Little is known of Dutch author MARINUS WILLEM DE VISSER (1876-1930) beyond his academic life as a classicist with an interest in Chinese and Japanese language and culture, and as a popularizer of Japanese art in the Netherlands.

He is best remembered today for having given us a cornerstone examination of the legends of fantastic flying reptiles known as dragons. The Dragon in China and Japan contains "the most interesting quotations concerning the dragon in China, systematically arranged, selected from the enormous number of passages on this fantastic animal in Chinese literature, from the remotest eras down to modern times," notes cryptozoologist Loren Coleman in his new introduction. Coleman also praises the book's use of primary source material. "If cryptozoologists are to study the Asian dragons of India, China, and Japan, it must not be done through the screen of today's New Age mentality. Scholarly, level-headed examinations of living, breathing reports of serpentine flying beasts, water-borne megafauna, and shadowy entities must be balanced with investigations of the legends and folktales of these dragons from Asian texts," such as de Visser's here. This new edition, a replica of the 1913 first edition complete with extensive notes in the original Asian alphabet, is part of Cosimo's Loren Coleman Presents series. LOREN COLEMAN is author of numerous books of cryptozoology, including Bigfoot!: The True Story of Apes in America and Mothman and Other Curious Encounters.
