The first edition of *A Symphony of Silence: An Enlightened Vision* was inspired by the desire to share with humanity, through multiple voices, the ineffable beauty we experience in our lives when the veil of ignorance is pulled back and the wonder of our essential nature is revealed.. The voices emerging from these pages add vitality and validity to our shared experience of the silence of the transcendent. It is not something beyond our reach, but a reality that has always been with us, quietly awaiting an opportunity to unfold. In this second edition of *A Symphony of Silence*, several new voices are added to the chorus of the first edition. A Catholic priest tells us of using TM as part of his inspired vision of the power of love to transform the lives of abused and destitute children from the streets of South America. The founding director of an orphanage and school in Uganda, who likewise brings TM to children in need, describes to us his compassionate resolve to eradicate suffering within his community. A poet expresses for us in verse the joy of a seeker reaching for the light. A scientist and his colleagues show us the power of TM to reduce stress and alleviate PTSD in the field of law enforcement. An actor, director, producer, and entrepreneur, explores with us his innovative projects for inner city students through “Edutainment.” Women, who for decades dedicated themselves to introducing the TM program to their multicultural community, share with us delightful and very personal stories. A pioneering social activist brings us into the conversation he had with Maharishi in 1968 at a conference in Squaw Valley, California. He talked candidly with Maharishi about the need to introduce TM as a tool to bring inner freedom to the inner cities, helping to fulfill the quest for true

civil rights. The voices in A Symphony of Silence create a glimpse into the vast impact that Maharishi has on many lives throughout the world.

William Etty was English painter, one of the few British artists to specialize almost exclusively in the nude. He spent most of his career in London. Etty's paintings are often of mythological or historical subjects, sometimes on an ambitious size, but he also made life studies throughout his career, and these are now probably his most admired works. He was often attacked for the alleged indecency of his work, The Times considering it 'entirely too luscious for the public eye'. However, by the time of his death he was wealthy and respected. He summed up his attitude to his favourite subject thus: 'Finding God's most glorious work to be Woman, that all human beauty had been concentrated in her, I dedicated myself to painting—not the Draper's or Milliner's work—but God's most glorious work, more finely than ever had been done.' His draughtsmanship is often criticized, but it is generally agreed that he attained a glowing voluptuousness in the painting of flesh that few British artists have ever approached.

This powerful, unforgettable memoir chronicles how one child was shunned—and even physically abused—by her classmates from elementary school through high school. It is an unflinching look at what it means to be the outcast, how even the most loving parents can get it all wrong, why schools are often unable to prevent disaster, and how bullying has been misunderstood and mishandled by the mental health community. You will be shocked, moved, and ultimately inspired by this harrowing tale of survival against insurmountable odds. This vivid story will open your eyes to the harsh realities and long-term consequences of bullying—and how all of us can make a difference in the lives of teens today.

Su-un and His World of Symbols The Founder of Korea's First Indigenous Religion Ashgate Publishing, Ltd.

An overview of Korean Buddhism and its major figures in the modern period.

Su-un and His World of Symbols explores the image which Choe Che-u (Su-un), the founder of Donghak (Eastern Learning) Korea's first indigenous religion, had of himself as a religious leader and human being. Su-un gave his life so that he could share his symbols, his scriptures and the foundational principals of his religion with all people, regardless of their status, gender, age or education. His egalitarian creed challenged the major religious traditions in Korea, and Korean society as a whole, to reflect on the innate dignity of each individual, and to reform their social, ethical and religious practices to accord with the reality of the Divine presence in the 'sacred refuge' that lies within. Exploring the two symbols which Su-un created and used to disseminate his religion, and the two books of Scripture which he composed, this book breaks new ground by presenting the only major work in English which attempts to ascertain the image Su-un had of himself as the prototype of a new kind of religious leader in Korea, and by extension, East Asia.

