

## A Gift Of Prophecy Jensen

While on vacation, Emily Windsnap finds herself swept up in an ancient prophecy as the New York Times best-selling series continues. Emily is headed to a tropical island for a relaxing vacation with friends and family. And this time, Emily promises her best friend, Shona, there will be absolutely no adventure — just plenty of fun. But somehow excitement always seems to find Emily, and before she knows it, she ends up on the other side of a powerful waterfall on a forgotten island no one else can get to. Well, no one that isn't a half-mer like Emily and her boyfriend, Aaron. The people who live on the island believe in a prophecy that foretells how they can be saved from an imminent, devastating earthquake — and this prophecy seems to revolve around Emily and Aaron, as well as a mysterious, mythic giant. Will they be able to find the giant — and fulfill the prophecy — before it's too late?

Reychel thought she was finally free. She was wrong. Everyone saw her gift of prophecy as a blessing, but her gift is uncontrollable. No one alive can teach her to manipulate her unique gift and the answers she needs lie buried within a madman's journals. She's thrust in the midst of a brewing war and the only uniting factor for her people is their belief in the Prophet. Will Reychel learn to control her gift or will she be forced to deliver a false prophecy that could lead her people into a violent, unwinnable war?

A class trip to a beautiful island is overshadowed by a local myth about a mysterious ship that may have ties to the lost city of Atlantis.

Emily Windsnap must travel through time in order to save the people of her hometowns — both human and merfolk — in the exciting ninth book of the New York Times best-selling series. When Emily makes a wish on a magic stone, she gets a glimpse of what the future holds — and it's a disaster! She tries to make things right, but each trip through time takes Emily to a future where things turn out badly for either the humans of Brightport or the merpeople of Shiprock.

Plastic pollutes the ocean, garbage overflows the landfills, and the two towns are no longer getting along. Emily realizes she can't save her hometown and the ocean alone, but with help from her best friends, Shona and Mandy, she'll have to find a way to get humans and merpeople to work together. Will Emily be able to create a better future for everyone, including herself? This new adventure gives readers a glimpse at what Emily and her friends could be like as grown-ups, with a fresh story that explores how uniting communities can make a future that's bright for everyone.

THE #1 BESTSELLING INTERNATIONAL PHENOMENON - NOW WITH A NEW PREFACE You have never read a book like this before--a book that comes along once in a lifetime to change lives forever. In the rain forests of Peru, an ancient manuscript has been discovered. Within its pages are 9 key insights into life itself -- insights each human being is predicted to grasp sequentially; one insight, then another, as we move toward a completely spiritual culture on Earth.

Drawing on ancient wisdom, it tells you how to make connections among the events happening in your life right now and lets you see what is going to happen to you in the years to come. The story it tells is a gripping one of adventure and discovery, but it is also a guidebook that has the power to crystallize your perceptions of why you are where you are in life and to direct your steps with a new energy and optimism as you head into tomorrow. Praise for The Celestine Prophecy "A gripping adventure story filled with intrigue, suspense, and spiritual revelations." - Commonwealth Journal "A spiritual classic...a book to read and reread, to cherish, and to give to friends." - Joan Borysenko, PhD, author of Fire in the Soul "In his inimitable style of great storytelling, Redfield opens us up to a world of insight, inspiration, synchronicity, and power." - Deepak Chopra

