Christianity is the world's largest religion, and has had a profound impact on the course of civilization. Introduction to the History of Christianity is a beautifully crafted and clearly written introduction to Christianity over its 2000 year history. The broad underlying theme of the book is the interaction between Christianity and the secular world, exploring how one has shaped and been shaped by the other. The volume does not attempt to cover the whole of Christian history in detail. It focuses on three key chronological periods pivotal in the development of Christianity: Christ and Caesar, Christianity circa 300–500; Expansion and Order, Latin Christendom, circa 1050–1250; and Grace and Authority, Western Christianity, circa 1450–1650, as well as a concluding section on Christianity in the modern world, providing illustrative snapshots of the tradition over the course of its long development. In addition, the volume includes maps, timelines, quotations from primary source material, a glossary, and a further reading section. No staid, laborious introduction to its subject, Introduction to the History of Christianity offers an inviting and informative overview of this rich religious tradition.

Who would have thought that from its humble beginnings as a small group of followers of a Jewish man called Jesus that Christianity would become, less than two thousand years later, the most widespread religion on Earth?

For too long, the history of Christianity has been told as the triumph of orthodox doctrine imposed through power and hierarchy. In A People's History of Christianity, historian and

religion expert Diana Butler Bass reveals an alternate history that includes a deep social ethic and far-reaching inclusivity: "the other side of the story" is not a modern phenomenon, but has always been practiced within the church. Butler Bass persuasively argues that corrective—even subversive—beliefs and practices have always been hallmarks of Christianity and are necessary to nourish communities of faith. In the same spirit as Howard Zinn's groundbreaking work *The People's History of the United States*, Butler Bass's *A People's History of Christianity* brings to life the movements, personalities, and spiritual disciplines that have always informed and ignited Christian worship and social activism. *A People's History of Christianity* authenticates the vital, emerging Christian movements of our time, providing the historical evidence that celebrates these movements as thoroughly Christian and faithful to the mission and message of Jesus.

Describes the first 1,000 years of Christian history, from the early practices and beliefs through the conversion of Constantine as well as documenting its growth to communities in Ethiopia, Armenia, Central Asia, India and China.

For curious readers young and old, a rich and colorful history of religion from humanity's earliest days to our own contentious times. In an era of hardening religious attitudes and explosive religious violence, this book offers a welcome antidote. Richard Holloway retells the entire history of religion—from the dawn of religious belief to the twenty-first century—with deepest respect and a keen commitment to accuracy. Writing for those with faith and those without, and especially for young readers, he encourages curiosity and tolerance, accentuates nuance and mystery, and calmly restores a sense of the value of faith. Ranging far beyond the major world religions of Judaism, Islam, Christianity, Buddhism, and Hinduism, Holloway also examines where religious belief comes from, the search for meaning throughout history, today's fascinations with Scientology and creationism, religiously motivated violence, hostilities between religious people and secularists, and more. Holloway proves an empathic yet discerning guide to the enduring significance of faith and its power from ancient times to our own.

In Harran, the locals refused to convert. They were dismembered, their limbs hung along the town's main street. In Alexandria, zealots pulled the elderly philosopher-mathematician Hypatia from her chariot and flayed her to death with shards of broken pottery. Not long before, their fellow Christians had invaded the city's greatest temple and razed it—smashing its world-famous statues and

destroying all that was left of Alexandria's Great Library. Today, we refer to Christianity's conquest of the West as a "triumph." But this victory entailed an orgy of destruction in which Jesus's followers attacked and suppressed classical culture, helping to pitch Western civilization into a thousand-year-long decline. Just one percent of Latin literature would survive the purge; countless antiquities, artworks, and ancient traditions were lost forever. As Catherine Nixey reveals, evidence of early Christians' campaign of terror has been hiding in plain sight: in the palimpsests and shattered statues proudly displayed in churches and museums the world over. In *The Darkening Age*, Nixey resurrects this lost history, offering a wrenching account of the rise of Christianity and its terrible cost.

During the early middle ages, Europe developed complex and varied Christian cultures, and from about 1100 secular rulers, competing factions and inspired individuals continued to engender a diverse and ever-changing mix within Christian society. This volume explores the wide range of institutions, practices and experiences associated with the life of European Christians in the later middle ages. The clergy of this period initiated new approaches to the role of priests, bishops and popes, and developed an ambitious project to instruct the laity. For lay people, the practices of parish religion were central, but many sought additional ways to enrich their lives as Christians. Impulses towards reform and renewal periodically swept across Europe, led by charismatic preachers and supported by secular rulers. This book provides accessible accounts of these complex historical processes and entices the reader towards further enquiry.

First published in 1976, Paul Johnson's exceptional study of Christianity has been loved and widely hailed for its intensive research, writing, and magnitude—"a tour de force, one of the most ambitious surveys of the history of Christianity ever attempted and perhaps the most radical" (New York Review of Books). In a highly readable companion to books on faith and history, the scholar and author Johnson has illuminated the Christian world and its fascinating history in a way that no other has. Johnson takes off in the year AD 49 with his namesake the apostle Paul. Thus beginning an ambitious quest to paint the centuries since the founding of a little-known 'Jesus Sect', A History of Christianity explores to a great degree the evolution of the Western world. With an unbiased and overall optimistic tone, Johnson traces the fantastic scope of the consequent sects of Christianity and the people who followed them. Information drawn from extensive and varied sources from around the world makes this history as credible as it is reliable. Invaluable understanding of the framework of modern Christianity—and its trials and tribulations throughout history—has never before been contained in such a captivating work.

