

A False Report The Chilling True Story Of The Woman Nobody Believed

Kara Thomas meets Twin Peaks in this supernatural thriller about one girl's hunt for the truth about her mother's disappearance. In 1973, the thirty-one residents of Bitter Rock disappeared. In 2003, so did my mother. Now, I've come to Bitter Rock to find out what happened to her--and to me. Because Bitter Rock has many ghosts. And I might be one of them. Sophia's earliest memory is of drowning. She remembers the darkness of the water and the briny taste as it filled her throat, the sensation of going under. She remembers hands pulling her back to safety, but that memory is impossible--she's never been to the ocean. But then Sophia gets a mysterious call about an island names Bitter Rock, and learns that she and her mother were there fifteen years ago--and her mother never returned. The hunt for answers lures her to Bitter Rock, but the more she uncovers, the clearer it is that her mother is just one in a chain of disappearances. People have been vanishing from Bitter Rock for decades, leaving only their ghostly echoes behind. Sophia is the only one who can break the cycle--or risk becoming nothing more than another echo haunting the island.

"Although the world's climate has undergone many cyclical changes, the phrase 'climate change' has taken on a sinister meaning, implying catastrophe for humanity, ecology and the environment. We are told that we are responsible for this threat, and that we should act immediately to prevent it. But the apparent scientific consensus over the causes and effects of climate change is not what it appears. *Chill* is a critical survey of the subject by a committed environmentalist and scientist. Based on extensive research, it reveals a disturbing collusion of interests responsible for creating a distorted understanding of changes in global climate. Scientific institutions, basing their work on critically flawed computer simulations and models, have gained influence and funding. In return they have allowed themselves to be directed by the needs of politicians and lobbyists for simple answers, slogans and targets. The resulting policy - a 60 percent reduction of greenhouse-gas emissions by 2050 - would have a huge, almost unimaginable, impact upon landscape, community and biodiversity. On the basis of his studies of satellite data, cloud cover, ocean and solar cycles, Peter Taylor concludes that the main driver of recent global warming has been an unprecedented combination of natural events. His investigations indicate that the current threat facing humanity is a period of cooling, as the cycle turns, comparable in severity to the Little Ice Age of 1400-1700 AD. The risks of such cooling are potentially greater than global warming and on a more immediate time scale, with the possibility of failing harvests leaving hundreds of millions vulnerable to famine. Drawing on his experience of energy policy and sustainability, Taylor suggests practical steps that should be taken now. He urges a shift away from mistaken policies that attempt to avert inevitable natural changes, to an adaptation to a climate that may turn signi."--Publisher's website.

From the NPR host of *The Indicator* and correspondent for *Planet Money* comes an “accessible, funny, clear-eyed, and practical” (Sarah Knight, *New York Times* bestselling author) guide for how women can apply the principles of 16th-century philosopher Niccolò Machiavelli to their work lives and finally shatter the glass ceiling—perfect for fans of *Feminist Fight Club*, *Lean In*, and *Nice Girls Don’t Get the Corner Office*. Women have been making strides towards equality for decades, or so we’re often told. They’ve been increasingly entering male-dominated areas of the workforce and consistently surpassing their male peers in grades, university attendance, and degrees. They’ve recently stormed the political arena with a vengeance. But despite all of this, the payoff is—quite literally—not there: the gender pay gap has held steady at about 20% since 2000. And the number of female CEOs for *Fortune* 500 companies has actually been declining. So why, in the age of #MeToo and #TimesUp, is the glass ceiling still holding strong? And how can we shatter it for once and for all? Stacy Vanek Smith’s advice: ask Machiavelli “with this delicious look at what we have to gain by examining our relationship to power” (Sally Helgesen, *New York Times* bestselling author). Using *The Prince* as a guide and with charm and wit, Smith applies Renaissance politics to the 21st century, and demonstrates how women can take and maintain power in careers where they have long been cast as second-best. “Machiavelli For Women is the ultimate battle guide for our times. Brimming with hard-boiled strategies, laced with wit, it’s a must read for every woman ready to wield power unapologetically” (Claire Shipman, coauthor of *The Confidence Code*).

It was an easy case to close until two detectives cracked it back open... 'I pretty much read *A False Report* in one sitting. It is deeply disturbing but brilliant. I hope it helps with the seismic shift needed in attitudes to women who are brave enough to come forward when they have been assaulted.' Sandi Toksvig *One of Stylist Magazine's 20 Must-Read Books of 2018* On 11 August 2008, eighteen-year-old Marie reported that a masked man had broken into her home and raped her. Within days, police - and even those closest to Marie - became suspicious of her story- details of the crime just didn't seem plausible. Confronted with the seeming inconsistencies, Marie broke down and said her story was a fabrication - a bid for attention. The police convicted her of making a false report. She was vilified as a liar. More than two years later, some 1,600 kilometres away, detective Stacy Galbraith was assigned to a case of sexual assault. It bore an eerie resemblance to a rape that had taken place months earlier in a nearby town. Galbraith contacted the detective on that case, Edna Hendershot, and they joined forces. Galbraith and Hendershot soon realised they were dealing with a serial rapist- a man who took calculated steps to erase all physical evidence, who photographed each of his victims, threatening to release the images online if the women went to the police. After weeks of meticulous investigation, they had a name. But they also had yet another victim - a young woman whose identity was a mystery, a possible missing link. It was imperative they find her. Based on investigative files and extensive interviews with those involved, *A False Report* is a serpentine tale of doubt, lies and a hunt for justice. It unveils the disturbing reality of how sexual assault is investigated and the long history of scepticism towards its victims. But it is also the story of two women whose determined resolve and detective brilliance finally brought the truth to light.

