Step by Step Machine Sewing Basics is the first volume in a series of books that give sewing instructions at progressive levels of expertise. This full color book walks you through step by step sewing basics from learning what the marks on the sewing machine needle or throat plate mean to hands on-practice exercises and sewing projects. The author assumes the person reading and following the instructions in this book is a person without any knowledge of sewing or is supervising a young person learning to sew. The Learn to Sew book series is also a great way to teach home schooled students, girls scouts or other learning clubs how to sew in a step by step process, or to validate or correct previously self-taught techniques. After reading and performing the projects in this book, you will have a good understanding of the basic stitches and how to sew them, including sewing a straight stitch in a straight line, circle, or a box with 90° corners, and sewing a zigzag stitch as well as knowing what it is used for. You will also learn the triple stretch stitch, back stitch, buttonhole stitch, and hem stitch, sewing terms, and more. You who already have a good understanding of machine sewing basics may want to review your skills with this book or start at a level in the series that more closely matches your level of understanding. Samsara, Nirvana, and Buddha Nature takes up centrally important premises of Buddhism: the unsatisfactoriness (duhkha) of cyclic existence (samsara), the determination to be free of cyclic existence, and the mind as the basis for both the extreme duhkha of samsara and the bliss of nirvana. This volume shows us how to purify our minds and cultivate awakened qualities. Knowledge of buddha nature reveals and reconciles the paradox of how the mind can be the basis for both the extreme duhkha of samsara (the unpurified mind) and the bliss and fulfillment of nirvana (the purified mind). To illustrate this, Samsara, Nirvana, and Buddha Nature first takes readers through Buddhist thought on the self, the Four Noble Truths, and their sixteen attributes. Then, the Dalai Lama explains afflictions, their arising and antidotes, followed by an examination of karma and cyclic existence and, finally, a deep and thorough elucidation of buddha nature. This is the third volume in the Dalai Lama's definitive and comprehensive series on the stages of the Buddhist path, The Library of Wisdom and Compassion. Volume 1, Approaching the Buddhist Path, contained introductory material that sets the context for Buddhist practice. Volume 2, The Foundation of Buddhist Practice, describes the important teachings that help us establish a flourishing Dharma practice. Samsara, Nirvana, and Buddha Nature can be read as the logical next step in this series or enjoyed on its own.
