending on your account, I will also explain to you the correct position sizing, for proper money management. If you are a beginner, do not worry; the first two chapters will provide you with adequate knowledge for understanding the strategy and using it correctly. Do not be tricked by the

fact that the book is free. The strategy, if you use it correctly and with money management appropriate to your account, will give you a high percentage of profitable trades. However, it is recommended to combine the strategy with the fundamental analysis and open a position only if both give the same signal.

Like most people, Alida has contemplated one of life's biggest mysteries: What happens to your soul when you die? What if it is stolen by a cruel demon, and your eternity's resting place becomes an empty locker in a secret cavern? What if the biblical hell was a real place, where real people suffered unspeakably? It is real, and it is a horrifying place, where the souls of good people are imprisoned with no hope for escape or rescue ... until Alida appears. Putting her life in jeopardy, Alida battles a wicked demon and even the true devil to win the right to free the souls and return them to their own graves, where they can rest in peace. Locker Rooms is a story of love and hate, friends and enemies, religion and history, and the eternal battle between good and evil. It tells the story of a lost woman who changes her life when she saves the souls of good people being imprisoned in lockers by a demon for his own narcissistic pleasure. What she experiences in the process will change her life forever.

Two political strategists offer the tools to become successful in any field, and cover everything from how to present an argument and get the message across to how to compromise and handle negative publicity.

A spellbinding journey through the global history of witchcraft, the third volume in The Library of Esoterica follows this magickal tradition from its ancient roots to its modern incarnations. Through more than 400 artworks, and revelatory essays and interviews with modern practitioners, Witchcraft chronicles a cathartic evolution, from the...

The advent of new stock markets (the German Neuer Markt, the French Nouveau Marche, the Italian Nuovo Mercato and Nasdaq Europe) has been one of the most important reforms of stock exchanges in Continental Europe in the 1990s. These stock markets aimed at attracting early stage, innovative and high-growth firms that would not have been viable candidates for public equity financing on the main markets of European stock exchanges. Of these new markets, the Neuer Markt emerged as Europe's answer to NASDAQ. However, Europe's new stock markets met with only limited success. Stock prices plummeted after the ending of the stock market bubble and new markets suffered from poor liquidity, insider trading scandals and accounting frauds. This volume provides an overview of the rise and fall of Europe's new stock markets. It contains twelve papers which investigate the characteristics, the ownership structure and the market performance of companies in the short and long run. In addition this volume examines the role of venture capitalists. New stock markets offered venture capitalists an attractive exit for their investments and helped to create a more vibrant venture capital industry in Europe. The private equity market in Europe today is as large as it was just before the advent of new stock markets. As such, the need for stock markets that allow private equity investors to divest their equity stakes in growth companies continues to exist.

In a meteoric career that spanned a mere twelve years, Robert E. Howard single-handedly invented the genre that came to be called sword and sorcery. From his fertile imagination sprang some of fiction's most enduring heroes. Yet while Conan is indisputably Howard's greatest creation, it was in his earlier sequence of tales featuring Kull, a fearless warrior with the brooding intellect of a philosopher, that Howard began to develop the distinctive themes, and the richly evocative blend of history and mythology, that would distinguish his later tales of the Hyborian Age. Much more than simply the prototype for Conan, Kull is a fascinating character in his own right: an exile from fabled Atlantis who wins the crown of Valusia, only to find it as much a burden as a prize. This groundbreaking collection, lavishly illustrated by award-winning artist Justin Sweet, gathers together all Howard's stories featuring Kull, from Kull's first published appearance, in "The Shadow Kingdom," to "Kings of the Night," Howard's last tale featuring the cerebral swordsman. The stories are presented just as Howard wrote them, with all subsequent editorial emendations removed. Also included are previously unpublished stories, drafts, and fragments, plus extensive notes on the texts, an introduction by Howard authority Steve Tompkins, and an essay by noted editor Patrice Louinet. Praise for Kull "Robert E. Howard had a gritty, vibrant style—broadsword writing that cut its way to the heart, with heroes who are truly larger than life."—David Gemmell "Howard's writing seems so highly charged with energy that it nearly gives off sparks."—Stephen King "Howard was a true storyteller—one of the first, and certainly among the best, you'll find in heroic fantasy. If you've never read him before, you're in for a real treat."—Charles de Lint "For stark, living fear . . . what other writer is even in the running with Robert E. Howard?"—H. P. Lovecraft

The New York Times bestselling author of Proud Spirit and The Eagle and the Rose teaches us how to unleash the spiritual force within us. As spiritual beings having a human experience, each of us comes into this world endowed with breathtaking gifts. We may have the power of intuition...the power to sense the invisible world around us...the power to create healing energy. All that we need is a wise teacher to turn the handle, so we can open the door to what lies within us. Rosemary Altea is that teacher. She has guided thousands of students in their quest for self-empowerment. Now she shows all of us how to unblock and develop our gifts through simple, effective, and proven exercises. We learn how to release stress and find peace, locate our energy and build it up, and tune in to our sixth sense. But this groundbreaking work of self-empowerment is more than a

how-to manual: woven into its fabric are miraculous stories of the spirit world, including the author's conversations with those who have departed this sphere. And it contains the wisest lesson of all: before we can communicate with the invisible forces around us, we must first learn to communicate with ourselves.