The challenge, write a book that redefines the plight of the world and makes the impossible possible. Justin Wolfe with the cast of characters from 'Optimizing America' and 'Showdown in the Economy of Good and Evil', attempt to write the infamous book, 'The Big Solution'. In this third installment of 'The Wolfe Trilogy', Justin and his crew have to overcome academia's fake science, polarized political beliefs, an entrenched financial system and the assertion that growth is progress. To make things appealing and interesting, the heroes don't just put together a bunch of footnotes, charts and economic papers, they set out to solve the problems of the world in simple language using anecdotes and analogies that anyone can understand. Justin, Evan, Connie and Laz, all take turns making their unique point of view known, debating the pros and cons; all while bringing their colorful personalities into the mix, creating a hilarious atmosphere, while delivering a big solution. Is the world really doomed? What is this doomsday machine? Many people are asking 'if this is the apocalypse, how come you can get Starbucks?'. Ask yourself, 'Am I indentured to an unreasonable amount of work in my lifetime.' Is modern living any better than Sisyphus's in hell? Does your work amounting to anything? Does it amount to a better world that will be here for generations, even eternity. The answer is that humanity is failing itself there are just too many things going wrong even on an individual level. America's fight for its individual freedoms was lost long ago. Freedom wasn't on the ticket of either party in the 2020 election. American's just don't realize they are not free, somehow freedom to speak while your forced to work your whole life, still registers as American freedom. American's are living up to their eyeballs in debt but the politicians don't seem to think that's a problem. The few that manage to not use debt are forced to deal with the unbearable cost of living which forces everyone to work their entire lives regardless of their personal debt. America used to be great built on principles of personal freedom, rugged individualism, and self-sufficiency, no country has ever accumulated more power and wealth, abused it less, or used that power more to advance the human condition. However, over the last fifty years the freedoms guaranteed by the constitution have been usurped by personal, corporate and government debt. And debt is an obligation that has to be paid back, this is the definition of indentured servitude,

which is specifically listed, along with slavery, in the constitution. The fate of humanity has become tied to America. America created the modern world and the baggage that came with it and now America is unable to do anything about it. Ronald Reagan once said, "Freedom is but one generation away from extinction," but now humanity itself is one generation away from extinction. Humanity is closer to extinction than ever before in history and we need to stop playing games. This is where The Big Solution (TBS) delivers hope. Let the writing of Justin Wolfe save the day. "Our world is remarkably automated. Resources remain in abundant supply. Life should be so simple. So prosperous. And yet the vast majority of people still aren't making a decent living. America's promise of equal opportunity, a sustainable future and liberty for all has become a distant memory. But I, Justin Wolfe, have a plan to finally change the dynamics that have been holding this country and the world back. Imagine a simple idea that could change the world forever. An idea that will deliver us from this economic train-wreck and prevent further hardships from falling on the shoulders of future generations. Shouldn't we get started?" --Justin Wolfe

Nothing has captured the imagination and conjecture of the people more than that of the Apocalypse, as this is found in all the holy books of the world. The Christians are awaiting the advent of the Antichrist and the Beast which is to precede the return of Jesus Christ and Armageddon. Here, for the first time, Dr. Leland Jensen brings to life the amazing visions of Jeane Dixon, adding an entire New Dimension to this subject and revealing the fulfillment Jeane's most outstanding vision: "THE CHILD OF THE EAST." In A Gift of Prophecy it states: "Visions which come to Mrs. Dixon are unchangeable, because they represent the will of God. The coming event cannot, consequently, be prevented" (p. 155). Therefore, the reading public is waiting for the fulfillment of these visions. In this book, for the first time, "THE CHILD OF THE EAST" has been definitely identified. Jeane states that: "The world as we know it will be reshaped and revamped into one without wars or suffering... he will bring together all mankind in one all-embracing faith. This will be the foundation of a new Christianity, with every sect and creed united through this man who will walk among the people to spread the wisdom of the Almighty Power" (A Gift of Prophecy, pp. 171, 172). This book represents not only his amazing credentials, but gives his interpretations of some of Jeane's other visions such as the Snake and her two visions that she had in St. Matthew's Cathedral. Also by using Jeane Dixon's Criteria, he definitely identifies the Antichrist and slays him with the sword of his mouth. He also exposes the Beast and Dragon prophesied to come in the Book of Revelation. This is all backed up by the most realistic and accurate proofs. The Bible and the Great Pyramid come alive and become clear as crystal. This will excite the reader to new horizons, especially what "THE CHILD OF THE EAST." has to say of what is to take place next! He will become the most talked about person in the world and what he has to say will be of the most discussed subjects. It will be a common conversational piece. Everyone will get in on the

