This imaginative journey through the alphabet teaches all the sound(s) made by each letter. With delightful characters such as dragons, elves, and hedgehogs students giggle their way through the ABCs. Toddlers and preschoolers often beg for the book to be read again spontaneously repeating the phonogram sounds laying the groundwork to become a strong reader and speller. Children ages 0-3 are developmentally tuned to the sound(s) of the language spoken around them. Young children are drawn to Doodling Dragons and desire to hear it read again and again while they mimic each sound. This provides not only an outstanding foundation for literacy skills but aids children in developing the building blocks for spoken language. Children ages 4-7 delight in hearing the sample words for each of the A-Z phonograms. By hearing and seeing their application within words, students develop phonemic awareness, or an understanding of how sounds combine to form words. Students also delight in the silly examples which provide another memory tool for mastering difficult sounds such as the /ü/ in "püt the bütcher in the püdding"

From renowned ABC News anchor/correspondent and former insomniac Diane Macedo, comes a practical, user-friendly guide to getting better sleep. *The Sleep Fix* flips the switch on common advice, illuminating the reporter's relentless search for how to get a good night's sleep and the surprising, scientific, and practical solutions she found along the way. Roughly thirty percent of the population is estimated to be living with insomnia, while many more unknowingly suffer from other sleep disorders. In *The Sleep Fix*, Macedo aims to change that with perspective-shifting research and easy-to-implement solutions based not just on science and experts, but also her own years-long struggle. As an early-morning reporter and overnight news anchor, Macedo learned the hard way how valuable sleep is, and how it affects everything from our heart to our brain to our immune system. The longer Macedo struggled, the more her health deteriorated. Desperate, she tried standard sleep tip after standard sleep tip, but nothing worked - instead, it made her worse. Finally, after developing a tolerance to sleeping pills, Macedo decided to attack the problem as a journalist, interviewing sleep experts from all over the world to get to the bottom of what really keeps us from sleeping—and the various ways to fix it. As Macedo explains, the solution to catching zzz's isn't as simple as giving up caffeine, or putting away your phone before bed. With her down-to-earth explanations and humor, she instead teaches us how to:

- Understand sleep biology
- Identify sleep obstacles
- Flag sleep myths and separate fact from fiction
- Try counterintuitive approaches
- Shift our mindset

Most importantly, Macedo — a busy, working mom — teaches us how to adjust and fit these solutions into our everyday lives. Offering expert wisdom, cutting-edge research, intimate sleep stories from public figures, and actionable advice, *The Sleep Fix* is the tell-it-like-it-is guide this sleep-deprived world has been waiting for.
