A special fiftieth anniversary edition of Kurt Vonnegut's masterpiece, "a desperate, painfully honest attempt to confront

the monstrous crimes of the twentieth century” (Time), featuring a new introduction by Kevin Powers, author of the National Book Award finalist *The Yellow Birds* Selected by the Modern Library as one of the 100 best novels of all time *Slaughterhouse-Five*, an American classic, is one of the world’s great antiwar books. Centering on the infamous World War II firebombing of Dresden, the novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber’s son turned draftee turned optometrist turned alien abductee. As Vonnegut had, Billy experiences the destruction of Dresden as a POW. Unlike Vonnegut, he experiences time travel, or coming “unstuck in time.” An instant bestseller, *Slaughterhouse-Five* made Kurt Vonnegut a cult hero in American literature, a reputation that only strengthened over time, despite his being banned and censored by some libraries and schools for content and language. But it was precisely those elements of Vonnegut’s writing—the political edginess, the genre-bending inventiveness, the frank violence, the transgressive wit—that have inspired generations of readers not just to look differently at the world around them but to find the confidence to say something about it. Authors as wide-ranging as Norman Mailer, John Irving, Michael Crichton, Tim O’Brien, Margaret Atwood, Elizabeth Strout, David Sedaris, Jennifer Egan, and J. K. Rowling have all found inspiration in Vonnegut’s words. Jonathan Safran Foer has described Vonnegut as “the kind of writer who made people—young people especially—want to write.” George Saunders has declared Vonnegut to be “the great, urgent, passionate American writer of our century, who offers us . . . a model of the kind of compassionate thinking that might yet save us from ourselves.” Fifty years after its initial publication at the height of the Vietnam War, Vonnegut’s portrayal of political disillusionment, PTSD, and postwar anxiety feels as relevant, darkly humorous, and profoundly affecting as ever, an enduring beacon through our own era’s uncertainties. “Poignant and hilarious, threaded with compassion and, behind everything, the cataract of a thundering moral statement.”—The Boston Globe

Auggie and her grandfather use found objects to transform the appearance of their home and, in the process, change a whole town's perceptions of beauty and art.

"An ingenious simplicity and grace mark the first-person telling of the story of eleven-year-old Rinko and her Japanese family in Berkeley, California. Times are hard for everyone in 1935, but being Japanese is for Rinko an added burden. . . . Compared with the many worldly-wise contemporary book heroines, Rinko in her guilelessness is genuine and refreshing, and her worries and concerns seem wholly natural, honest and convincing".--The Horn Book.

Winner of the 1999 Caldecott Medal "Of all the forms of water the tiny six-pointed crystals of ice called snow are incomparably the most beautiful and varied." -- Wilson Bentley (1865-1931) From the time he was a small boy in Vermont, Wilson Bentley saw snowflakes as small

miracles. And he determined that one day his camera would capture for others the wonder of the tiny crystal. Bentley's enthusiasm for photographing snowflakes was often misunderstood in his time, but his patience and determination revealed two important truths: no two snowflakes are alike; and each one is startlingly beautiful. His story is gracefully told and brought to life in lovely woodcuts, giving children insight into a soul who had not only a scientist's vision and perseverance but a clear passion for the wonders of nature. Snowflake Bentley won the 1999 Caldecott Medal.

This Newbery Honor winning, New York Times bestseller celebrates the true spirit of independence on the American frontier. For most of her life, sixteen-year-old Hattie Brooks has been shuttled from one distant relative to another. Tired of being Hattie Here-and-There, she summons the courage to leave Iowa and move all by herself to Vida, Montana, to prove up on her late uncle's homestead claim. Under the big sky, Hattie braves hard weather, hard times, a cantankerous cow, and her own hopeless hand at the cookstove. Her quest to make a home is championed by new neighbors Perilee Mueller, her German husband, and their children. For the first time in her life, Hattie feels part of a family, finding the strength to stand up against Traft Martin's schemes to buy her out and against increasing pressure to be a "loyal" American at a time when anything—or anyone—German is suspect. Despite daily trials, Hattie continues to work her uncle's claim until an unforeseen tragedy causes her to search her soul for the real meaning of home. This young pioneer's story is lovingly stitched together from Kirby Larson's own family history and the sights, sounds, and scents of homesteading life. AN AMERICAN LIBRARY ASSOCIATION BEST