President George W. Bush had pinned North Korea to an "axis of evil" but then neglected Pyongyang until it tested a nuclear device. Would the new administration make similar mistakes? When the Clinton White House prepared to bomb North Korea's nuclear facilities, private citizen Jimmy Carter mediated to avert war and set the stage for a deal freezing North Korea's plutonium production. The 1994 Agreed Framework collapsed after eight years, but when Pyongyang went critical, the negotiations got serious. Each time the parties advanced one or two steps, however, their advance seemed to spawn one or two steps backward. Clemens distills lessons from U.S. negotiations with North Korea, Russia, China, and Libya and analyses how they do-and do not-apply to six-party and bilateral talks with North Korea in a new political era.

book of ancient Hebrew Wisdom literature run the gamut including the nature of true wisdom and understanding, vices and virtues, relationships and roles, priorities, planning for the future, how to communicate, and how to manage one's resources. In recent decades, the book of Proverbs has increasingly become the focus of attention for Christians who wish to live lives more in tune with God's principles. In particular, Christian thinkers have begun to correlate biblical principles with the study of effective leadership. Yost examines the subject of godly leadership by using the book of Proverbs as his springboard. This is a scholarly, yet deeply devotional, study of the leader's priorities, the leader's plans, and the leader's speech. Once you have read this book, you will never look at the book of Proverbs or the subject of leadership the same way again.

have fallen in love with the same beguiling drifter, Se-yeon, who gives herself freely to both of them. Then, just as they are trying desperately to forge a connection in an alienated world, Se-yeon suddenly disappears. All the while, a spectral, calculating narrator haunts the edges of their lives, working to help the lost and hurting find escape through suicide. When Se-yeon reemerges, it is as the narrator's new client.

Recalling the emotional tension of Milan Kundera and the existential anguish of Bret Easton Ellis, *I Have the Right to Destroy Myself* is a dreamlike "literary exploration of truth, death, desire and identity" (Publishers Weekly). Cinematic in its urgency, the novel offers "an atmosphere of menacing ennui [set] to a soundtrack of Leonard Cohen tunes" (Newark Star-Ledger). "Kim's novel is art built upon art. His style is reminiscent of Kafka's and also relies on images of paintings (Jacques-Louis David's 'The Death of Marat,' Gustav Klimt's 'Judith') and film (Jim Jarmusch's 'Stranger Than Paradise'). The philosophy—life is worthless and small—reminds us of Camus and Sartre, risky territory for a young writer. . . . But Kim has the advantage of the urban South Korean landscape. Fast cars, sex with lollipops and weather fronts from Siberia lend a unique flavor to good old-fashioned nihilism. Think of it as Korean noir." —Los Angeles Times "Like Georges Simenon, [Kim's] keen engagement with human perversity yields an abundance of thrills as well as chills (and, for good measure, a couple of memorable laughs). Numinous Awareness Is Never Dark examines the issue of whether enlightenment in Zen Buddhism is sudden or gradual—that is, something intrinsic to the mind that is achieved in a sudden flash of insight or something extrinsic to it that must be developed through a sequential series of practices. This “sudden/gradual issue” was one of the crucial debates that helped forge the Zen school in East Asia, and the Korean Zen master Chinul’s (1158–1210) magnum opus, *Excerpts*, offers one of the most thorough treatments of it in all of premodern Buddhist literature. According to Chinul’s analysis, enlightenment is both sudden and gradual. Zen practice must begin with a sudden awakening to the “numinous awareness”—the “sentience,” or buddha-nature—that is inherent in all “sentient” beings. Such an awareness does not need to be developed but must simply be recognized (or better “re-cognized”), through the unmediated experience of insight. Even after this initial awakening, however, deeply engrained proclivities of thought and conduct may continue to disturb the practitioner; these can only be removed gradually as his or her practice matures. Chinul’s “sudden awakening/gradual cultivation” soteriology became emblematic of the Buddhist tradition in Korea. *Excerpts*, translated here in its entirety by the preeminent Western specialist in the Korean Buddhist tradition, goes on

to examine Chinul's treatments of many of the quintessential practices of Zen Buddhism, including nonconceptualization, or no-thought, and the concurrent development of meditation and wisdom, as well as, for the first time in Korean Zen, "examining meditative topics" (kanhwa Sʻn)—what we in the West know better as kʻans, after its later Japanese analogues. Fitting this new technique into his preferred soteriological schema of sudden awakening/gradual cultivation was no simple task for Chinul. Numinous Awareness Is Never Dark offers an extensive study of the contours of the sudden/gradual debate in Buddhist thought and practice and traces the influence of Chinul's analysis of this issue throughout the history of the Korean tradition. Copiously annotated, the work contains extensive selections from the two traditional Korean commentaries to the text. In Buswell's treatment, Chinul's Excerpts emerges as the single most influential work written by a Korean Buddhist author.

