

50th Annual Report Fmc

This standard reference tool is the only comprehensive source for detailed information on more than 23,000 nonprofit American membership organizations of national scope. Every entry offers a wealth of valuable data, typically including the organization's complete name, address and phone number; founding date, purpose, activities and dues; national and international conferences; and more. Each Supplement includes listings for more than 500 new organizations.

In *The Digital Hand*, James W. Cortada combines detailed analysis with narrative history to provide a broad overview of computing's role in sixteen industries, accounting for nearly half of the U.S. economy. Beginning in 1950, when commercial applications of digital technology began to appear, Cortada examines the ways different industries adopted new technologies, as well as the ways their innovative applications influenced other industries and the U.S. economy. In addition, to this account of computers' impact on industry, Cortada also demonstrates how industries themselves influenced the nature of digital technology. Managers, economists, and anyone interested in the history of modern business will appreciate this historical analysis of digital technology's many roles and its future possibilities in a wide array of industries. A detailed picture of what the infrastructure of the Information Age really looks like and how we got there, *The Digital Hand* is a sweeping survey of how computers transformed the American economy.

Today, every international transaction has potential antitrust implications. Before you risk anything in foreign trade, consult the Fifth Edition of Wilbur L. Fugate's *Foreign Commerce and the Antitrust Laws*. Fugate offers expert analysis of how the U.S. antitrust laws affect companies' abilities to import and export goods, invest in foreign companies, and enter into joint ventures and other trading arrangements. It provides in depth discussion of current statutory and case law, as well as expert analysis of the latest developments, including areas like these: Foreign licensing of intellectual property Transnational mergers and acquisitions Transportation restrictions and other problems of international distribution ...and everything else you'll need to ensure protection under -- and compliance with -- today's far-reaching antitrust and competition laws.

In *Sacred Webs*, Chris White demonstrates how Chinese Protestants in Minnan, or the southern half of Fujian Province, fractured social ties and constructed and utilized new networks through churches, which served as nodes linking individuals into larger Protestant communities.

For a quarter of a century, David Lewis has contributed his "Ford Country" column to *Cars & Parts* magazine. In the process, he has established himself as the world's leading authority on Ford - the family, the company, and the automobiles. This hardbound edition is the first volume to feature Lewis' columns as they have appeared through the years, complete with their accompanying photographs and captions. Topics range from Henry Ford's diet and health, to members of the Ford family, advertising campaigns, dealerships, and shareholders.

For a quarter of a century, David L. Lewis' Ford Country column has been an eagerly anticipated feature in each issue of *Cars & Parts* magazine. With an authoritative yet breezy style, he has established himself as an expert on all things Ford -- the family, the company, and the automobiles. This second hardbound volume presents even more of Ford Country as it has appeared through the years, along with accompanying photographs and captions.