From Abelard to Zwingli, via a multitude of saints and sinners, Nick Page guides us through the creeds, the councils, the buildings and the background of the Christian church in an illuminating, and perhaps ever so slightly irreverent way. on earth the Christian church has survived all that 2,000 years of heroes, villains and misfits could throw at it (mostly from the inside) to remain one of the most influential forces in the world today. The relationship between the Christian and Muslim worlds has been a long and tortuous one. Over the course of the centuries the balance of power has swung in pendulum fashion at times the initiative seems to have lain with the Muslim community, with the Christian world simply being compelled to react to developments outside itself, while at other points the opposite has been true and Muslims have found themselves having to respond to Christian challenges in different forms. Today Christians and Muslims comprise the

world's two largest religious communities. Although they can coexist fairly peacefully, at times they still engage in violent confrontation, such as in the recent conflicts in Bosnia and the Sudan. This book investigates the history of the relationships between Christians and Muslims over the centuries, from their initial encounters in the medieval period, when the Muslims were the dominant group, through to the modern period, when the balance of power seems to have been reversed. This much-needed overview of the Christian-Muslim encounter places the emphasis on the context within which perceptions and attitudes were worked out and provides a depth of historical insight to the complexities of current Christian-Muslim interactions on different continents." A vigorous, convincing presentation of the evidence for a historical Jesus.

Christianity is in crisis in the West. The Inkling friend of C.S. Lewis and J.R.R. Tolkien, Owen Barfield, analysed why. He developed an account of our spiritual predicament that is radical and illuminating. Barfield realized that the human experience of life shifts fundamentally over periods of cultural time. Our perception of nature, the cosmos and the divine changes dramatically across history. Mark Vernon uses this startling insight to tell the inner story of 3000 years of Christianity, beginning from the earliest Biblical times. Drawing, too, on the latest scholarship and spiritual questions of our day, he presents a gripping account of how Christianity constellated a new perception of what it is to be human. For 1500 years, this sense of things informed many lives, though it fell into crisis with the Reformation, scientific revolution and Enlightenment. But the story does not stop there. Barfield realised that there is meaning in the disenchantment and alienation experienced by many people today. It is part of a process that is remaking our sense of participation in the life of nature, the cosmos and the divine. It's a new stage in the

“Jenkins is one of America’s top religious scholars.”

—Forbes magazine The Lost History of Christianity by Philip Jenkins offers a revolutionary view of the history of the Christian church. Subtitled “The Thousand-Year Golden Age of the Church in the Middle East, Africa, and Asia—and How It Died,” it explores the extinction of the earliest, most influential Christian churches of China, India, and the Middle East, which held the closest historical links to Jesus and were the dominant expression of Christianity throughout its first millennium. The remarkable true story of the demise of the institution that shaped both Asia and Christianity as we know them today, The Lost History of Christianity is a controversial and important work of religious scholarship that sounds a warning that must be heeded.

The 4,000-year quest of Judaism, Christianity and Islam. Christians form the third largest religious community in India. How has this come about? There are many studies of separate groups: but there has so far been no major history of the three large groups - Roman Catholic, Protestant and Thomas Christians (Syrians). This work attempts to meet the need for such a history. It goes right back to the beginning and traces the story through the ups and downs of at least fifteen centuries. It includes careful studies of the political and social background and of the non-Christian reactions to the Christian message. The narration is non-technical and should present few

difficulties to the thoughtful reader; the more technical matters are dealt with in notes and appendices. This book will be of interest to all students of Church History and will also prove fascinating to many who are concerned with the development of Christianity as a world religion and in the dialogue between different forms of faith.

A History of Christianity examines the development of Christianity from its biblical foundations to modern times. While seeking to be comprehensive, historian Joseph Early Jr. centers on key events, people, theological developments, and conflicts that have shaped Christianity over its two-thousand-year history. He also presents the development of Christianity within the social, political, and economic challenges of the times. In doing so, he paints a clear, detailed, and balanced picture of the opportunities and struggles faced by the church and the contributions made by significant people, institutions, and traditions. A History of Christianity is an ideal introductory survey for undergraduate students and any reader who desires to know more about the broad scope of Christianity.

Indonesia is the home of the largest single Muslim community of the world. Its Christian community, about 10% of the population, has until now received no overall description in English. Through cooperation of 26 Indonesian and European scholars, Protestants and Catholics, a broad and balanced picture is given of its 24 million Christians. This book sketches the growth of Christianity during the Portuguese period (1511-1605), it presents a fair account of developments under the Dutch colonial administration (1605-1942) and is more elaborate for the period of the Indonesian Republic (since 1945). It emphasizes the regional differences in this huge country, because most Christians live outside the main island of Java. Muslim-Christian relations, as well as the tensions between foreign missionaries and local theology, receive special attention.
