

A Dictionary Of Law Oxford Dictionary Of Law Oxford Paperback Reference

From Ambition to Youth, Health and Fitness to Technology, this little dictionary is packed full of more than 4,000 quotations on over 250 subjects. Arranged by theme and with an author index, this new edition contains simply the best quotations from three millennia. Fascinating and entertaining, it is guaranteed to amuse and delight. On Imagination 'I'm up to my neck in the real world, every day. Just you try doing your VAT return with a head full of goblins.' Terry Pratchett On the Twentieth Century 'The light may be fading on the 20th century, but the sun is still rising on America.' Bill Clinton The practice of law rests heavily on the incisive, pithy, and occasionally witty language of the best technical writing, and law-related themes are often found at the core of works of literature, politics, and other fields. Previous compilations of legal quotations have been limited, with significant gaps; many quoting rarely from American sources. The Oxford Dictionary of American Legal Quotations is the most scholarly and most complete legal quotation reference ever published. It includes a comprehensive collection of the most famous passages of American judges and legal commentators. This world also contains the wittiest sayings from literature, humor, motion pictures, and even song lyrics relating to American law. Over 3,000 entries are presented in a subject arrangement. Each quote has been verified from the original sources. Includes an author index and a key word index. An indispensable resource for anyone interested in the American legal system or in the vital legacy of the American constitution.

A comprehensive guide to legal style and usage, with practical advice on how to write clear, jargon-free legal prose. Includes style tips as well as definitions.

This dictionary covers all aspects of finance and banking, from personal investments to international trading.

Natural disasters and cholera outbreaks. Ebola, SARS, and concerns over pandemic flu. HIV and AIDS. E. coli outbreaks from contaminated produce and fast foods. Threats of bioterrorism. Contamination of compounded drugs. Vaccination refusals and outbreaks of preventable diseases. These are just some of the headlines from the last 30-plus years highlighting the essential roles and responsibilities of public health, all of which come with ethical issues and the responsibilities they create. Public health has achieved extraordinary successes. And yet these successes also bring with them ethical tension. Not all public health successes are equally distributed in the population; extraordinary health disparities between rich and poor still exist. The most successful public health programs sometimes rely on policies that, while improving public health conditions, also limit individual rights. Public health practitioners and policymakers face these and other questions of ethics routinely in their work, and they must navigate their sometimes competing responsibilities to the health of the public with other important societal values such as privacy, autonomy, and prevailing

cultural norms. This Oxford Handbook provides a sweeping and comprehensive review of the current state of public health ethics, addressing these and numerous other questions. Taking account of the wide range of topics under the umbrella of public health and the ethical issues raised by them, this volume is organized into fifteen sections. It begins with two sections that discuss the conceptual foundations, ethical tensions, and ethical frameworks of and for public health and how public health does its work. The thirteen sections that follow examine the application of public health ethics considerations and approaches across a broad range of public health topics. While chapters are organized into topical sections, each chapter is designed to serve as a standalone contribution. The book includes 73 chapters covering many topics from varying perspectives, a recognition of the diversity of the issues that define public health ethics in the U.S. and globally. This Handbook is an authoritative and indispensable guide to the state of public health ethics today. Modern legal theory contains a wide range of approaches and topics: from economic analysis of law to feminist legal theory to traditional analytical legal philosophy to a range of theories about justice. This healthy variety of jurisprudential work has created a problem: students and theorists working in one tradition may have difficulty understanding the concepts and terminology of a different tradition. This book works to make terminology and ways of thinking accessible. This dictionary covers topics from the 'autonomy of law' to the 'will theory of rights', from 'autopoiesis' to 'wealth maximization', and from 'John Austin' to 'Ludwig Wittgenstein'. The most important concepts and ideas are presented in a simple dictionary format. There are also many longer entries, where the initial definition gives an accessible explanation, but the entry goes on to give more detailed information about the history of an idea and the debates currently surrounding it.

