The true story behind the events that inspired the major motion picture Only the Brave. A "unique and bracing" (Booklist) first-person account by the sole survivor of Arizona's disastrous 2013 Yarnell Hill Fire, which took the lives of 19 "hotshots"--firefighters trained specifically to battle wildfires. Brendan McDonough was on the verge of becoming a hopeless, inveterate heroin addict when he, for the sake of his young daughter, decided to turn his life around. He enlisted in the Granite Mountain Hotshots, a team of elite firefighters based in Prescott, Arizona. Their leader, Eric Marsh, was in a desperate crunch after four hotshots left the unit, and perhaps seeing a glimmer of promise in the skinny would-be recruit, he took a chance on the unlikely McDonough, and the chance paid off. Despite the crew's skepticism, and thanks in large part to Marsh's firm but loving encouragement, McDonough unlocked a latent drive and dedication, going on to successfully battle a number of blazes and eventually win the confidence of the men he came to call his brothers. Then, on June 30, 2013, while McDonough--"Donut" as he'd been dubbed by his team--served as lookout, they confronted a freak, 3,000-degree inferno in nearby Yarnell, Arizona. The relentless firestorm ultimately trapped his hotshot brothers, tragically killing all 19 of them within minutes. Nationwide, it was the greatest loss of firefighter lives since the 9/11 attacks. Granite Mountain is a gripping memoir that traces McDonough's story of finding his way out of the dead end of drugs, finding his purpose among the Granite Mountain Hotshots, and the minute-by-minute account of the fateful day he lost the very men who had saved him. A harrowing and redemptive tale of resilience in the face of tragedy, Granite Mountain is also a powerful reminder of the heroism of the people who put themselves in harm's way to protect us every day. "With laser-like precision, Graham fuses together our collective cultural memory and experience as he captivantly describes "the contract" so many of us sign. A tacit agreement to don the cloak of cultural invisibility in exchange for the basement keys to the palace." - Dr. Joy A. DeGruy, author of Post Traumatic Slave Syndrome Written to speak for those who've been without a voice throughout their professional career, Plantation Theory: The Black Professional's Struggle Between Freedom & Security showcases the realities that countless Black corporate professionals face despite best efforts to prove their worthiness of opportunity. It challenges the status quo and urges future generations of Black excellence to recognize how much power they wield and evaluate closely the benefits and the detractors of choosing to work in Corporate America. From cover to cover, Black professionals are faced with an urgent question-why work twice as hard for half the recognition and a third of the pay? Filled with transparent and often shocking firsthand accounts, Plantation Theory also serves as a veil remover for those in positions of privilege and power as they embark on a journey of abolition rather than allyship. For individuals and corporations, it demands a commitment to end participation in the behaviors perpetuating inequitable environments. Graham pointedly places the accountability squarely on the shoulders of those most responsible and asks will marketing to Black and diverse talent match the reality of the daily lived experience they will soon call reality as employees? Or will these entities engage in adequate self-examination, heartfelt contemplation, and reflective discussions to do the hard work of no longer being a sideline participant in the marathon of inequity. For Black professionals, the vision for the future will require a confrontation with the notion of freedom versus security. For companies and individuals in privileged positions of power, performative measures and diversity theater are no longer enough. Graham's Plantation Theory reminds us that historical approaches are no longer viable pathways to what must become. It's no longer a matter of capability, but of willingness. There is much work to be done for the willing. Kimani Cannon knows she's in trouble the second she lays eyes on 6'4" of luscious male. The best kind of trouble, too...mm-mmm! This story has to do with the final Will of a man named Mornington, who, in the year 1900, left behind the sum of \$400 million francs. Of that, three fourths went to his adopted country which left \$100 million francs to be distributed to his heirs. The executor of the estate was Mornington's friend, Don Luis Perenna (AKA Clotaire Chantal ). The problem, however, was that no one knew where (or even who) some of the heirs were. If no heirs were to be found within 3 months, the entire \$100 million francs would go to Perenna. And Perenna/Chantal had a reputation as being something of a rogue. It is definitely a race against time, as the heirs seem to be turning up dead at an alarming rate.
