The award-winning creator of *Blue's Clues*, *Super Why!*, and *Daniel Tiger's Neighborhood* shares the secret sauce behind her shows' powerful, transformative results in the form of eleven research-based, foundational "clues" to ensure that preschoolers flourish academically, socially, and emotionally during this critical time. The preschool years—when children are between the ages of two and five—are the most influential, important years in a child's life. Studies show that pausing to interact, playing to solve problems, diffusing with humor, and using repetition are the hidden clues conscious parents use to raise successful kids and help them learn critical thinking skills, foster empathy, and nurture their sense of self-worth. Angela C. Santomero, MA, the award-winning creator of children's television phenomena knows this better than anyone and has spent decades working to instill confidence in her young viewers. In *Preschool Clues*, she breaks down the philosophy behind her shows—educating, inspiring, and empowering kids—into concrete strategies that parents and educators can incorporate into their family and classroom to set their preschoolers up for success, such as: -Intentionally pausing to foster bonding, independence, and resilience -Developing empathy and confidence through soliciting preschoolers' help -Becoming "fluent" in the language of preschoolers: Play -Igniting your preschooler's curiosity -Being an involved co-player everyday -Designing a healthy media diet In *Preschool Clues*, Angela shares the latest research from top thinkers in child development and education. Through her practical, straightforward advice and inspiring, conversational approach, you will not only understand exactly what your children are learning from the shows they watch and why these shows are so effective, you'll know exactly how to apply these same proven approaches in your daily life and with the same powerful results.

“McConaughey’s book invites us to grapple with the lessons of his life as he did—and to see that the point was never to win, but to understand.”—Mark Manson, author of *The Subtle Art of Not Giving a F*ck* I’ve been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life’s challenges—how to get relative with the inevitable—you can enjoy a state of success I call “catching greenlights.” So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seens, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it’s medicine that tastes good, a couple of

aspirin instead of the infirmary, a spaceship to Mars without needing your pilot's license, going to church without having to be born again, and laughing through the tears. It's a love letter. To life. It's also a guide to catching more greenlights—and to realizing that the yellows and reds eventually turn green too. Good luck.

While writing this book, the author underwent an extraordinary experience. He received messages, from an unknown source, regarding the contents of the book. These messages contained vital, hitherto unknown information about the history and origins of planet Earth. Due to the nature and content of these communications, it became obvious to the author that their source must be ALIENS. Irrefutable credibility was delivered in the form of firm evidence of their presence and of their activity on Earth two thousand years ago. Based on such evidence, the author assures readers that this book will deliver: 1. To NASA: great embarrassment; 2. To UFO/ALIEN enthusiasts: confirmation and satisfaction; 3. To all doubters and skeptics: inevitable defeat, as they will not be up against the author of this book, but against powers far more advanced than all of us.