The Oxford Dictionary of Late Antiquity is the first comprehensive reference book covering every aspect of history, culture, religion, and life in Europe, the Mediterranean, and the Near East (including the Persian Empire and Central Asia) between the mid-3rd and the mid-8th centuries AD, the era now generally known as Late Antiquity. This period saw the re-establishment of the Roman Empire, its conversion to Christianity and its replacement in the West by Germanic kingdoms, the continuing Roman Empire in the Eastern Mediterranean, the Persian Sassanian Empire, and the rise of Islam. Consisting of over 1.5 million words in more than 5,000 A-Z entries, and written by more than 400 contributors, it is the long-awaited middle volume of a series, bridging a significant period of history between those covered by the acclaimed Oxford Classical Dictionary and The Oxford Dictionary of the Middle Ages. The scope of the Dictionary is broad and multi-disciplinary; across the wide geographical span covered (from Western Europe and the Mediterranean as far as the Near East and Central Asia), it provides succinct and pertinent information on political history, law, and administration; military history; religion and philosophy; education; social and economic history; material culture; art and

architecture; science; literature; and many other areas. Drawing on the latest scholarship, and with a formidable international team of advisers and contributors, The Oxford Dictionary of Late Antiquity aims to establish itself as the essential reference companion to a period that is attracting increasing attention from scholars and students worldwide. The new edition of this bestselling and trusted dictionary has been fully revised to take account of recent developments in nursing practice and related fields. Updates to this edition cover many areas, with a particular focus on radiography, public health and the NHS, theoretical concepts familiar in nursing education, and key vocabulary used in the 2018 Nursing & Midwifery Council (NMC) Standards of Proficiency for Registered Nurses. Written by medical and nursing specialists, and offering more than 10,500 clear and concise entries on nursing theory and practice, the dictionary provides comprehensive coverage of the ever-expanding vocabulary of the nursing professions. As well as nursing-specific terms, there are also many entries in the fields of medicine, anatomy, physiology, ethics, psychiatry, nutrition, dentistry, statistics, and pharmacology. Almost 100 helpful illustrations and tables, and 16 appendices covering the calculation of drug dosages, religion and nursing practice, recommended alcohol intake, and much more, help to make this an essential reference tool for all nursing students and professionals.

This book tells the history of the Oxford English Dictionary from its beginnings in the middle of the nineteenth century to the present. The author, uniquely among historians of the OED, is also a practising lexicographer with nearly thirty years' experience of working on the Dictionary. He has drawn on a wide range of sources-including previously unexamined archival material and eyewitness testimony-to create a detailed history of the project. The book explores the cultural background from which the idea of a comprehensive historical dictionary of English emerged, the lengthy struggles to bring this concept to fruition, and the development of the book from the appearance of the first printed fascicle in 1884 to the launching of the Dictionary as an online database in 2000 and beyond. It also examines the evolution of the lexicographers' working methods, and provides much information about the people-many of them remarkable individuals-who have contributed to the project over the last century and a half.

This new edition of Garner's Dictionary of Legal Usage discusses and analyzes modern legal vocabulary and style more thoroughly than any other contemporary reference work. Since the first edition, Bryan A. Garner has drawn on his unrivaled experience as a legal editor to refine his position on legal usage. The new Third Edition remains indispensable: Garner has updated entries throughout, added hundreds of new entries and thousands of new illustrative quotations from judicial opinions and leading lawbooks, revised the selected bibliography, and expanded and updated cross-references to guide readers quickly and easily. A new preface introduces the reader to this edition and discusses content that has been newly incorporated. Influential writers and editors rely on Garner's Dictionary of Legal Usage daily. It is an essential resource for practicing lawyers, legal scholars, and libraries of all sizes and types, functioning as both a style guide and a law dictionary, guiding writers to distinguish between true terms of law and mere jargon and illustrating recommended forms of expression. Common blunders are discussed in ways that will discourage writers from any further use. The origins of frequently used expressions are described with engaging prose. Collectively, there is no better resource for approaching legal writing in a logical, clear, and error-free way.

professionals needing clear definitions of law enforcement terms.