act; no one will be able to remain neutral. Everyone will take sides, either for or against. As the events that "THE CHILD OF THE EAST" has predicted take place just exactly as he stated, ultimately everyone in the world will become a believer; there will be mass conversion."Attempting to describe her own sensation, Jeane says: "I felt suspended and enfolded, as if I were surrounded by whipped cream. For the first time I understood the full meaning of the Biblical phrase, 'My cup runneth over.' I loved all mankind. I felt that I would never again need food or sleep, because I had experienced perfect peace" (A Gift of Prophecy, p. 172).It will be just like Jeane said. Read this book and find out for yourself.

Twenty-two year old Shawn McMaster hasn't been seen since the last time he played baseball four years ago. But when a chance meeting with Quail Township's eccentric lures him out of hiding, he learns how much he's missed, and the shocking truth of how little time he has to save his family's --- and his hometown's --- way of life.In his debut novel, John Lindholm investigates and reflects upon love, loss, and the clash between contemporary, suburban living and simple, small-town life. Oh, and baseball...While football may have taken over as America's national pastime, in some parts of the country, baseball still reigns supreme. Lindholm's fictional hamlet of Quail is no exception. Readers of "Last of the Third" will experience the game from both from the front row as a fan and also from inside the head of the player. Like the participants in the Milwaukee Brewers' Sausage Race, the story arcs in "Last of the Third" charge to their conclusions with all the twists and turns of Game 7 of a playoff series. On their sixteenth birthday, twins, Nick Jensen and Terry Warrington, each receive one last gift from their dead mother. Sixteen years earlier on the night she was murdered, she had two items in her possession, a bracelet engraved with twenty-three random, unevenly spaced Minoan letters and a ring with five symbols representing the elements of Water, Wind, Fire, Earth and Aether, the one Element impervious to all others. Terry, who possesses all four Elements, appears to be the One spoken of in the 8th Mayan Prophecy. Due to Nick's influence, however, he rejects Alastor Thanatos' offer to serve as his mentor. But does his choice have repercussions, not only for his brother, but for the rest of the clan as well? Nick has lost all of his powers and is helpless to do anything when Terry's old posse is sent to attack him. He ends up badly burned and near death. In order to save him, the Clan returns to Greece to enlist the aid of Ligeia, Thanatos' Minoan translator. When they are caught, they lose the precious time they need to save Nick. Only after Terry consents to allow Thanatos to mentor him are they allowed to leave. But is it too late?As the teens solve the mystery of the bracelet and ring, strange events begin to occur. Clues left by the twins' mother lead them back to the sacred Mayan temple at Cholula near Puebla, Mexico. There they find still more cryptic messages that they will need to unravel before their final show down with the person who possesses Aether.Thanatos and the Inner Sanctum are determined to break the influence the Clan has on Terry, even if it means eliminating them. But unbeknownst to the World Council

leader, Terry has kept secrets from him, as well as, from members of the Clan. The key questions are on which side will Terry choose to fight, and which person close to the twins will commit the ultimate betrayal predicted in the final Mayan prophecy?

The book begins with familiar designs found all around and inside us (such as the 'trees' of river basins, human lungs, blood and city traffic). It then shows how all flow systems are driven by power from natural engines everywhere, and how they are endlessly shaped because of freedom. Finally, Professor Bejan explains how people, like everything else that moves on earth, are driven by power derived from our "engines" that consume fuel and food, and that our movement dissipates the power completely and changes constantly for greater access, economies of scale, efficiency, innovation and life. Written for wide audiences of all ages, including readers interested in science, patterns in nature, similarity and non-uniformity, history and the future, and those just interested in having fun with ideas, the book shows how many "design change" concepts acquire a solid scientific footing and how they exist with the evolution of nature, society, technology and science.

