The term "biography" seems insufficiently capacious to describe the singular achievement of Joseph Frank's five-volume study of the life of the great Russian novelist Fyodor Dostoevsky. One critic, writing upon the publication of the final volume, casually tagged the series as the ultimate work on Dostoevsky "in any language, and quite possibly forever." Frank himself had not originally intended to undertake such a massive work. The endeavor began in the early 1960s as an exploration of Dostoevsky's fiction, but it later became apparent to Frank that a deeper appreciation of the fiction would require a more ambitious engagement with the writer's life, directly caught up as Dostoevsky was with the cultural and political movements of mid- and late-nineteenth-century Russia. Already in his forties, Frank undertook to learn Russian and embarked on what would become a five-volume work comprising more than 2,500 pages. The result is an intellectual history of nineteenth-century Russia, with Dostoevsky's mind as a refracting prism. The volumes have won numerous prizes, among them the National Book Critics Circle Award for Biography, the Christian Gauss Award of Phi Beta Kappa, the Los Angeles Times Book Prize, and the James Russell Lowell Prize of the Modern Language Association.

All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. William Ury, coauthor of the international bestseller Getting to Yes, returns with another groundbreaking book, this time asking: how can we expect to get to yes with others if we haven't first gotten to yes with ourselves? Renowned negotiation expert William Ury has taught tens of thousands of people from all walks of life—managers, lawyers, factory workers, coal miners, schoolteachers, diplomats, and government officials—how to become better negotiators. Over the years, Ury has discovered that the greatest obstacle to successful agreements and satisfying relationships is not the other side, as difficult as they can be. The biggest obstacle is actually our own selves—our natural tendency to react in ways that do not serve our true interests. But this obstacle can also become our biggest opportunity, Ury argues. If we learn to understand and influence ourselves first, we lay the groundwork for understanding and influencing others. In this prequel to Getting to Yes, Ury offers a seven-step method to help you reach agreement with yourself first, dramatically improving your ability to negotiate with others. Practical and effective, Getting to Yes with Yourself helps readers reach good agreements with others, develop healthy relationships, make their businesses more productive, and live far more satisfying lives.

Pastor and author Martin Thielen has compiled a list of ten things people need to believe, and ten things they don't, in order to be a Christian. This lively and engaging book will be a help to seekers as well as a comfort to believers who may find themselves questioning some of the assumptions they grew up with. With an accessible, storytelling style that's grounded in solid biblical scholarship, Thielen shows how Christians don't need to believe that sinners will be "left behind" to burn in hell or that it's heresy to believe in evolution. And while we must always take the Bible seriously, we don't always have to take it literally. At the same time, Christians do need to believe in Jesus--his life, his teachings, his death and resurrection, and his vision for the world. A great benefit of those beliefs is that they provide promising answers to life's most profound questions, including: Where is God? What matters most? What brings fulfillment? What about suffering? Is there hope? Thielen articulates centrist, mainline Christianity in a way that's fresh and easy to understand, and offers authentic Christian insights that speak to our deepest needs. This new edition includes a leader's guide, previously only available online, and a new introduction from the author that reflects on the book's reception. The leader's guide features unique and easily implemented aids for carrying out a seven-week, congregation-wide initiative that will help local churches reach out to their communities. It's about to become a philosophy of choice in the consciousness revolution. I gathered this intelligence at the Eugene home of Amit Goswami, Professor of Physics at the Institute of Theoretical Studies at the University of Oregon. At first glance, the book appears to be one of those 'new science' books that have become so popular. It does describe quite well the basic experiments of quantum physics, the ones that produce such paradoxes as the dual identity (wave and particle) of electrons and their ability to communicate at a distance with each other instantaneously (non-locality). But rather than simply leaving us with a 'Gee, whiz, isn't this incredible?' impression that the real world isn't as we assumed, Goswami boldly, yet very thoughtfully, introduces us to monistic idealism and suggests we accept it as a foundation for a new, and quite compelling, worldview.

Imagine a stormy day at sea, your ship yielding to a relentless wind, pummeled by crashing waves, subject to the awesome force of nature. A force that is both fierce and majestic. A power that is nothing short of furious. Such is God's intense, consuming love for His children. It's a love that knows no limits, and no boundaries. A love that will go to any lengths, and take any risks, to pursue us. Renowned author and ragamuffin Brennan Manning presents a love story for the brokenhearted. For those who are burdened by heavy religion. For those who feel they can never measure up. It is a provocative and poignant look at the radical, no-holds-barred love of our Heavenly Father. It is a message that will forever change how you view God.