This authoritative dictionary covers every aspect of personal and international finance. It has been fully revised and updated, particularly with regards to terminology relating to the financial crash of 2008-9. With clear definitions for over 5,200 entries, it is an indispensable guide for anyone involved in finance and banking.

This best-selling dictionary is an authoritative and comprehensive source of jargon-free legal information. It contains over 4,200 entries that clearly define the major terms, concepts, processes, and the organization of the English legal system. This is a reissue with new covers and essential updates to account for recent changes. Highlighted feature entries discuss key topics in detail, for example adoption law, the appeals system, statement of terms of employment, and terrorism acts, and there is a useful Writing and Citation Guide that specifically addresses problems and established conventions for writing legal essays and reports. Now providing more information than ever before, this edition features recommended web links for many entries, which are accessed and kept up to date via the Dictionary of Law companion website. Described by leading university lecturers as 'the best law dictionary' and 'excellent for non-law students as well as law undergraduates', this classic dictionary is an invaluable source of legal reference for professionals, students, and anyone else needing succinct clarification of legal terms. Focusing primarily on English law, it also provides a one-stop source of information for any of the many countries that base their legal system on English law.

A Dictionary of Marketing is an accessible and wide-ranging A-Z, providing over 2,600 entries on topics spanning terms for traditional marketing techniques (from strategy, positioning, segmentation, and branding, to all aspects of marketing planning, research, and analysis), as well as leading marketing theories and concepts. Both classic and modern marketing techniques are covered. Entries reflect modern changes in marketing practice, including the use of digital and multi media, the impact of the world wide web on advertising, and the increased influence of social media, search engine optimization, and global marketing. Also included is a time line of the development of marketing as a discipline and the key events that impacted the development, as well as over 100 relevant web links, accessed and updated via a companion website. In addition, the main appendix provides greater depth on the subject, including advertising and brand case studies with a strong international focus. These are arranged thematically, e.g. automobile industry, food and drink, luxury goods, and focus on iconic brands, marketing campaigns, and slogans of the 20th century that have permeated our collective consciousness, exploring how the ideas defined in the main text of the book have been utilised successfully in practice across the globe. This dictionary is an indispensable resource for students of marketing and related disciplines, as well as a practical guide for professional practitioners.

A Dictionary of Law OUP Oxford

10,000 entries cover vocabulary, etymologies, definitions, concepts, the judicial system, landmark cases, and government agencies

For any reader needing a clear, concise explanation of a subject in law this title is the ideal reference work. Providing greater

depth than legal dictionaries but always accessible to the non-expert, entries in this companion cover all areas of law and legal systems and are extensively cross-referenced for ease of navigation.

This best-selling dictionary is an authoritative and comprehensive source of jargon-free legal information. It contains over 4,700 entries that clearly define the major terms, concepts, processes, and the organization of the English legal system. Entries have been fully updated for this edition to incorporate the latest legislation, including entries on foreign national offenders, Police and Crime Commissioners, corporate manslaughter, and settlement agreements, and there is a useful Writing and Citation Guide that specifically addresses problems and established conventions for writing legal essays and reports. Now providing more information than ever before, this edition features recommended web links for many entries, which are accessed and kept up to date via the Dictionary of Law companion website. Described by leading university lecturers as, "the best law dictionary" and, "excellent for non-law students as well as law undergraduates", this classic dictionary is an invaluable source of legal reference for professionals, students, and anyone else needing succinct clarification of legal terms. Focusing primarily on English law, it also provides a one-stop source of information for any of the many countries that base their legal system on English law.

The Shorter Oxford English Dictionary is a distillation of the twenty-volume Oxford English Dictionary into just two volumes. In this Deluxe Edition, the Shorter Oxford English Dictionary comprises the two-volume printed edition of the book together with the CD-ROM version of the dictionary, giving users maximum access to this unique resource.

