For every American fighter pilot involved in the Vietnam War, the ultimate goal was to 'kill a MiG'. In eight years of conflict 43 Vietnamese Peoples Air Force aircraft were claimed by US Navy and US Marine Corps Phantom II crews, and one single ace crew produced. Navy Phantom IIs scored the first kills of the Vietnam War, in April 1965, as well as scoring the last in January 1973. This volume charts the successes of the navy fighter crews as they encountered 'MiGs, Missiles and AAA' over the jungles of North Vietnam.

The Fifth Edition of *A History of the Roman People* continues to provide a comprehensive analytical survey of Roman history from its prehistoric roots in Italy and the wider Mediterranean world to the dissolution of the Roman Empire in Late Antiquity in A.D. 600. Clearly organized and highly readable, the text's narrative of major political and military events provides a chronological and conceptual framework for the social, economic, and cultural developments of the periods covered. Major topics are treated separately so that students can easily grasp key concepts and ideas.

In his brand new book, Gok Wan shares his favourite recipes for fresh and healthy meals - inspired by the flavours of Asia. Gok's recipes draw influence from the East, as he teaches us how to add flavour and a splash of originality through his distinctive style of simple, fast cooking. Chapters cover all occasions from lunch ideas to dinner parties and date nights and include curries, stir-fries, noodles, salads, soups and even desserts. He shares many of his family's traditional recipes too, but gives them a modern twist for today's kitchen tables - try Sweet miso marinated chicken and pak choy, Sweet potato and Brazil nut curry and Poppa Wan's fu yung. And, running throughout, are Gok's words of advice on wok cooking, his favourite ingredients and tips on preparation and entertaining Gok-style. For Gok, great eating should be hassle-free, and these recipes are exactly that - tasty dishes that are low stress, good for you and make minimal mess. Focuses on organisational goals and those of other stakeholders and society at large. This book provides an insight into the potential benefits and pitfalls, expectations and concerns of advancing a critical view of HRD in practice. It is intended for lecturers, students and practitioners who are aching for a critical analysis.

Five great poets of the T'ang dynasty (eighth and ninth centuries A.D.) are represented in this collection: Wang Wei, Li Po, Tu Fu, Li Ho, and Li Shang-Yin. Each poet is introduced by the translator and represented by a selection that spans the poet's development and career. These constitute some of the greatest lyric poems ever written.

*Forecasting the Environmental Fate and Effects of Chemicals* is the first book to address specifically the issue of forecasting in environmental toxicology and chemistry from a methodological, regulatory and practical perspective. It is becoming increasingly important for environmental toxicologists and chemists to be able to forecast the fate and effects of chemicals by using existing information to predict the future. Providing a unique and timely opportunity for active researchers and students to obtain in a single volume the 'state of the art' in this expanding field, this text discusses how forecasts can be made by:

- \* using ecotoxicological endpoints at different levels of biological organisation
- \* measuring and modelling chemical fate in biotic and abiotic environments
- \* adopting difference quantitative frameworks

Written by an international team of scientists, this text will be essential reading for postgraduate and advance undergraduate students studying ecotoxicology, toxicology, chemistry and environmental statistics as well as industrial and academic research scientists in environmental toxicology, environmental chemistry and those involved in risk management.

The QRI-5 has long led the field in offering students and teachers alike a reliable and easy-to-use informal assessment instrument. This Fifth Edition continues to emphasize authentic assessment of children's reading abilities, from the most emergent readers to advanced readers. One of the keys to the success of the QRI-5 is that it contains narrative and expository passages at each pre-primer through high school level. All are self-contained selections highly representative of the structure and topic of materials found in basal readers and content-area textbooks. This new edition includes new narrative texts that are even easier than the pre-primer passages previously included. At the same time, it provides graded word lists and numerous passages designed to assess the oral reading, silent reading, or listening comprehension of a student as well as questions to assess prior knowledge. Instructors can measure comprehension by retelling passages, using implicit and explicit questions, and using other devices. What's New in the QRI-5? # Narrative texts even easier than the pre-primer passages previously included, as well as another narrative to all primary grade levels. # Passages at pre-primer through second grade levels that are presented with and without pictures. # Map and illustrations as part of expository selections at fourth through high school levels. # Accompanying DVD content has been expanded to include \* Examples of students reading orally \* Scored protocols to accompany readings \* Directions for administering each segment of the QRI \* Tables/Charts that increase consistency of administration, scoring, and interpretation \* All student and examiner copies

