When was the last time you picked up a pair of scissors? Was it when you cut open a letter envelope? Or what about that time you cut into that book a few millimeters? But if you think about it, those creaky scissors can be used for fun. Now how about applying those scissors to something artistic and practical! They can be good friends and a source of magic when you want to make something for yourself or others. With a little wrist action and some paper those rusty scissors can turn little sheets into a bouquet of flowers! They can be used to celebrate or commemorate a special occasion. Or they can add color and beauty to a setting with little more than a traced pattern and some dexterity. In Simply Precious Pop-Ups paper-crafter Kiyoshi Kikuchi offers up more than 50 easy to follow pop-up card patterns for everyone to enjoy! By simply following his large patterns crafters, young and old, can quickly make fun and attractive cards for any occasion. Patterns include: Holiday patterns - New Years, Girls Day, Valentine's, Mother's Day, Father's Day, Christmas Special occasions - Graduation, Weddings, New Job More than a dozen Birthday Cards and Seasonal-themed cards!

Journey into the Wizarding World once more with this stunning new masterpiece from New York Times best-selling paper engineer Matthew Reinhart. This exhilarating pop-up book invites you to relive the movie adventures of Hermione Granger, Ron Weasley, and the Boy Who Lived—Harry Potter—as you explore London's magical Diagon Alley like never before. Leonardo Cantrell is a painfully shy sixteen-year-old who cannot look people in the eye. One night while he's volunteering at a homeless shelter, an old man forces eye contact and gives Leo the power to see Death. His best, and only, friend—J.C. Rivera—thinks this new power is cool until Leo accidentally looks into J.C.'s eyes and "sees" his murder, a murder that will occur in less than two weeks. Stunned and shaken, the two boys sift through clues in Leo's "vision" in a desperate effort to find the killer and stop him before he can strike. Aided by feisty new-girl-at-school, Laura, the boys uncover evidence suggesting the identity of the murderer. However, their plan to trap the would-be killer goes horribly awry and reveals a truth that could kill them all.

Introducing techniques for making pop-ups from one sheet of card, the third title in this series on paper engineering takes folding techniques into the third dimension. Each chapter introduces a new technical idea and shows how that technique can be adapted in many different ways, or combined with techniques from earlier chapters. These 3-D techniques can be incorporated into any design where typography and/or illustration are used, including mail-shots, personal publicity, invitations, business cards and greetings cards. With their emphasis on surface design over complex cutting, the pop-ups have an instant appeal for designers. Following the elegant, easy-to-follow style of Paul Jackson's other titles for Laurence King, Cut and Fold Techniques for Pop-Up Designs is an essential resource for marketing professionals and design students.

What is Vintage Innovation?Vintage Innovation redefines innovation not as "new and flashy" but as "better and different." It isn't a rejection of new approaches or cutting-edge technology so much as an embrace of the old and the new.It's the overlap of the "tried and true" and the "never tried." It's a mash-up of low-fi tech and new tech. It's the idea of finding relevance by looking back and looking forward. It's a focus on timeless skills in new contexts. It's the idea that innovation happens when teachers take a both/and approach as they empower their students in the present to prepare them for an uncertain future.If you are a teacher, you are an innovator. You are the experimenter trying new strategies. You are the architect designing new learning opportunities. Apps change. Gadgets break. Technology grows obsolete. But one thing remains: teachers change the world. And one way to do this is through a vintage innovation approach. With vintage innovation, teachers ask: How do I innovate when I don't have the best technology? How can I use vintage tools, ideas, and approaches in new ways? How can I use constraints to spark creativity? How do I blend together the "tried and true" with the "never tried?"