It takes a special set of trading skills to thrive in today's intensely volatile markets, where point swings of plus or minus 200 points can occur on a weekly, sometimes daily, basis. The Volatility Course arms stock and options traders with those skills. George Fontanills and Tom Gentile provide readers with a deeper understanding of market volatility and the forces that drive it. They develop a comprehensive road map detailing how to identify its ups and downs. And they describe proven strategies and tools for quantifying volatility and confidently developing plans tailored to virtually any given market condition. The companion workbook provides step-by-step exercises to help you master the strategies outlined in The Volatility Course before putting them into action in the markets.

A woman in desperate straits ... A fearless man ... A marriage of convenience on turbulent waters ... Cerynise Kendall has been left destitute and in dire need following the death of her doting patron and protectress. A brilliant young artist tossed from her home with only the clothes on her back, Cerynise must now turn to a childhood companion for assistance --- the dashing sea captain Beauregard Birmingham --- and beg him to provide her with passage to the Carolinas. She seeks a new home and a new life across the waters, but all depends upon the kindness of a charming adventurer who was once the object of her youthful infatuation. Beneath Birmingham's rugged exterior beats a heart as large and wild as the Atlantic, and Beau readily agrees to aid Cerynise --- even offering her his name in marriage, albeit temporarily, to protect his longtime friend from scandal. But perilous secrets, determined enemies and tempests of the sea and soul threaten their future and safe passage even as bonds of camaraderie are miraculously reformed as bonds of desire ... and affection becomes passion and love.

Dr Roy Martina has developed a powerful comprehensive healing system called 'Omega healing'. This preventative system has been acknowledged as one of the most powerful healing techniques currently available. It tackles the root cause of problems – not just the symptoms. Balancing the emotional body and returning to our core essence restores us to greater health, ease and happiness. This fantastic CD package collects together some of Roy's most powerful teachings on this subject, along with meditations that will allow you to implement its incredible effects in your life. The first section provides an excellent introduction to Roy's background and how he came to heal himself using his Omega Healing technique. The second section features four incredible meditations that will allow you to heal every aspect of your life. The first provides energy and vitality. The second is a relaxing visualisation for the end of the day. The third helps with releasing feelings. The fourth helps heal traumas in our past lives. These meditations, recorded live in London and exclusively for Hay House showcase one of the brightest new voices in healing.