As research on the human, animal, plant and microbial genomes matures towards descriptive fullness, the need for understanding the proteome has clearly emerged as the next major endeavor of life sciences. Proteomics - the quantitative analysis of all proteins working in a cell at a specific time and at specific conditions - provides deep insight into the highly organized network of expression, modification and degradation of proteins. Compiled in this book are reviews and research articles which describe the recent advances and perspectives of this new field of research. The articles are grouped into the following sections: - Sample Preparation and Solubilization - Developments in Electrophoresis - Detection and Quantitation - Mass Spectrometry - Proteome Data Analysis and Management - Prokaryotes and Yeast - Biological Fluids - Eukaryotic Cells and Tissue - Oncology - Plants Proteomics is a new key for the functional analysis of living systems and of equal importance for basic as well as application oriented research.

F Power Mode Fitness Systematic workout Program for no doubt gives you the best results to achieving a fit body but challenging yourself with new exercises and workouts is a different discussion. When your body gets used to a specific workout program, it loses its effectiveness. For example if you do sit-ups every day in a month and increase the number of reps as days pass, not only it doesn't help your body to burn fats and build muscles, but it makes this exercise easy for your body and it loses its effectiveness. If you always get your body in to new challenges and learn more exercises, for sure, your body is going to be fit. In this book we challenge you and your body to new workouts and exercises. All of the body parts, legs, abs, and upper body... have been categorized in their own section and each section consists of steps. Each step is different from each other and is a challenge for you. From step 1 as you go forward you face new exercises and different levels of reps for each exercise which has been divided to 3 Modes: Minimum, Middle, and Maximum. Each step is a prerequisite for the next one. If you find a step hard, don't rush ahead to the next step. Just practice this one in your workout till you get comfortable with it and then go for the next step. Choose your Specific Body Type workout program that suits your body. Follow along with our workout program and know that if you are serious to be fit, you are in the right way. Remember, always challenge yourself. There's something in the earth deep below Elise Kavanagh's territory. A shadow is falling upon local demons to devour their flesh and harvest their souls. And it's coming for Elise next. The Union has an easy way out. They want to send Elise into hiding again with her former partner, James Faulkner. All she has to do is surrender the territory and trust that they can protect the ethereal ruins, the dark gate, and the city she's come to know as home. Greater powers have other plans for Elise and her fabled power as Godslayer—plans that mean surrendering her life and blood to the most powerful demon alive. But if she descends, there's no turning back. Once she gazes into the abyss, it will gaze back into her...and Elise will be damned forever.

Colonial Lives offers a rich variety of archival documents in translation which bring to life the political and economic workings of Latin American colonies during 300 years of Spanish rule, as well as the day-to-day lives of the colonies' inhabitants. Intended to complement textbooks such as Burkholder and Johnson's Colonial Latin America by presenting students with primary sources -- the raw materials on which the facts in other textbooks are based -- this reader strives to illustrate the impact of issues such as race, class, gender, sexuality, culture and religion in the daily lives of both natives and colonists alike. The concerns, struggles and perspectives of the inhabitants of colonial Latin America are reflected in transcripts of civil and criminal court cases, administrative reviews, ecclesiastical investigations, Inquisition trials, wills, and letters the editors have included in this reader. Each document is prefaced by an introduction that places it in the social and political context of the period. The book also includes a glossary of terms and lists of suggested further readings. Most uniquely, the book offers helpful thematic cross-referencing sections and an index of themes which allow instructors to easily adapt the book to their courses and to assign readings according to the criteria of their own specific curriculums.
