This is a book of 40 short, powerful, practical, proven spells for WEALTH CREATION. Not included here is fluff, hype, gimmicks or platitudes, nor is anything here unnecessarily complicated, or hard to understand or difficult to implement. The spells within are quite simply alchemy of the soul. As the introduction of the book states, these spells are not directed at outer effects. This magick is simple, born of necessity... my own burning desire to unleash myself from the shackles of lack and limitation that seemed to haunt me at every turn, even when I had money. In this 40-Day process, we only spell SELF. We do not spell outer conditions. There is no need to spell outer conditions. Outer conditions have no power. This magick acknowledges that all the power to effect change in your world is INSIDE YOU. This magick takes an 'inside-out' approach, rather than the forms of magick that cast spells on other people or on anything outside of self. If you change, all else will change. That's the heart and soul of this magick: SELF TRANSFORMATION. ALCHEMY OF THE SOUL.

We are all using dangerous, outdated, old economic strategies to protect and grow our money in the so-called 'new economy.' Most of us don't even know it. Every economy is, in some sense, 'new.' However, applying the rules from an 'older' economy to a 'newer' one during times of transition is a recipe for financial ruin. Economic transitions have been around for centuries . . . the difference is that now they are worldwide in scope and affect everything rather than local in nature with limited affects. While you sleep at night, while you go to work each day, something insidious is actually stealing your financial future. It isn't anyone's fault really. There is a massive reallocation of wealth as we transition into the new economy. There are two sides to this story. Because of the changing rules of money, the greatest transfer of wealth in the nation and the world is now unfolding. Money is about to flow away from the financially uninformed and flow towards the financially well-informed in the years ahead. This is nothing new, really. Money has always worked this way. The good news is that average members of the public now have more ways than ever before to understand this process and to take appropriate action. Whenever governments start to dilute their money investors transfer their money into gold. Gold has intrinsic value and will always prevail in any economy. What most non-investors and investors -- including yourself -- probably you don't realize is that although gold is a great way to preserve your wealth, it's silver that could actually make you rich! The price of gold has already risen dramatically, but silver is just beginning its climb. Nine Reasons Why Silver is a Unique Wealth Building Instrument - Silver, like gold, has intrinsic value- Silver has been in a commodity bull cycle since 2000- Silver is a safe hedge against currency inflation- Silver is a security choice during times of financial crisis- Silver is rarer than gold- Silver is used in 90% of all electronics -- and its mostly non-renewable- Silver inventories are very low- Silver leasing -- the scam will be exposed soon- Silver investment markets are expanding thanks to the Chinese What You Will Learn From Building Wealth with Silver You will discover why the Federal Reserve was created and why you and I have been kept in the dark about its true purpose. You will find out why the U.S. dollar is quietly being destroyed without fanfare and the reason this process is being publically denied and covered up. You will see why unemployment numbers, along with many other economic figures, are rigged, and how we're being lied to about their true significance. The insights you get from the first few chapters alone can change your life. Even if you were to study at Harvard for five years -- which would cost you, by the way, over \$95,000 -- you would not have the knowledge you need to get any closer to this kind of insider information. Learn why silver is the best investment opportunity right now. Get the facts on silver production and consumption, and all the details behind silver's projected five- to eight-fold increase over the next several months.

This is the 'erotica' version of a wealth-consciousness book. Wealth building is a serious topic. Most people would like to improve their wealth-building skill set. To that end, I'm using an analogy EVERYONE can relate to - let's be honest...Using the analogy of self-pleasure makes the point the "path to prosperity" is totally a "personal" path. This is not intended to teach people to pleasure themselves instead of go to work or anything silly like that - so relax. It's a tongue-in-cheek (or a tongue-in-somewhere) look at something we all naturally do. If the topic offends you, please don't read any farther. If you decide to keep reading, you won't be able to 'un-read' some of the really strikingly memorable descriptions, quotes or mental pictures you're going to read in this book. All the same, I sincerely hope that I can help the others by giving them an interesting, new and humorous way to look at wealth consciousness; a way that they can keep thinking about - pleasantly several times a day.
