This new compilation from editor and maker Kroski spotlights a multitude of creative projects that you can tailor for your own library. Librarians and makers from across the country present projects as fun as an upcycled fashion show, as practical as Bluetooth speakers, and as mischievous as a catapult. Included are projects for artists, sewers, videographers, coders, and engineers. The handy reference format will help you quickly identify the estimated costs, materials, and equipment; and because several projects don't even require a dedicated makerspace, every library can join in. Inside you'll find how-to guidance for projects like a foam rocket launcher; stop-motion animation with 3D print characters; found-object robots; glowing ghost marionettes; Arduino eTextiles; magnetic slime; yarn painting; fidget flannels; an LED brooch; and cardboard sculpture. With takeaways like origami tea lights or a t-shirt tote bag, your patrons will be sure to remember how much fun your library can be. "When my dragons are grown, we will take back what was stolen from me and destroy those who wronged me! We will lay waste to armies and burn cities to the ground! Daenerys Targaryen Dragons are massive, flying reptiles which can breathe fire onto their enemies and cook their food with the same flame. They are rumored to have a strong connection to magic, which seems to be proven true when magic begins to return to the world after the birth of the first three in over two hundred years. Dragons possess awesome and devastating power, capable of laying waste to armies and burning entire cities to ashes. Men who were able to tame and ride dragons as beasts of war used them to burn their enemies and forge vast empires across the continents of Essos and Westeros. Useful tips - Completely read these instructions before cutting. Make sure you understood all instructions steps - Detach parts carefully as they are needed - Avoid over application of glue! This may cause paper to wrinkle. Use a paint brush to apply glue on parts - In some parts, you'll notice some white areas and yellow lines showing how pieces should line up when glued - When you cut paper, white edges will be apparent. Use a marker or pencil to color these edges, before gluing them - Mountain fold means printed surface should be on the outside - Valley fold means printed surface should be on the inside - When building, be sure the glue dries completely before proceeding to the next step - When joining opened parts, like partial cones and cylinders, start gluing two tabs. - - --- When completely dry, glue remaining tabs - There is an edge where you close the cylinder or cone. Let's call it the guide edge. - --- - Use this guide edge as an alignment mark when glueing one part to another. - Cut some stripes from textures file to hide some joints
