Explores black women writers' treatment of the ancestor figure. *The Grasp That Reaches beyond the Grave* investigates the treatment of the ancestor figure in Toni Cade Bambara's *The Salt Eaters*, Paule Marshall's *Praisesong for the Widow*, Phyllis Alesia Perry's *Stigmata* and *A Sunday in June*, Toni Morrison's *Beloved*, Tananarive Due's *The Between*, and Julie Dash's film, *Daughters of the Dust* in order to understand how they draw on African cosmology and the interrelationship of ancestors, elders, and children to promote healing within the African American community.

Venetria K. Patton suggests that the experience of slavery with its concomitant view of black women as "naturally dead" has impacted African American women writers' emphasis on elders and ancestors as they seek means to counteract notions of black women as somehow disconnected from the progeny of their wombs. This misperception is in part addressed via a rich kinship system, which includes the living and the dead. Patton notes an uncanny connection between depictions of elder, ancestor, and child figures in these texts and Kongo cosmology. These references suggest that these works are examples of Africanisms or African retentions, which continue to impact African American culture.

Brazen, uproarious, slyly prescriptive, and always entertaining, Ali Adler is a sex and relationship guru who knows what women want. As a gay woman, she has both the equipment and the experience to give straight men (and the women who love them) advice on both how to get more sex and how to get this job done right. In her day job as a comedy writer and TV producer, Ali is sometimes the only woman in a room full of comedy writers. She became legendary for offering frank, sometimes insightful, often bossy reality checks and for translating female sexuality into words a man could understand. In her book, *How to F\*ck a Woman — 20 percent explicit instructions, 80 percent relationship advice, and 100 percent hilarious* — she brings together essential advice for men (even the ones who insist they could write this book) and the women who want their lovers to truly understand them, both mind and body. With illustrations by New Yorker cartoonist Liza Donnelly.

Many of us absorbed the rules for being male or female from our families and the culture in which we grew to adulthood. We formed beliefs about a man's role and a woman's role based on what we observed and experienced; mostly, those beliefs had to do with what men and woman did rather than who they were. Our ideas about what constitutes "masculine" and "feminine", by now outdated and inadequate, have led to a precarious imbalance both in our inner lives and in our external lives of relating to men and women. The result? A gender war. In *Joining Forces*, Jeanie Miley explains that our deeply ingrained gender expectations have created an imbalance in our emotional and spiritual lives and have kept us from becoming our most authentic selves. *Joining Forces* will help readers discover the masculine and feminine characteristics that connect, unite, and restore us—traits that men and women alike can and do express. By joining our masculine and feminine strengths, we restore our own souls, our creative energies, and our own true, essential natures.

Serving others is a vital part of the Christian life. Time and again Christ demonstrated the importance of putting others first and giving what we can to help those less fortunate. As adults, we recognize the importance of instilling these values in our children and youth, but simply telling them to love their neighbor isn't enough; to leave a lasting impression, they need to see and experience love in action. *77 Ways Your Family Can Make a Difference* is an easy-to-use resource that parents can use to cultivate compassion in their children and engage their family in acts of service. The hauntingly prophetic classic novel set in a not-too-distant future where books are burned by a special task force of firemen. 'Another indispensable classic' The Times "Ray Bradbury's gift for storytelling reshaped our culture and expanded our world" Barack Obama Guy Montag is a fireman. We all desire success--but we don't all understand what success actually is. Success isn't a place you arrive at after working hard. That's a goal. Success is found in the character you maintain while you pursue your goals. It's about who we are and how we project our persona at work, at home, at school, and everywhere else. And all it takes to find success and fulfillment are simple shifts in the way we think. In this wisdom-packed book, Dean Del Sesto offers readers 77 brief reflections to help them shift their thought patterns for greater success in business and life. He shows how to interrupt the things that aren't currently working and provides clear alternatives to think, plan, and act differently for better results. "That Girl From the Dummy Line" is a first person account of growing up in severe poverty in the delta farm region of northeastern Arkansas in 50s and 60s in a tarpapered shack built on a dirt road known as the dummy line. The dummy line girl was the third of ten children born to an illiterate farmer and his wife, who didn't understand their daughter's love of education or her desire to go to college as she excelled in school. Indeed, they actively attempted to prevent her from leaving home to seek a college degree. The dummy line girl spent much of her childhood working in the cotton fields. Farm work and other chores took a toll on the dummy line girl's ability to stay on

track with her studies and goals. Further complicating her life was a dysfunctional relationship with her parents and an abusive older sister. The local public school system became her refuge and provided her with the hope she needed in order to plan a better future for herself. This is a story about a girl who refused to accept the path given her by accident of birth - a girl who wanted more and believed she deserved more and was willing to work for it.

The acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation," All About Love is a revelation about what causes a polarized society and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Animals and Women is a collection of pioneering essays that explores the theoretical connections between feminism and animal defense. Offering a feminist perspective on the status of animals, this unique volume argues persuasively that both the social construction and oppressions of women are inextricably connected to the ways in which we comprehend and abuse other species. Furthermore, it demonstrates that such a focus does not distract from the struggle for women's rights, but rather contributes to it. This wide-ranging multidisciplinary anthology presents original material from scholars in a variety of fields, as well as a rare, early article by Virginia Woolf. Exploring the leading edge of the species/gender boundary, it addresses such issues as the relationship between abortion rights and animal rights, the connection between woman-battering

and animal abuse, and the speciesist basis for much sexist language. Also considered are the ways in which animals have been regarded by science, literature, and the environmentalist movement. A striking meditation on women and wolves is presented, as is an examination of sexual harassment and the taxonomy of hunters and hunting. Finally, this compelling collection suggests that the subordination and degradation of women is a prototype for other forms of abuse, and that to deny this connection is to participate in the continued mistreatment of animals and women.

Like most people, Irina Gorski has a past. A past that she wants to keep secret. She had fought in the war against Emperor Lalani where she was a member of a secret military organization called the Arcanum Mortis. Her job was to do the impossible tasks which usually required a flexible set of moral standards. A job in which she excelled. It has been 15 years since the end of the war, and she is now a Maintenance Chief on an out of the way research station. The job was fine with Irina because all she wanted to do was raise her daughter, Pearl. Her biggest fear was her daughter finding out about her past. Things are fine for her until one day a terrorist group called the Brotherhood decide that they are going to make her remote out of the way planet their new home world. Now she has to use her training from the past to try to stop the Brotherhood and save her daughter as well as the researchers and their families. Irina wondered which was harder, keeping secrets or raising a teenage daughter.

In post-liberation France, the French courts judged the cases of more than one hundred thousand people accused of aiding and abetting the enemy during the Second World War. In this fascinating book, Sandra Ott uncovers the hidden history of collaboration in the Pyrenean borderlands of the Basques and the Béarnais in southwestern France through nine stories of human folly, uncertainty, ambiguity, ambivalence, desire, vengeance, duplicity, greed, self-interest, opportunism and betrayal. Covering both the occupation and liberation periods, she reveals how the book's characters became involved with the occupiers for a variety of reasons, ranging from a desire to settle scores and to gain access to power, money and material rewards, to love, friendship, fear and desperation. These wartime lives and subsequent postwar reckonings provide us with a new lens through which to understand human behavior under the difficult conditions of occupation, and the subsequent search for retribution and justice.
