Jesus Rojo is used to being unpopular. As the youngest investigating judge ever appointed he had already ruffled the feathers of those who place seniority over talent. When he is handed a case of institutional corruption that has been lying in the long grass for years, he suspects that he is being set up to fail. With his small team of detectives, he begins to unpick the case and uncovers a money trail linking the main suspect with a top-quartile investment fund in the City of London that seems to invest in criminal activity as a means of diversification. In particular, the role played by the CEO of the fund, Derek Sanderson, comes under scrutiny. Separately, the National Crime Agency is investigating Sanderson and the fund's links with an operation in Brighton that sells Spanish villas off-plan. The local police suspect that this is a scam and that the deposits paid will disappear along with the perpetrators. The two investigations intertwine as the detectives in the UK and Spain close in on the suspects.[description here](#)

This collection of essays examines the various encounters between Britain and the Other, from a cultural, racial, ethnic, artistic and social perspective. It investigates the constructions of various figures of the foreigner in the British Isles through representations and discourses in the political and literary fields, as well as in the visual arts from the 17th century to the contemporary period. This volume presents a diverse selection of contributions which offer some common concerns abo ...

'Superb, moving, beautiful' Joanna Cannon, author of *The Trouble with Goats and Sheep* He will be allowed to visit his mother soon. His mother who is terminally ill, his mother who he has been barred from seeing as he recovers from his own bout of pneumonia. Until then, with the help of his physiotherapist Freya, he must navigate his increasingly empty and isolated existence: his father, who finds solace in the bottom of a glass; his Nana Q, whose betting-slip confetti litters her handbag; his friends, who simply wouldn't understand. Time passes with the promise of soon, but one hundred and fifty-two days later the boy will come face to face with his grief, and move beyond to a world full of possibility, hope and love.

In late February 1994, Andrew Gurr was perusing the appointments pages of the Sunday Times when an advert caught his eye: 'Wanted: Chief Executive of the Falkland Islands Government'. Intrigued, he decided to follow it up... Nobody was more surprised than Andrew when, a few months later, he was offered the position. There followed five remarkable years running one of the smallest governments in the world and acting as Governor for nearly a year of that time. A

more curious and multi-faceted job would be hard to find. Nineteen years after the war and 8,000 miles from the mother country, are these intensely patriotic islands, or merely an anachronism and an embarrassment? What is it really like to live and work there? The answers are revealed in this book, where Andre shows his understanding of the people, the heritage, the wildlife and the landscape of this breathtakingly beautiful part of the world. This book is at times moving, at times humorous, and always captivating. It is a remarkable memoir of an opportunity that only comes to a selected few.

Description Old Old England is a masterpiece that could only have been written about by our award winning author Doctor Rosaleen O'Brien. The amazing world views of a legal system, social and religious zeal that was portrayed in those far off days can be yearned for today. One can make a comparison with Old England and how social crime was dealt with in such a public way, like etching names of offenders on a tree where it stayed as a constant reminder of the application of discipline and the consequences of breach of same. Confessing one's sins in public was another way of dealing with irregularities and was something one would be inclined to indulge in too frequently. Our Great Stonehenge is described and written about bringing to mind the coolness of stone and it could be reasonable to suppose that healing was brought about by application of same or by chanting or sitting around that 'temple'. This book is steeped in history, and written in verse to make it attractive to the ear and enabling younger readers to possibly apply thought and prove to be awe inspiring. Colour schemes employed by the Romans is so interesting as they thought very carefully when power needed to be shown by application of colours like red, and delicate colours like lilac for intimate family detail. Interesting to note that fonts for Baptism were never placed near a door, is this not thought provoking? Read on and discover the amazing leaf of history that lies behind Old, Old England. It is like holding a little piece of England in the palm of our hand. This must be the most entertaining book which has been written for some time and the author has captured every sensation and soaked it up in an atmosphere that is just ready for you the reader to absorb.... About the Author I have been in receipt of trauma counselling since 1999 on a daily basis, at times speaking till the early hours of the morning. Support from my trauma Counsellor helps me to come to terms with accepting that what has happened to me cannot now be changed. I cannot ever forgive those who had a vicarious liability to look after me and failed. As a result of being locked away for some years all because we were poor has brought certain limitations to my day to day life. Writing is a form of therapy and allows me to be free to be the person that I want to be, and should have been my birthright. Through writing I can reach out to others who may have had such an unfortunate experience as myself. Daily flashbacks can be upsetting and I fill my life with things to do so as to block them out. Day to day life can be exhausting and coping mechanisms that I learnt in order to survive have not helped me in the outside world. God help all fellow survivors and perhaps one day Ireland will

accept the terrible price we paid. Shame on all you right thinking residents in Ireland to allow the government and Catholic Church to ignore harm done to me and many others who are either dead or too ill to tell their story. Thanks to Chipmunkapublishing I have been able to confront my demons and a Big Thank you to Reatha my trauma counsellor without her I would not be here today writing about my stolen life.

