

### A Level Past Papers

DT These highly successful revision guides have been brought right up-to-date for the new A Level specifications introduced in September 2000. DT Oxford Revision Guides are highly effective for both individual revision and classroom summary work. The unique visual format makes the key concepts and processes, and the links between them, easier to memorize. DT Students will save valuable revision time by using these notes instead of condensing their own. DT In fact, many students are choosing to buy their own copies so that they can colour code or highlight them as they might do with their own revision notes.

Each topic is treated from the beginning, without assuming prior knowledge. Each chapter starts with an opening section covering an application. These help students to understand the relevance of the topic: they are motivational and they make the text more accessible to the majority of students. Concept Maps have been added, which together with Summaries throughout, aid understanding of main ideas and connections between topics. Margin points highlight key points, making the text more accessible for learning and revision. Checkpoints in each chapter test students' understanding and support their private study. A selection of questions are included at the end of each chapter, many form past

examination papers. Suggested answers are provided in the Answers Key.

Exam Board: AQA, Edexcel, CCEA, OCR, WJEC

Eduqas Level: A-level Subject: Chemistry First

teaching: September 2015 First exams: Summer

2017 Master the skills you need to set yourself apart and hit the highest grades; this year-round course

companion develops the higher-order thinking skills

that top-achieving students possess, providing step-by-step guidance, examples and tips for getting an A

grade. Written by experienced author and teacher

Sarah Longshaw, Aiming for an A in A-level

Chemistry: - Helps you develop the 'A grade skills' of analysis, evaluation, creation and application - Takes

you step by step through specific skills you need to master in A-level Chemistry, including scientific

reading, quantitative and practical skills, so you can apply these skills and approach each exam question

as an A/A\* candidate - Clearly shows how to move up the grades with sample responses annotated to

highlight the key features of A/A\* answers - Helps you practise to achieve the levels expected of top-

performing students, using in-class or homework activities and further reading tasks that stretch

towards university-level study - Perfects exam

technique through practical tips and examples of

common pitfalls to avoid - Cultivates effective

revision habits for success, with tips and strategies

for producing and using revision resources -

Supports all exam boards, outlining the Assessment Objectives for reaching the higher levels under the AQA, Edexcel, OCR, WJEC/Eduqas and CCEA specifications.

Reinforce understanding throughout the course with clear topic summaries and sample questions and answers to help students target higher grades.

Written by experienced teacher and subject expert Christine Brain, our Student Guides are divided into two key sections - content guidance, and sample questions and answers. Content guidance will:

- Develop understanding of key concepts and terminology; this guide covers psychological skills, including methods, a synoptic review of studies, issues and debates.
- Consolidate knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book.

Sample questions and answers will:

- Build understanding of the different question types, so that students can approach each question with confidence.
- Enable students to target top grades in Paper 3 with sample answers and commentary explaining exactly why marks have been awarded.

examples and tips for getting an A grade. Written by experienced author and teacher James Powell, *Aiming for an A in A-level Economics*: - Helps you develop the 'A grade skills' of analysis, evaluation, creation and application - Takes you step by step through specific skills you need to master in A-level Economics, so you can apply these skills and approach each exam question as an A/A\* candidate - Clearly shows how to move up the grades with sample responses annotated to highlight the key features of A/A\* answers - Helps you practise to achieve the levels expected of top-performing students, using in-class or homework activities and further reading tasks that stretch towards university-level study - Perfects exam technique through practical tips and examples of common pitfalls to avoid - Cultivates effective revision habits for success, with tips and strategies for producing and using revision resources Supports the major exam boards, outlining the Assessment Objectives for reaching the higher levels under the AQA, Edexcel and OCR specifications.

Provides guidance on tackling the different types of examination questions.

Most of us understand the benefits of getting a good education. Not only can it open doors to university and better job prospects, but can help to broaden an individual's outlook on life. For some people, however, getting the right qualifications can be a real challenge,

## Where To Download A Level Past Papers

especially if they aren't in mainstream education. It's no wonder then that an increasing number of people are turning to distance learning, or home education, as their preferred way of passing exams. This book focuses on GCSEs and A-Levels: the main school-leaving qualifications that are universally recognised in the UK. It explains the main features of the qualifications, how to study them, and how to take the exams involved. This book is intended to be used as a guide for prospective students who might want to undertake this form of learning, but have some difficulty in working out where to start.

Revision book written specifically for the Edexcel AS and A Level exams offering: worked examination questions and examples with hints on answering examination questions successfully; test-yourself section; key points reinforcing what students have learned; and answers to all questions.

Reinforce understanding throughout the course with clear topic summaries and sample questions and answers to help students target higher grades. Written by experienced teacher and subject expert Christine Brain, our Student Guides are divided into two key sections - content guidance, and sample questions and answers. Content guidance will: - - Develop understanding of key concepts and terminology; this guide covers foundations in psychology: social psychology, cognitive psychology, biological psychology and learning theories. - - Consolidate knowledge with 'knowledge check questions' at the end of each topic and answers in the back of the book. Sample questions and

The must-have guide to getting into medical school. Each chapter guides you through another step of the process, from deciding if medicine is for you and choosing a medical school, to passing the UKCAT and BMAT exams, applying to Oxbridge and getting through the interview.

Applying for medical school needn't be such a daunting prospect with this book on your side. Packed with insight, tips, and information you won't find anywhere else, the second edition of *So you want to be a doctor?* is an essential guide to the application process from start to finish. Over 100 medical students and admissions tutors have contributed to unique profiles of every medical school in the UK. An insider point-of-view on each school is complemented by straight-forward rankings of each school by the cost of living, the difficulty of the course, and the competition for each place. With such a comprehensive and honest survey of UK medical schools, choosing the right one for you has never been easier.

Alongside these profiles, this guide is packed with practical advice for every step of the application process. Find out what kind of work experience is best, and how to go about