Religious wars, global terrorism, pandemics, and genocide have all helped to usher in the Anxiety Age. Who better to lead the way out than popular psychic Sylvia Browne? In *End of Days*, Browne tackles the most daunting of subjects with her trademark clarity, wisdom, and serenity, answering such difficult questions as: What's coming in the next fifty years? What do the great prophecies of Nostradamus and the Book of Revelation mean? If the world is really going to end, what will unfold in our final hours? For anyone who's ever wondered where we're headed, and what—if anything—we can do to prevent a catastrophe of biblical proportions, *End of Days* is a riveting and insightful must-read.

As a Black British man I believe it is vital that I tell this story. What was it that caused this breakdown and how did David recover to become a successful and critically acclaimed actor? How did his experiences growing up Black and British contribute to a rupture in his sense of his place in the world? The pandemic of our lifetime, the era of Covid-19, was a time of mystery, death, and fear as never before seen. It revealed the nurse's face imprinted red as she cried behind her mask and the EMT loading soon-to-be-dead onto the ambulance. Amidst the Food Bank's love and sustenance was news of Captain Crozier's termination, fired for trying to save his men from Covid's annihilation. Even Governor Cuomo acted as the surrogate president as New Yorkers clapped from their windows to thank first responders for their magic, and people stayed home, always to celebrate alone. It was just the time when nothing made sense and everything reeked of false pretense. It was a time when working for gratuity changed to delivery, when jobs were all gone and bills piled overwhelmingly high! Stocks plummeted radically. Another Depression was nigh. Drugs became the crutch for each hour, and abuse of all sorts ruled rampant with power. There is no escape when one's quarantined; children learned a way of life not meant to be. Nursing homes hid the dead bodies of their residents, while all people of color died disproportionately. The meat-packers were forced to work against their own will; Native Americans once again, by a virus, were killed. The homeless had to endure even more suffering, but for the first time, from Coronavirus, our air became clean. George Floyd started his own pandemic for the BLACK LIVES MATTER task as the president gassed peaceful protestors to clear a path, never wearing a mask, his followers to never dare ask. The virus continued to baffle and control as Americans writhed from its pain. The world had changed. All had changed. Yet graduates, though masked, pretended all was the same. Wearing masks, they flung hats up with glee, while uncaring asymptomatics spread the virus epidemically. Monuments of hate and slavery came toppling down, and the sound of protest continued to erupt. A child's birthday was celebrated by her black daddy being gunned down, where he only awkwardly slept. The bounty of our soldiers rages with this virus today. It is no surprise that innocent children are being caged. "Live and let die" dictated the day that we all blindly march in Corona's parade. *Viral Spiral* is a book that details the various dramatic aspects of the coronavirus pandemic and the Black Lives Matter movement. Each poem is accompanied by real-life photos of Covid-19 and Black Lives Matter content. The marriage of these photos with each jaw-dropping poem will overwhelm the reader.

Acquaintance rape is a crime like no other. Unlike burglary or embezzlement or any other felony, the victim often comes under more suspicion than the alleged perpetrator. This is especially true if the victim is sexually active, if she had been drinking prior to the assault--and if the man she accuses plays on a popular sports team. For a woman in this situation, the pain of being forced into sex against her will is only the beginning of her ordeal. If she decides to go to the police, undertrained officers sometimes ask if she has a boyfriend, implying that she is covering up infidelity. She is told rape is extremely difficult to prove and repeatedly asked if she really wants to press charges. If she does want to charge

her assailant, district attorneys frequently refuse to prosecute. If the assailant is indicted, even though a victim's name is supposed to be kept confidential, rumors start in the community and on social media, labeling her a slut, unbalanced, an attention-seeker. The vanishingly small but highly publicized incidents of false accusations are used to dismiss her claims in the press. If the case goes to trial, the woman's entire personal life often becomes fair game for the defense attorneys. This brutal reality goes a long way toward explaining why acquaintance rape is the most underreported crime in America. In addition to physical trauma, its victims often suffer devastating psychological damage that leads to feelings of shame, emotional paralysis, and stigmatization. In *Missoula*, Krakauer chronicles the experiences of several women in Missoula--the nights when they were raped, their fear and self-doubt in the aftermath; the way they were treated by the police, prosecutors, defense attorneys; the public vilification and private anguish; their bravery in pushing forward and what it cost them.