The film-making partnership of Michael Powell and Emeric Pressburger was one of the most remarkable and visionary in cinema. They made an extraordinary range of films, from *The Spy in Black* and *The Life and Death of Colonel Blimp* to *A Canterbury Tale* and *The Red Shoes*. With champions like Martin Scorsese and Francis Ford Coppola, and revived critical interest worldwide, they now find new generations of admirers. This illuminating new book looks closely at these classic films to explore their complex relationship to national identity, and their interest in exile, borderlands, utopias, escapism, art and fantasy. Moor reveals for example how the visual imagery of the films of the Second World War question current cinematic styles and how post war films like *The Red Shoes* and *The Tales of Hoffman* are in their highly expressive use of design, music and dance utterly international in character.

This book tells the story of four sons of King George V during the period that the monarchy faced the greatest threats to its survival in the modern era – the crisis of the abdication, and the nationwide threat to Britain of the Nazis, inside and out. The threat of world war echoed the war within the royal family. Played out against the cataclysm of the Second World War the princes' actions – for good or ill – became all the more significant and magnified on a world stage. The war served to unleash passions at a time when the very function of royalty as head of the empire was under threat. It served as a crucible that made or destroyed each of the princes. One would die in mysterious circumstances forever mired in conspiracy and scandal; another was destroyed in all but name, a third slipped into comfortable obscurity, and the fourth rose to new heights of achievement redefining the monarchy for the modern age. The catalyst for the story is one dangerous American woman: Wallis Simpson. The consequences of her actions drive one prince to an early grave and the other to become a living wreck of a man nursing long held grievances. Recently discovered letters show that Wallis herself was caught in a trap of her own making: a life entombed in a gilded cage with a man she could not respect and whom she tried to leave. Everything she wished for, she destroyed. Famously she is said to have been sent 17 carnations by the Nazi Joachim von Ribbentrop, representing their 17 sexual trysts. George VI's story is also an allegory for a much wider theme. Starting where the film *The Kings Speech* ends, a revealing transformation in his character takes place. As he steps up with some dread to the role of king that his older brother spurns, his horizons are widened and he falls into the sphere of influence of brilliant leaders such as Winston Churchill. As Hitler stole country after country for the Third Reich, George VI rose to the challenge, to find the very best in himself, and was transformed by the effort. By the end he can stand alone at the helm, without the support of those who helped him on his way Like fables of old, taking on the challenge transforms the quality of the man – but it is also killing him.

How the experience of war impacted on the town, from the initial enthusiasm for sorting out the German kaiser in time for Christmas 1914, to the gradual realization of the enormity of human sacrifice the families of Kensington were committed to as the war stretched out over the next four years. A record of the growing disillusion of the people, their tragedies and hardships and a determination to see it through. The Royal Borough of Kensington was an area of huge

contrasts: vast riches in the south, but marked poverty in the north. It was close enough to the heart of London that national and London-wide affairs often impinged on local life, while local residents might have national reputations. Thus enormous crowds attended the interment at Brompton Cemetery of one of Britain's finest air heroes, Sub-Lieutenant Warneford, striking London policemen left an indelible impression as they marched their way through the Borough, while Kensington resident Mrs Dorothy Peel attempted to teach the nation how to make food economies in answer to the submarine threat, but there are also quirky magistrates, stropky butchers, Mr Bushman the ultra-patriotic cartoon character, dangerous dog-walkers who would sweep your feet from under you in the dark nights and some vivid first-hand accounts such as watching the first Zeppelin come down. The man who turned Kensington into a Borough at war was undoubtedly William Davison (later Sir William) - Kensington's Mayor throughout the war years. He helped complete the local territorial battalion (the 13th Kensingtons), threw his weight behind recruiting a second battalion, and finally raised a Kitchener battalion from scratch, the 22nd Royal Fusiliers, with all their clothing and accoutrements, and even a fully-fitted hutted camp. He was obliged to display enormous organising energy in the in early years and thereafter seemed to be involved in almost everything, from getting food parcels to POWs to serving on Tribunals. We are fortunate that the Mayor left behind 7 volumes of wartime cuttings, while the local Kensington News was an outstanding source