Reproduction of the original: Kings in Exile by Charles G.D. Roberts

This volume makes available in English the seminal treatises in Korea's greatest interreligious debate of the fourteenth and fifteenth centuries. On Mind, Material Force, and Principle and An Array of Critiques of Buddhism by Confucian statesman Chʻng Tojʻn (1342–1398) and Exposition of Orthodoxy by Sʻn monk Kihwa (1376–1433) are presented here with extensive annotation. A substantial introduction provides a summary and analysis of the philosophical positions of both Neo-Confucianism and Buddhism as well as a germane history of the interactions between these two traditions in East Asia, offering insight into religious tensions that persist to this day. Translator A. Charles Muller shows how, from the time Confucianism and Buddhism met in China, these thought systems existed, along with Daoism, in a

competing relationship that featured significant mutual influence. A confrontative situation eventually developed in China, wherein Confucian leaders began to criticize Buddhism. During the late-Koryŏ and early-Chosŏn periods in Korea, the Neo-Confucian polemic became the driving force in the movement to oust Buddhism from its position as Korea's state religion. In his essays, Chŏng drew together the gamut of arguments that had been made against Buddhism throughout its long history in Korea. Kihwa's essay met Neo-Confucian contentions with an articulate Buddhist response. Thus, in a rare moment in the history of religions, a true philosophical debate ensued. This debate was made possible based upon the two religions' shared philosophical paradigm: essence-function (ch'e-yong). This traditional East Asian way of interpreting society, events, phenomena, human beings, and the world understands all things to have both essence and function, two contrasting yet wholly contiguous and mutually containing components. All three East Asian traditions took this as their underlying philosophical paradigm, and it is through this paradigm that they evaluated and criticized each other's doctrines and practices. Specialists in philosophy, religion, and Korean studies will appreciate Muller's exploration of this pivotal moment in Korean intellectual history. Because it includes a broad overview of the interactive history of East Asian religions, this book can also serve as a general introduction to East Asian philosophical thought.

Through a diachronic and comparative approach this book offers a comprehensive study of Zen Buddhist linguistic and rhetoric devices in China, Korea, and Japan. It draws a vivid picture of the complexity of Zen Buddhist literary production in interaction with doctrinal and ritual issues, as well as in response to the

How many people have the chance to come in direct contact with the teachings of a truly enlightened living Master? The preciousness of that opportunity is explored in the pages of *I Have Come To Take You Home*.

Prepared originally by one practitioner from Supreme Master Ching Hai's lectures, interviews and informal talks, this book began as a collection of personal notes.

With the help of many fellow practitioners who transcribed the English lectures and translated many other, themes of Master's teachings began to emerge.

Wonhyo (617-686) is the dominant figure in the history of Korean Buddhism and one of the most influential thinkers in the Korean philosophical tradition. Koreans know Wonhyo in his various roles as Buddhist mystic, miracle worker, social iconoclast, religious proselytist, and cultural hero. Above all else, Wonhyo was an innovative thinker and prolific writer, whose works cover the gamut of Indian and Sinitic Buddhist materials: Some one hundred treatises and commentaries are attributed to him, twenty-three of which are extant today. Wonhyo's importance is not limited to the peninsula, however. His writings were widely read in China and Japan, and his influence on the overall development of East Asian Mahayana thought is significant, particularly in relation to the Huayan, Chan, and Pure Land schools. In *Cultivating Original Enlightenment*, the first volume in *The*

International Association of Wonhyo Studies' Collected Works of Wonhyo series, Robert E. Buswell Jr. translates Wonhyo's longest and culminating work, the Exposition of the Vajrasam? dhi-Sutra (Kumgang Sammaegyong Non). Wonhyo here brings to bear all the tools acquired throughout a lifetime of scholarship and meditation to the explication of a scripture that has a startling connection to the Korean Buddhist tradition. In his treatise, Wonhyo examines the crucial question of how enlightenment can be turned from a tantalizing prospect into a palpable reality that manifests itself in all activities.

