How Judaism and food are intertwined Judaism is a religion that is enthusiastic about food. Jewish holidays are inevitably celebrated through eating particular foods, or around fasting and then eating particular foods. Through fasting, feasting, dining, and noshing, food infuses the rich traditions of Judaism into daily life. What do the complicated laws of kosher food mean to Jews? How does food in Jewish bellies shape the hearts and minds of Jews? What does the Jewish relationship with food teach us about Christianity, Islam, and religion itself? Can food shape the future of Judaism? Feasting and Fasting explores questions like these to offer an expansive look at how Judaism and food have been intertwined, both historically and today. It also grapples with the charged ethical debates about how food choices reflect competing Jewish values about community, animals, the natural world and the very meaning of being human. Encompassing historical, ethnographic, and theoretical viewpoints, and including contributions dedicated to the religious dimensions of foods including garlic, Crisco, peanut oil, and wine, the volume advances the state of both Jewish studies and religious studies scholarship on food. Bookended with a foreword by the Jewish historian Hasia Diner and an epilogue by the novelist and food activist Jonathan Safran

Readers of Stanley Crawford's first book on farming, *A Garlic Testament*, can look forward to an update on his farming practices and reflections on the natural world in *THE GARLIC PAPERS: A Small Garlic Farm in the Age of Global Vampires* . In the fall of 2014, Crawford questioned the U.S. Department of Commerce's granting of an exemption of duties to the largest importer of Chinese garlic, setting off a massive legal battle in which his small farm has been pitted against the Chinese importer and its several international law firms. An account of this David and Goliath battle, now in its fifth year, makes up the core of the book, in which Crawford describes his personal and farming life under a cloud of lawsuits and administrative skirmishes. The unusual case was of sufficient interest that it became the subject of a Netflix documentary, *Garlic Breath*," in the

From "Putting Things Away" to "The Marriage Almanac" (not to mention the pedantic "Index," in itself a comic wonder), Stanley Crawford gives the married, the unmarried, and the formerly married a classic satire on all the sanctimonious marriage manuals ever produced. Starting with the complete title, *Some Instructions to My Wife Concerning the Upkeep of the House and Marriage, and to My Son and Daughter Concerning the Conduct of Their Childhood*, a boorish narrator sets down some seventy-three pieces of advice to his wife, young son, and two-year-old daughter, intended to foster and maintain domestic tranquility in an age of anxiety. Taken literally, our neo-Victorian head of the house is a male chauvinist pig of sorts, but what reader would deny that the sources of Crawford's satire run deep in the American grain?

The narrative begins with the earliest known use of garlic in cooking in Ontario, its history, cultivation, and the role of immigrants in its original relegation and in popularizing the plant. The agriculture story of garlic starts with its early uses and continues today, with dedicated local farmers who have reasons and stories behind their commitment to garlic. Local farmers and chefs will contribute their tasting notes and weigh in on local varieties. Intimacy is the story of an unnamed narrator ruminating on suicide. He reflects on the origins and significance of his material possessions, and on the seemingly

inconsequential moments in his life, while he prepares to carry out his plans. In this melancholy novel about a man on the brink of suicide, Stanley Crawford allows readers to question what it really means to be close to a person. Intimacy follows an unnamed narrator planning his own death. His preparations become a trigger and occasion for him to revisit key moments in his life and his material possessions, which are the solid artifacts from his life's journey. As sparrows in flight might form a single arrow, the life of the narrator comes into focus as a collage of fleeting events and images. Readers gain insights into tiny moments that slowly build into a picture of a man who seems to have very little, aside from material possessions, to lose. The narrative pulls the reader along a trail of digressions—about running shoes, about the symbolism of rings—that lead down a proverbial rabbit hole until we realize the narrator's intentions. Despite our lack of concrete knowledge about the narrator's life, he allows us to share his thought processes: how every thought leads to the next, how memories seep upward when he picks up a particular T-shirt, or when he glimpses his car keys. And alongside our growing understanding of the narrator comes a recognition of our own thought processes: how we, like him, relate to our bodies; how we, too, cannot break away from the constant motion of our thoughts. Intimacy is a brief, intense novel charged with the heightened sense of closeness that comes from

Nothing could be more important than the health of our children, and no one is better suited to examine the threats against it than Sandra Steingraber. Once called "a poet with a knife," she blends precise science with lyrical memoir. In *Living Downstream* she spoke as a biologist and cancer survivor; in *Having Faith* she spoke as an ecologist and expectant mother, viewing her own body as a habitat. Now she speaks as the scientist mother of two young children, enjoying and celebrating their lives while searching for ways to protect them--and all children--from the toxic, climate-threatened world they inhabit Each chapter of this engaging and unique book focuses on one inevitable ingredient of childhood--everything from pizza to laundry to homework to the "Big Talk"--and explores the underlying social, political, and ecological forces behind it. Through these everyday moments, Steingraber demonstrates how closely the private, intimate world of parenting connects to the public world of policy-making and how the ongoing environmental crisis is, fundamentally, a crisis of family life.

Looks at the economics, culture, therapeutic benefits, cultivation, taxonomy, composition, and cuisine of garlic.