How often have you thought you might like to chuck it all in, leave the steaming metropolis and its noise and dirt behind and make for pastures new, to begin your life again? We often talk about it but people rarely do it. Jackie Moffat is one of those who did. In 1982 she and her family - armed with a bucketload of optimism, stout boots and a highly developed sense of the ridiculous - upped sticks from London (where she'd lived all her life) and went North, to Cumbria. Their destination was the Eden Valley, and a small stock-rearing and dairy farm called Rowfoot, and there they have spent the past twenty years getting to grips with the practice of running a working farm, keeping sheep, cattle, pigs and horses, becoming part of the (often eccentric) community, coping with the ups and downs (Foot and Mouth devastated them) of farming life. For the past ten years, the author's written a regular column for the Cumbria and Lake District Life magazine, and it was this that inspired her to write about her life in rural England and the trials, tribulations and pleasures of running a farm.

Between 1920 and 1933 the issue of prohibition proved to be the greatest challenge to Canada-U.S. relations. When the United States adopted national prohibition in 1920—ironically, just as Canada was abandoning its own national and provincial experiments with prohibition—U.S. tourists and dollars promptly headed north and Canadian liquor went south. Despite repeated efforts,

Americans were unable to secure Canadian assistance in enforcing American prohibition laws until 1930. *Bootleggers and Borders* explores the important but surprisingly overlooked Canada-U.S. relationship in the Pacific Northwest during Prohibition. Stephen T. Moore maintains that the reason Prohibition created such an intractable problem lies not with the relationship between Ottawa and Washington DC but with everyday operations experienced at the border level, where foreign relations are conducted according to different methods and rules and are informed by different assumptions, identities, and cultural values.

Through an exploration of border relations in the Pacific Northwest, *Bootleggers and Borders* offers insight into not only the Canada-U.S. relationship but also the subtle but important differences in the tactics Canadians and Americans employed when confronted with similar problems. Ultimately, British Columbia's method of addressing temperance provided the United States with a model that would become central to its abandonment and replacement of Prohibition.

*The Golden Age* is a collection of reminiscences of childhood, written by Kenneth Grahame. Typical of his culture and his era, Grahame casts his reminiscences in imagery and metaphor rooted in the culture of Ancient Greece. This edition also includes a biography of the books author, Kenneth Grahame.

This vintage book contains D. H. Lawrence's 1922 collection of short stories, entitled "England, My England". Written between 1913 and 1921, many of the stories revolve around war and will appeal to those with an interest in related literature. The stories of this collection include: "England, My England", "Tickets, Please", "The Blind Man", "Monkey Nuts", "Wintry Peacock", "You Touched Me", "Samson and Delilah", "The Primrose Path", "The Horse Dealer's Daughter", "Fanny and Annie", and more. David Herbert Richards Lawrence (1885 - 1930) was a seminal English novelist, poet, essayist, playwright, and literary critic. Many vintage texts such as this are increasingly scarce and expensive, and it is with this in mind that we are republishing this book now, in an affordable, high-quality, modern edition. It comes complete with a specially commissioned biography of the author.

This celebration of the English countryside does not only focus on the rolling green landscapes and magnificent monuments that set England apart from the rest of the world. Many of the contributors bring their own special touch, presenting a refreshingly eclectic variety of personal icons, from pub signs to seaside piers, from cattle grids to canal boats, and from village cricket to nimbies. First published as a lavish colour coffee-table book, this new expanded paperback edition has double the original number of contributions from many celebrities including Bill Bryson, Michael Palin, Eric Clapton, Bryan Ferry, Sebastian Faulks, Kate Adie, Kevin Spacey, Gavin Pretor-Pinney, Richard Mabey, Simon Jenkins, John Sergeant, Benjamin Zephaniah, Joan Bakewell, Antony Beevor, Libby Purves, Jonathan Dimbleby, and many more: and a new preface by HRH Prince Charles.