Partiamo da un concetto fondamentale: automatizzare la propria azienda è il passo più importante e fondamentale per diventare un “puro” imprenditore. Forse non lo sai ma l'errore che più comunemente viene fatto da chi si occupa di attività d'impresa è quello di lavorare nell'azienda e non sull'azienda. Il filo che divide questo concetto è spesso così sottile che l'imprenditore si trova a dover sacrificare gran parte della propria vita familiare ed affettiva per seguire l'andamento della propria azienda. Una domanda a questo punto sorge spontanea. Come hanno fatto allora più di 2.000 imprenditori in tutta Italia a liberarsi dalle catene che li tenevano “legati” giorno e notte alla propria azienda così da renderla finalmente automatizzata e slegata dal proprio tempo? Qual è il loro segreto? In questo libro, ti rivelerò il Metodo Smart Business Lab attraverso il quale potrai finalmente entrare a conoscenza di tutte le strategie, i passaggi e le operazioni che devi necessariamente mettere in pratica per automatizzare la tua azienda dalla A alla Z, liberando tempo per te stesso e per la tua famiglia. Il tutto con la collaborazione dei due più grandi formatori del panorama italiano: Alfio Bardolla e Roberto Re. **COSA SIGNIFICA ESSERE UN PURO IMPRENDITORE** Il vero segreto per automatizzare la tua azienda. Per quale motivo conoscere lo stato attuale della tua azienda è di fondamentale importanza. L'importanza di abbattere le credenze limitanti che ti portano a lavorare dentro l'azienda e non sull'azienda. **IL SISTEMA SMART BUSINESS LAB** Come è nato il progetto Smart Business Lab. Quali sono le tappe fondamentali da affrontare durante il processo di automatizzazione della propria impresa. Quali sono i 4 elementi fondamentali che caratterizzano un'azienda automatica di successo. **INTERVISTE AD ALFIO BARDOLLA E ROBERTO RE** Per quale motivo automatizzare un'azienda è possibile sia per le startup, sia per quelle che esistono da anni sul mercato sia per i liberi professionisti. In che modo Alfio Bardolla è riuscito ad applicare il metodo Smart Business Lab alle sue 29 aziende. In che modo Roberto Re ha contribuito a potenziare il mindset imprenditoriale di Smart Business Lab in ottica imprenditoriale. **ERRORI DA EVITARE** L'importanza di apprendere tutti gli ipotetici passi falsi che possono essere commessi durante la gestione imprenditoriale. Il segreto per capire qual è la cosa giusta da fare di fronte ad ogni evenienza. Quali sono gli errori più importanti da evitare in tema imprenditoriale. **CASE HISTORY** In che modo Chiara Marchi è passata dal dedicare 24 ore al giorno alla propria azienda a sole poche ore settimanali. Come sono riusciti Tino Bassu e Domenico Mancuso ad automatizzare la propria azienda diventando anche partner di Facebook. In che modo Marco Borsani ha capito che il metodo Smart Business Lab gli avrebbe permesso di automatizzare tutte le aziende che avrebbe voluto. **L'AUTORE** Dott. Giorgio Cecere, nato a Catania nel 1982. Sin dal suo percorso universitario in Economia aziendale si è sempre interessato di Marketing e Organizzazione di imprese. La sua passione ed esperienza per l'attività imprenditoriale gli hanno dato la possibilità di entrare nell'azienda n° 1 di Mentoring in Italia, Smart Business Lab. Da Mentor ha aiutato più di 50 aziende a crescere e raggiungere la loro automazione aziendale. Nel giro di 3 anni ha raggiunto il ruolo di Direttore commerciale e Amministratore delegato di Smart Business Lab. Oggi, oltre a seguire diversi suoi business, è orientato a portare l'azienda di cui è amministratore delegato all'internazionalizzazione e, quindi, contribuire insieme al team di imprenditori al suo fianco, al supporto, la crescita e l'automazione delle aziende italiane ed estere. **The Tao of Meditation** will show you how to open your mind and spirit. Part One explains the philosophy of all forms of meditation. Part Two describes in detail the series of twelve breathing exercises, or Chi Kung, that can be used to lead and circulate the Chi energy part of the body. Part Three deals with the Lien Ching Hwa Chi or the transfer of sexual energy to psychic energy. **A murderer obsessed with comic strips...** When Mayor Marsalis's son, Gerald, is found dead in his studio, his body is stained red and arranged like the cartoon character Linus - with a blanket next to his ear and his thumb stuck in his mouth. Desperate, Marsalis asks his ex-cop brother, Jordan, to investigate the murder. Yet the killer strikes again. This time Chandelle Stuart, a film producer with strange sexual predilections, is found leant against a piano like Lucy, listening to Shroeder playing. Meanwhile, a beautiful young detective Maureen Martini has moved from Rome to New York to forget the brutal murder of her boyfriend. After undergoing a corneal transplant, she starts having distressing visions that somehow seem connected with the grisly murders. Thrown together, Maureen and Jordan race against time to unmask this killer. But who is Snoopy? And who is Pig Pen? And why does this killer find pleasure in arranging his victims like comic-strip characters? In New York nothing is ever quite what it seems...

"Trading is like gambling", "trading is a game of chance", "trading is a scam", "play the markets"... how many times have you heard these claims? They are all urban legends, nothing more wrong. I am a trader for over 25 years, and for two years, I have been a fund manager for a small Italian investment bank. With "Trading is an Entrepreneurial Activity" I will take you behind the scenes of a trade; you will see all the trader's work behind an operation before he presses the "buy" or "sell" button on his platform. Most people think that trading is simple and that it is enough an advice of a friend employed in the bank to get easy money. And at the first difficulty, the problems start. So, after seeing their

dreams of wealth shipwrecked and decreasing their savings, there remains to them nothing any more than blaming the trading by calling it a scam. When instead, they should blame their presumption and ignorance. Ignorance understood in the etymological meaning of the word, that is, of lack of knowledge in the field of finance. Trading is not as easy as you are led to believe, in particular by certain advertisements and websites. Know that my results come from much study and practice. Trading is not a way to get rich overnight; it is not an automatic system that you "click a button and makes money." Trading is not suitable for all those people who are unwilling to commit and work hard to get results. Is trading difficult? Yes, it is, but neither more nor less than any other profession. Each profession is difficult, and it seems impossible to carry out at the beginning when we do not have the right skills and suitable preparation. So, what is trading? Trading is an entrepreneurial activity with its business plan in which everything is well planned, from the smallest aspect, and which may seem insignificant, to the most important; just like it happens in a company. Trading is an opportunity, as long as you respect its rules.

A Tale of Two Futures is a sci-fi young adult novella that tells the story of an average day in life in two very different futures, one where things have gone terribly wrong, and the other where things have gone amazingly right. The future will either be beautiful beyond imagination; or dismayingly horrifying, much worse than sci-fi dystopias have prepared us for. The difference between the two futures lies in the choices we make. Most people think that the world is too big, too immense for any individual to have an impact, because anything we do is merely a drop in the ocean. But what is an ocean, if not a multitude of drops?