This volume provides concise, authoritative accounts of the approaches and methodologies of modern lexicography and of the aims and qualities of its end products. Leading scholars and professional lexicographers, from all over the world and representing all the main traditions and perspectives, assess the state of the art in every aspect of research and practice. The book is divided into four parts, reflecting the main types of lexicography. Part I looks at synchronic dictionaries - those for the general public, monolingual dictionaries for second-language learners, and bilingual dictionaries. Part II and III are devoted to the distinctive methodologies and concerns of historical dictionaries and specialist dictionaries respectively, while chapters in Part IV examine specific topics such as description and prescription; the representation of pronunciation; and the practicalities of dictionary production. The book ends with a chronology of major events in the history of lexicography. It will be a valuable resource for students, scholars, and practitioners in the field.

Rev. ed. of : Encyclopaedic dictionary of international law / general editors, Clive Parry [and others], 1986.

The word is central to both naive and expert theories of language. Yet the definition of 'word' remains problematic. The 42 chapters of this Handbook offer a variety of perspectives on this most basic and elusive of linguistic units.

A Dictionary of Logic expands on Oxford's coverage of the topic in works such as The Oxford Dictionary of Philosophy, The Concise Oxford Dictionary of Mathematics, and A Dictionary of Computer Science. Featuring more than 450 entries primarily concentrating on technical terminology, the history of logic, the foundations of mathematics, and non-classical logic, this dictionary is an essential resource for both undergraduates and postgraduates studying philosophical logic at a high level.

The Oxford English Dictionary is the internationally recognized authority on the evolution of the English language from 1150 to the present day. The Dictionary defines over 500,000 words and traces their usage through 2.5 million illustrative quotations from a wide range of literary and other sources. It is an unsurpassed guide to the meaning, pronunciation, and history of the English language. This new version of the Oxford English Dictionary (Second Edition) on CD-ROM offers unparalleled access to the world's most important reference work for the English language. The text of this version now includes almost 2,000 words and phrases from the OED team's ongoing revision program, as well as the full text of the OED Second Edition, published in 1989, the Oxford English Dictionary Addition Series (Volumes 1-3), published in 1993 and 1997, the Bibliography to the Second Edition, and other ancillary material. Minimum system requirements: PC with 200 MHz Pentium-class processor 32 MB RAM (64 MB recommended) 16-speed CD-ROM drive (32-speed recommended) Windows 95, 98, 98 Se, Me, NT, 2000, XP, or Vista Minimum 1.1 GB hard disk space to run the OED from the CD-ROM and 1.7 GB to install the CD-ROM to the hard disk SVGA monitor: 800 x 600 pixels, 16-bit (64k, high color) setting recommended For help with difficulties with the OED on CD ROM, please visit www.oup.co.uk/ep/cdroms/oed Should you need further assistance, please email US Technical Support at techsupport.us@oup.com.

In this Handbook, distinguished experts in the field of administrative law discuss a wide range of issues from a comparative perspective. The book covers the historical beginnings of comparative administrative law scholarship, and discusses important methodological issues and basic concepts such as administrative power and accountability.

Fully revised and updated, the seventh edition of this popular dictionary is the ideal reference resource for students of chemistry, either at school or at university. With over 5000 entries—over 175 new to this edition—it covers all aspects of chemistry, from physical chemistry to biochemistry. The seventh edition boasts broader coverage in areas such as nuclear magnetic resonance, polymer chemistry, nanotechnology and graphene, and absolute configuration, increasing the dictionary's appeal to students in these fields. New diagrams have been added and existing diagrams updated to illustrate topics that would benefit from a visual aid. There are also biographical entries on key figures, featured entries on major topics such as polymers and crystal defects, and a chronology charting the main discoveries in atomic theory, biochemistry, explosives, and plastics.

