This book is the sequel to J.A. Rogers' book: From Superman to Man and is an introduction to the field of African Studies. Also published as From Man to Superman: Dr. John Henrik Clarke vs. Herman Cain, this book documents the history of Africans including real civilizations in Africa that produced elements that act in a similar way to the fictional vibranium and are currently used to fuel smartphones and rocket engines. Ancient African civilizations were so advanced that some of their feats of construction and science have never been matched. For a more detailed description of the book, please look inside the book. Here are 2 reviews by prominent scholars in the field of African Studies and former colleagues of Dr. John Henrik Clarke: "Early in his career, I recognized that Dr. John Henrik Clarke was a brilliant intellectual and unique person. He invited me to join the faculty in the Department of Black and Puerto Rican Studies at Hunter College, CUNY. In this stirring discussion of African global history and politics, Maurice Miles Martinez brings Dr. Clarke alive for a new generation of readers

and shows why his approach is still relevant to the struggle facing Africans and the African Diaspora today. By having Dr. Clarke encounter Herman Cain on a South-to-North bus ride, Martinez academically and metaphorically demonstrates Dr. Clarke's desire to teach everywhere he went and to challenge those in power to outline a genuine economic, political and cultural roadmap for African people." --Tilden Lemelle, Ph.D. and former Professor and Chair of the Department of Black and Puerto Rican Studies at Hunter College, CUNY

***** "As a former colleague and friend of Dr. John Henrik Clarke, I found that Martinez captured his personality, his spirit and his desire to spread knowledge about Africa even to those who may be doubtful. Over the years, I traveled to the African continent with Dr. Clarke. Using more than 200 sources, many of which Dr. Clarke regularly cited in his lectures, Martinez brings forth Dr. Clarke's approach to African History, his gift of persuasion by using irrefutable facts, and his desire to engage with those who did not see his point of view." --Bert Green, Ph.D. Herbert H. Lehman College, CUNY

For most of his life, David Hampton could tell you what he believed about anything, anytime, at the drop of a hat. He prided himself in how well he could parrot what he d been taught about the Christian doctrine. At some point, he decided to trust the experts with matters regarding his spiritual formation and he learned to spout their words as his own. In so doing, he flipped off the switch in his heart. He didn't want to confuse himself with questions. And he certainly didn't want to explore the issues and people that fell outside the grid of what he understood to be truth. I knew what the Christian subculture wanted, writes David, and how to fit into it. I even knew how to make a living giving it what it wanted. I bought in, signed on, drank the Kool-Aid and even ended up working at the stand. Most confounding to me is that I thought I was being authentic and genuine. And maybe at the time that was even true. It all worked beautifully ...

For fans of Eckhart Tolle—a guide to mastering self-awareness through direct experience rather than old presumptions or harmful thought patterns Through decades of martial arts and meditation practice, Peter Ralston discovered a curious and paradoxical fact: that true awareness arises from a state of not-knowing. Even the most sincere investigation of self and spirit, he says, is often sabotaged by our tendency to grab too quickly for answers and ideas as we retreat to the safety of the known. This "Hitchhiker's Guide to Awareness" provides helpful guideposts along an experiential journey for those Western minds predisposed to wandering off to old habits, cherished presumptions, and a stubbornly solid sense of self. With ease and clarity, Ralston teaches readers how to become aware of the background patterns that they are usually too busy, stressed, or distracted to notice. The Book of Not Knowing points out the ways people get stuck in their lives and offers readers a way to make fresh choices about every aspect of their lives—from a place of awareness instead of autopilot.

Pop-up and fold-out illustrations enhance this guide to exploration that discusses the equipment and skills necessary for an explorer in various climes and and describes famous expeditions to the North Pole, Egypt, and Mount Everest.

The God of the universe—the Creator of nitrogen and pine needles, galaxies and E-minor—loves us with a radical, unconditional, self-sacrificing love. And what is our typical response? We go to church, sing songs, and try not to cuss. Whether you've verbalized it yet or not, we all know something's wrong. Does something deep inside your heart long to break free from the status quo? Are you hungry for an authentic faith that addresses the problems of our world with tangible, even radical, solutions? God is calling you to a passionate love relationship with Himself. Because the answer to religious complacency isn't working harder at a list of do's and don'ts—it's falling in love with God. And once you encounter His love, as Francis describes it, you will never be the same. Because when you're wildly in love with someone, it changes everything. The acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation," *All About Love* is a revelation about what causes a polarized society and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The *Utne Reader* declared bell hooks one of the "100 Visionaries Who Can Change Your Life." *All About Love* is a powerful, timely affirmation of just how profoundly her revelations can change hearts

and minds for the better.

Many of us absorbed the rules for being male or female from our families and the culture in which we grew to adulthood. We formed beliefs about a man's role and a woman's role based on what we observed and experienced; mostly, those beliefs had to do with what men and woman did rather than who they were. Our ideas about what constitutes "masculine" and "feminine", by now outdated and inadequate, have led to a precarious imbalance both in our inner lives and in our external lives of relating to men and women. The result? A gender war. In *Joining Forces*, Jeanie Miley explains that our deeply ingrained gender expectations have created an imbalance in our emotional and spiritual lives and have kept us from becoming our most authentic selves. *Joining Forces* will help readers discover the masculine and feminine characteristics that connect, unite, and restore us—traits that men and women alike can and do express. By joining our masculine and feminine strengths, we restore our own souls, our creative energies, and our own true, essential natures.

past assuming that a diamond grown in a lab is a fake? What happens when a forged painting or manuscript becomes more valuable than its original? This is a book about genuine fakes – the curious and complex objects that provoke these very sorts of questions. Genuine fakes fall into the space between things that are real and things that are not; whether or not we think that those things are authentic is a matter of perspective. Unsurprisingly, the world is full of genuine fakes – full of things that defy simple categorisation. From stories of audacious forgeries to feats of technological innovation, historian Lydia Pyne explores how the authenticity of eight genuine fakes depends on their unique combinations of history, science and culture. The stories of art forgeries, fake fossils, nature documentaries, synthetic flavours, museum exhibits, Maya codices and Palaeolithic replicas show that genuine fakes are both complicated and change over time. Drawing from historical archives, interviews, museum exhibits and science fiction as well as her own research, Pyne brings each genuine fake to life through unexpected and often outrageous stories. *Genuine Fakes* will make readers think about all the unreal things they encounter in their daily lives, and why they invoke the reactions – surprise, wonder, understanding or annoyance – that they do.