Benevolent billionaire Justin Wolfe establishes an autonomous economic experiment on a farm near Savannah, Georgia. The theory: give people the means to advance in life through daily direct deposits and even the formerly homeless can become entrepreneurs who contribute meaningfully to society. Wolfe tasks economics whiz kid Evan White to roll out an advanced economic system that creates a higher standard of living than most citizens in neighboring Savannah enjoy. All this from the entrepreneurial spirit of homeless people bussed in from around the country. The farm gets national attention as a 60 Minutes crew shows up to report on the farm. Tensions rise as Justin clashes with his tech billionaire friend Elliot Larson and Federal Reserve Banker Lloyd Blankfein at a Jekyll Island party. The ensuing bad press puts the farm under increasing pressure by those who do not want it to succeed. "Resources while abundant do not make it to a vast number of people. And for many, the economy is a members-only system they do not get access to. Life is naturally inclusive. All it takes is life. And yet a vast number of people are left out of modern society. America's promise of equal opportunity is a lie for people without money. I am Justin Wolfe and I believe that the economy can take care of the poor, which frees up the government to pay down its debt. This farm will prove that our economy needs to evolve if we are going to transition into a sustainable future."

--Justin Wolfe This is a spellbinding story with remarkable characters: the disheveled potpourri of humanity's lost souls who are America's homeless; the turbulent young technology billionaire; the hapless recluse who runs the janitorial services on the farm; the young and profane farmer's daughter whose cooking brings the farm to life; the uproariously funny Pete Smiley; the devilishly arrogant Elliot Larson; the carefree movie theater entrepreneur; the hard working members of the farm; and Muna, an Ethiopian immigrant who became homeless before turning bread into a business. These and other members of the farm just outside Savannah act as a strange ensemble, with alliances, hostilities, and intrigues that thrive on a farm where anybody can find an opportunity to make their life better.

Historian Markale takes us deep into a mythical world where both man and woman become whole by realizing the feminine principle in its entirety. The author explores the rich heritage of Celtic women in history, myth, and ritual, showing how these traditions compare to modern attitudes toward women.

An internationally recognized scholar highlights the important role the North African church played in the development of Christian thought. This accessible introduction brings Africa back to the center of the study of Christian history by focusing on key figures and events that influenced the history and trajectory of Christianity as a whole. Written and designed for the classroom, the book zeroes in on five turning points to show how North African believers significantly shaped Christian theology, identity, and practice in ways that directly impact the church today.

The New York Times best-selling series continues with the half-mermaid embarking on an icy and perilous journey to the Land of the Midnight Sun. Strange storms are blowing up from the ocean, caused by the nightmares of Neptune, King of the Sea. Convinced that his dreams herald an approaching threat, Neptune enlists half-mermaids Emily Windsnap and Aaron for a top-secret mission to find and eliminate the source of the trouble. But Emily and Aaron quickly get in over their heads in the frigid waters of the frozen north. Deep within an alpine lake where magical reflections show what could be rather than what is, the two discover a trove of stolen memories and Neptune's darkest secret. Double-crosses and double-takes abound in Liz Kessler's fifth magical mermaid adventure.