SIMIN HABIBIAN has collected 1001 of the most well known Persian proverbs and has found the equivalent or similar of each in English. She has also included a literal translation of each proverb in English, to help the reader and so that the cultural similarities and differences can be seen. In addition, 1001 Persian-English Proverbs includes 111 more proverbs illustrated. The reader can guess which proverb it refers to. An answer key in the back tells the reader which proverb the illustration represents. The book is suited for those learning Persian (Farsi) and for second generation Iranian-Americans who wish to further expand their understanding of their mother language and culture. The reader who does not read or speak Persian will find it a pleasant read.

A variety of crucial and still most relevant ideas about nothingness or emptiness have gained profound philosophical prominence in the history and development of a number of South and East Asian traditions—including in Buddhism, Daoism, Neo-Confucianism, Hinduism,

Korean philosophy, and the Japanese Kyoto School. These traditions share the insight that in order to explain both the great mysteries and mundane facts about our experience, ideas of "nothingness" must play a primary role. This collection of essays brings together the work of twenty of the world's prominent scholars of Hindu, Buddhist, Daoist, Neo-Confucian, Japanese and Korean thought to illuminate fascinating philosophical conceptualizations of "nothingness" in both classical and modern Asian traditions. The unique collection offers new work from accomplished scholars and provides a coherent, panoramic view of the most significant ways that "nothingness" plays crucial roles in Asian philosophy. It includes both traditional and contemporary formulations, sometimes putting Asian traditions into dialogue with one another and sometimes with classical and modern Western thought. The result is a book of immense value for students and researchers in Asian and comparative philosophy.

The Trek tells the story of David Schachne's adventure in November, 2004, attempting to summit Kala Patthar, a mountain which towers above Everest Base Camp in the Himalayas. At 18,192 feet above sea level, the summit of Kala Patthar offers successful climbers one of the most amazing views of Mount Everest (29,035 feet) without having to put your life at risk by entering the Khumbu Icefall, or by climbing Mount Lhotse or Mount Nuptse. Raised in Brooklyn, NY, Schachne loved visiting the great outdoors as a teenager, going camping and hiking in the Catskills and Adirondacks. Throughout his early adult life, he had a burning desire to go trekking in the

Himalayas. He believed going there would make his life more fulfilled. Schachne certainly didn't expect his trek to be a "walk in the park", but he was ill-prepared for what was in store for him. Climbing for hours and hours each day while mentally and physically exhausted; confronting sub-freezing temperatures; dealing with illness, high altitude sickness, piercing headaches, wretched odors, utter filth, bacterial infections, dysentery and more, he endured two weeks of pure, nightmarish misery. In this riveting account of his gut-wrenching trek over fourteen sleepless days and nights, while malnourished, Schachne takes you along on each and every step of his journey. You'll experience the ups and downs of the hills and valleys, and the highs and lows of his personal triumphs and chaotic travails. He flies from Kathmandu in Nepal to the most dangerous airport in the world (Tenzing Hillary Airport), in a town called Lukla, then hikes to Phadking and Namche Bazaar, a virtual flea market at 11,000 feet, then Thyangboche Monastery and then Dingboche, Dzugla, Lobuche and Gorak Shep, before finally attempting the summit. Schachne reveals what originally led him to fall in love with nature, why he was so determined to go to the Himalayas, and why he persevered despite the brutal bodily punishment he experienced. Join Schachne for the most entertaining adventure of your life, as he takes you along on this thrilling, harrowing and laugh and cry-out-loud journey. What do Buddhist monks learn about Buddhism? Which part of their enormous canonical and non-canonical literature do they choose to focus on as the required curriculum in their training, and what do they elect to leave out? The cultural depository of Buddhism includes some four thousand canonical texts, hundreds of other historical works, modern textbooks, oral traditions, and more recently, an increasingly growing body of online material. The sheer diversity of this mass of information makes the pedagogical choices of monastics worthy of close study. *Monastic Education in Korea* is essentially a biography of the Korean Buddhist monastic curriculum over the past five centuries. Based on extensive ethnographic work and archival research in Korean monasteries, it illustrates how a particular premodern syllabus was reimagined in the twentieth century to become the sole national Korean monastic pedagogical program—only to be criticized and completely restructured in recent years.

