How can coaches help clients navigate the changing world of work? This book offers a step-by-step, practical guide to running a complete career coaching programme: assessing the present; looking at motivation, skills and 'personal brand'; writing the most powerful CV/résumé; getting through a job interview or assessment centre successfully; and negotiating terms for a new job. Career coaching has never been needed more now that jobs for life have disappeared, being made redundant is common, the 'gig economy' is here to stay, and young people often must start in unpaid roles. The principles of career coaching are much the same whether you are a professional executive coach or a volunteer working for a charity whose aim is to get people back into work. But how do you do it most effectively? The focus must be on the whole career coaching cycle and

landed a job. Now what? No one tells you how to navigate your first day in a new role. No one tells you how to take ownership, manage expectations, or handle workplace politics. No one tells you how to get promoted. The answers to these professional unknowns lie in the unspoken rules—the certain ways of doing things that managers expect but don't explain and that top performers do but don't realize. The problem is, these rules aren't taught in school. Instead, they get passed down over dinner or from mentor to mentee, making for an unlevel playing field, with the insiders getting ahead and the outsiders stumbling along through trial and error. Until now. In this practical guide, Gorick Ng, a first-generation college student and Harvard career adviser, demystifies the unspoken rules of work. Ng distills the wisdom he has gathered from over five hundred interviews with professionals across industries and job types about the biggest mistakes people make at work. Loaded with frameworks, checklists, and talking points, the book provides concrete strategies you can apply immediately to your own situation and will help you navigate inevitable questions, such as: How do I manage my time in the face of conflicting priorities? How do I build relationships when I'm working remotely? How do I ask for help without looking incompetent or lazy? The Unspoken Rules is the only book you need to perform your best, stand out from your peers, and set yourself up for a fulfilling career.

Most career books discuss specific areas of the career, such as interview techniques and writing a good resume. Very few books actually talk about what to do once you "do" get the job. It is vital that people manage their careers. Typically, the books that discuss career management discuss only a small segment of the subject, such as time management. 101 SECRETS TO CAREER SUCCESS takes a holistic approach, providing a comprehensive

Too many success books simply rehash conventional wisdom. The truly great success books, such as Napoleon Hill's "Think and Grow Rich", instead enable life-challenging success breakthroughs because they identify and describe in powerful detail the thinking patterns and principles of the world's most successful individuals. The only way to do this is to study the world's most successful individuals, as Napoleon Hill has done. And as I have done as well. For over two decades, I have devoted myself to studying and interviewing the most successful individuals across varying fields so that I could see and learn for myself the principles which sets them apart in terms of their success.