The Shang Han Lun (On Cold Damage) is among the oldest surviving, the most copiously annotated and the most revered of China's traditional medical texts. Of all of China's early medical classics, the Shang Han Lun is undoubtedly the one with the greatest relevance to the modern practice of Chinese medicine, and the one most deserving of Western attention. It was the first book to attempt to incorporate medicinal therapy into the medicine of systematic correspondences and channels and network vessels. Far ahead of its time in both theory and practice, it is not surprising that the prescriptions it contains comprise an important part of today's medicinal formulary. The debate over the Constitution reached a climax in Virginia during June 1788 as a closely divided Convention vigorously debated the merits of the new frame of government. Virginians, like many other Americans, realized the importance of the Old Dominion in the ratification process. Without Virginia's approval, the Union would be incomplete and divided. This third Virginia volume contains the last two-thirds of the Convention debate, which turned on whether to adopt the Constitution unconditionally with recommended amendments, or to adopt the Constitution conditionally with a list of required amendments. The sources for Virginia's ratification reveal as never before the intricacies of the debate and the preeminence of Virginia to the ratification process. This documentary series is a research tool of remarkable power, an unrivaled reference work for historical and legal scholars, librarians, and students of the Constitution. The volumes are encyclopedic, consisting of manuscript and printed documents-contemporary newspapers, broadsides, and pamphlets-compiled from hundreds of sources, copiously annotated, thoroughly indexed, and often accompanied by microfiche supplements. Pulitzer Prize-winning historian Michael Kammen has noted that The Documentary History of the Ratification of the Constitution series "will be of enduring value centuries hence" and described it as "one of the most interesting documentary publications we have ever had." The American Bar Association Journal has stated, "Each new volume now fills another vital part of the mosaic of national history."

The adventure that began with *The Celestine Prophecy* continues as the action shifts to a wilderness in the American Southeast where the narrator's friend has disappeared.

Emily Windsnap ends up surrounded by pirates — and on a life-changing adventure — in the eighth installment of the New York Times best-selling series. Traveling home by cruise ship should be a relaxing break after Emily's latest adventure, but things take a turn when the ship is overtaken by a pirate king and his crew. After the pirates collect everyone's riches, they steal something even more valuable: Aaron. The pirate king's eldest son takes Aaron captive, forcing him to help guide the pirates to the mythical Trident's Treasure. So Emily dives into action and joins the younger son's crew in hopes of saving Aaron. But while experiencing life on the waves, Emily is surprised to find herself not only enjoying the pirate life, but actually bonding with the crew — especially Sam, the pirate king's son. Between helping Sam unravel riddles to beat his brother to the treasure and making sure that her friends are safe, Emily realizes that she needs to be true to herself. Will she cast aside her mermaid life to join her new friends, or will she find a way to follow her own path?

On December 21, 2012, the Mayan calendar will end. Many see it as an apocalyptic sign. But is it? In *The Twelfth Insight*, the long-awaited fourth book in the beloved Celestine Series, we again follow our Hero and his close friend Wil. They have just received a portion of another ancient and mysterious manuscript that describes a secret approach to spirituality that is silently arriving in the second decade of the 21st Century. But the manuscript is only available in fragments. To understand its full meaning for mankind, our Hero and Wil begin an urgent search to find the message in its entirety. As they embrace the power of Synchronicity and begin their search, they are confronted by powerful political forces and religious extremists that stand in the way of these spiritual revelations. Utilizing what he calls the "parable effect," and based on his own sources, James Redfield explores the similarities and differences that exist among the world religions, revealing the essential messages contained within them that can energize our experience of spirituality-- and produce a new wave of integrity and reform that can transform our lives and our world.

Someone, we know not who, once called *Jadoo* "the greatest book ever written on the black magic of the Orient." But we do know that there will never again be another book like it. *Jadoo*, a Hindi word meaning "Black Magic," captures a world that is now lost to us—the strange, dark, mysterious world that was once called the "Orient." This story of a real-life Indiana Jones of the 1950s named John Keel contains everything but a trip to Venus in a flying saucer--a subject our newsman/explorer would become famous for a decade later. In Egypt, the fearless Keel was cursed by a mummy and befriended members of a strange snake-charming cult. In Iraq, he played Russian roulette with a notorious desert bandit and lived among the Yezidi devil-worshippers. Later, in India, he was

buried alive and discovered the secret of the Indian rope trick, which he then performed for incredulous reporters in New Delhi. And in a riveting finale, he chased the Abominable Snowman through the little known Himalayan kingdom of Sikkim before being unceremoniously booted out of Singapore for being "an undesirable alien."