Through a detailed analysis of these modifications, the work demonstrates how Korean Buddhist reformers today tend to imitate the educational practices and canonize the textual totems of the contemporary international discipline of Buddhist studies, and how, by doing so, they ultimately transform the local Korean tradition from a particular brand of Chinese-centered scholastic Chan into the inclusive, pluralistic, Indian-focused Buddhism common in English-language introductions to the religion. The book further

examines the proliferation of diverse graduate schools for the sangha, as well as the creation of a novel examination system for all monastics. It reveals some of the realities of operating large monastic organizations in contemporary Asia and portrays a living, vibrant Buddhist community that is constantly negotiating with modern values and reformulating its core orthodoxies.

With nearly twenty-five million citizens, a secretive totalitarian dictatorship, and active nuclear and ballistic missile weapons programs, North Korea presents some of the world's most difficult foreign policy challenges. For decades, the United States and its partners have employed multiple strategies in an effort to prevent Pyongyang from acquiring weapons of mass destruction. Washington has moved from the Agreed Framework under President Bill Clinton to George W. Bush's denunciation of the regime as part of the "axis of evil" to a posture of "strategic patience" under Barack Obama. Given that a new president will soon occupy the White House, policy expert Walter C. Clemens Jr. argues that now is the time to reconsider US diplomatic efforts in North Korea. In *North Korea and the World*, Clemens poses the question, "Can, should, and must we negotiate with a regime we regard as evil?" Weighing the needs of all the stakeholders -- including China, Japan, Russia, and South Korea -- he concludes that the answer is yes. After assessing nine other policy options, he makes the case for engagement and negotiation with the regime. There still may be time to freeze or eliminate North Korea's weapons of mass destruction. Grounded in philosophy and history, this volume offers a fresh road map for negotiators and outlines a grand bargain that balances both ethical and practical security concerns.

On 25 June 1950, Communist North Korea unexpectedly invaded its southern neighbor, the American-backed Republic of Korea (ROK). The poorly equipped ROK Army was no

match for the well prepared North Korean People's Army (NKPA) whose armored spearheads quickly thrust across the 38th Parallel. The stunned world helplessly looked on as the outnumbered and outgunned South Koreans were quickly routed. With the fall of the capital city of Seoul imminent, President Harry S. Truman ordered General of the Army Douglas MacArthur, C-in-C, Far East, in Tokyo, to immediately pull all American nationals in South Korea out of harm's way. On 27 July, an American combat air patrol protecting Kimpo Airfield near the South Korean capital actively engaged menacing North Korean planes and promptly downed three of the five Soviet-built Yak fighters. Soon thereafter American military forces operating under the auspices of the United Nations Command (UNC) were committed to thwart a Communist takeover of South Korea. Thus, only four years and nine months after V-J Day marked the end of WWII, the United States was once again involved in a shooting war in Asia.... The United Nations issued a worldwide call to arms to halt Communist aggression in Korea, and America's armed forces began to mobilize. Marines were quick to respond. Within three weeks a hastily formed provisional Marine brigade departed California and headed for the embattled Far East. Among the aviation units on board the U.S. Navy task force steaming west was a helicopter detachment, the first rotary-wing aviation unit specifically formed for combat operations in the history of the Marine Corps. Although few realized it at the time, this small band of dedicated men and their primitive flying machines were about to radically change the face of military aviation. Arguably, the actions of these helicopter pilots in Korea made U.S. Marines the progenitors of vertical envelopment operations, as we know them today. and Gender presents a comprehensive overview of the complexity of gender disparity in Chinese thought and culture. Divided into four main sections, an international group of experts in Chinese Studies write on Confucian, Daoist and Buddhist approaches to gender relations. Each section includes a general introduction, a set of authoritative articles written by leading scholars and comprehensive bibliographies, designed to provide the non-specialist with a practical and broad overview. Beginning with the Ancient and Medieval period before moving on to Modern and Contemporary approaches, specially commissioned chapters include Pre-Qin canonical texts, women in early Chinese ethics, the yin-yang gender dynamic and the Buddhist understanding of the conception of gender. Considering why the philosophy of women and gender dynamics in Chinese thought is rarely confronted, The Bloomsbury Research Handbook of Chinese Philosophy and Gender is a pioneering cross-disciplinary introduction to Chinese philosophy's intersection with gender studies. By bridging the fields of Chinese philosophy, religion, intellectual history, feminism, and gender studies, this cutting-edge volume fills a great need in the current literature on Chinese philosophy and provides student and scholars with an invaluable research resource to a growing field.