Over 6,000 entries cover terms, places, and personalities significant in the study of ancient Greece and Rome.

This book provides a state-of-the-art account of past and current research in the interface between linguistics and law. It outlines the range of legal areas in which linguistics plays an increasing role and describes the tools and approaches used by linguists and lawyers in this vibrant new field. Through a combination of overview chapters, case studies, and theoretical descriptions, the volume addresses areas such as the history and structure of legal language, its meaning and interpretation, multilingualism and language rights, courtroom discourse, forensic identification, intellectual property and linguistics, and legal translation and interpretation. Encyclopaedic in scope, the handbook includes chapters written by experts from every continent who are familiar with linguistic issues that arise in diverse legal systems, including both civil and common law jurisdictions, mixed systems like that

of China, and the emerging law of the European Union.

The Law Student's Dictionary is an invaluable reference work for all law students. The terms have been chosen with the specific needs of the undergraduate student in mind, providing a full insight into legal terminology and ensuring students are familiar with terms they will encounter during their studies. The dictionary includes substantial entries on core student topics which outline the conceptual importance of key areas, to give students an idea of how these terms have been shaped by, and in turn shape, how lawyers think. Some older terms are also included - although they are not used to frame the current law, students will come across these words of historical significance in the course of their studies. The text features cross-referencing of terms and definitions, giving students the opportunity to expand and contextualize their knowledge, and the material is presented in a new two-color page design, which allows for quick and easy navigation.

This bestselling dictionary is an authoritative and comprehensive source of jargon-free legal information. It contains over 4,800 entries that clearly define the major terms, concepts, processes, and the organization of the English legal system. Now in its ninth edition, it has been fully updated to incorporate recent case law and the latest legislation, such as the Modern Slavery Act 2015, the Brexit legislation, and changes in consumer, tax, and family law. Over 100 new entries have been added, including Article 50, Brexit, the Marriage (Same Sex Couples) Act 2013, and intercountry adoption. In addition, there is a useful Writing and Citation Guide that specifically addresses problems and established conventions for writing legal essays and reports. Now providing more information than ever before, this edition features recommended web links for many entries, which are accessed and kept up to date via the Dictionary of Law companion website. Described by leading university lecturers as 'the best law dictionary' and 'excellent for non-law students as well as law undergraduates', this classic dictionary is an invaluable source of legal reference for professionals, students, and anyone else needing succinct clarification of legal terms. Focusing primarily on English law, it also provides a one-stop source of information for any of the many countries that base their legal system on English law.

The Oxford Handbook of Criminal Law reflects the continued transformation of criminal law into a global discipline, providing scholars with a comprehensive international resource, a common point of entry into cutting edge contemporary research and a snapshot of the state and scope of the field. To this end, the Handbook takes a broad approach to its subject matter, disciplinarily, geographically, and systematically. Its contributors include current and future research leaders representing a variety of legal systems, methodologies, areas of expertise, and research agendas. The Handbook is divided into four parts: Approaches & Methods (I), Systems & Methods (II), Aspects & Issues (III), and Contexts & Comparisons (IV). Part I includes essays exploring various methodological approaches to criminal law (such as criminology, feminist studies, and history). Part II provides an overview of systems or models of criminal law, laying the foundation for further inquiry into specific conceptions of criminal law as well as for comparative analysis (such as Islamic, Marxist, and military law). Part III covers the three aspects of the penal process: the definition of norms and principles of liability (substantive criminal law), along with a less detailed treatment of the imposition of norms (criminal procedure) and the infliction of sanctions (prison or corrections law). Contributors consider the basic topics

traditionally addressed in scholarship on the general and special parts of the substantive criminal law (such as jurisdiction, mens rea, justifications, and excuses). Part IV places criminal law in context, both domestically and transnationally, by exploring the contrasts between criminal law and other species of law and state power and by investigating criminal law's place in the projects of comparative law, transnational, and international law.
