First published in 1898, this is a very different astrology book from what we have now. There are extensive delineations for the signs of the zodiac, especially when found on the ascendant.

There are delineations of planets in signs when they are in the first house or are the chart ruler, in both cases, describing the physical appearance. There are delineations of planets in the various houses, which will also serve for the planetary rulerships of the houses. There are only sketchy notes on aspects. So far as the "pure astrology" of planets in signs, in houses, in aspect, there is almost nothing at all. The reason is found in the second part of the book. We are not reading the chart as a psychological abstraction. We are, instead, looking for specific traits, attempting to answer specific questions. Will we have a profession? What kind of marriage? What kind of children? Will we vanquish our enemies, or submit to them? What kind of illness? We then find the house(s) of the horoscope which rule the question, and then delineate the signs & planets we find there. These are, by the way, the sort of questions that clients would ask, if they only knew we could give answers! The sort of things that astrologers themselves want to know. In the process we learn how to read a chart & get real meaning from it. We get ideas from one section and then apply them to other sections. There are hundreds and hundreds of useful aphorisms, except that Sepharial doesn't label them as such. Get this book, study it, underline key passages, scribble in the margins. You will learn more from this book than most all others put together.

An illuminating look at the surprising history and science of astrology, civilization's first system of algorithms, from Babylon to the present day. Humans are pattern-matching creatures, and astrology is the universe's grandest pattern-matching game. In this refreshing work of history and analysis, data scientist Alexander Boxer examines classical texts on astrology to expose its underlying scientific and mathematical framework. Astrology, he argues, was the ancient world's most ambitious applied mathematics problem, a monumental data-analysis enterprise sustained by some of history's most brilliant minds, from Ptolemy to al-Kindi to Kepler. Thousands of years ago, astrologers became the first to stumble upon the powerful storytelling possibilities inherent in numerical data. To correlate the configurations of the cosmos with our day-to-day lives, astrologers relied upon a "scheme of heaven," or horoscope, showing the precise configuration of the planets at a particular instant in time as viewed from a particular place on Earth. Although recognized as pseudoscience today, horoscopes were once considered a cutting-edge scientific tool. Boxer teaches us how to read these esoteric charts—and appreciate the complex astronomical calculations needed to generate them—by diagramming how the heavens appeared at important moments in astrology's history, from the assassination of Julius Caesar as viewed from Rome to the Apollo 11 lunar landing as seen from the surface of the Moon. He then puts these horoscopes to the test using modern data sets and statistical science, arguing that today's data scientists do work similar to astrologers of yore. By looking back at the algorithms of ancient astrology, he suggests, we can better recognize the patterns that are timeless characteristics of our own pattern-matching tendencies. At once critical, rigorous, and far ranging, A Scheme of Heaven recontextualizes astrology as a vast, technological project—spanning continents and centuries—that foreshadowed our data-driven world today.

More often than not, people think of astrology as a tool for divination or the exploration of one's personality. Astrology is considerably more than that. It is a sacred science, a highly descriptive symbolic language, and it is also a technology that can be applied to ritual, herbalism, the use of crystals, and much more. This is a practical handbook for any practitioner of magic to use in building individual rituals and creating the most effective magic. Concise, focused, and expertly presented, this book teaches the core concepts of astrology so that wiccans and pagans can truly apply it to their practices.

Look to the stars for a whole new approach to market cycle forecasting A Trader's Guide to Financial Astrology is the definitive guide to trading market cycles based on astrological data.

Written by a highly-respected technical analyst, this book makes the connection between the movements of planets and the volatility of the market. Readers can draw upon one hundred years of historical data as they learn how to spot correlations from the past, and refer to planetary and lunar data for the next five years as they shape their own strategy. The book covers the principles of astrological forecasting as applied to the financial markets, explaining what to watch for and how to interpret planetary and lunar activity, plus expert insight on everyday practical application. A study by the Federal Reserve Bank of Atlanta determined that the U.S. stock markets tend to be negatively affected by geomagnetic storms, and the Royal Bank of Scotland demonstrated that a trading system based on the phases of the moon would have outperformed the market. A Trader's Guide to Financial Astrology shows traders how to tap into the planetary forces that influence market activity. Readers will: Learn how planetary and lunar movements relate to the financial markets Draw upon 100 years of historic correlations and five

years of forecast data Forecast long-term and short-term activity based on planetary relationships and lunar movement Enter the markets at key turning points, using price patterns and other tools When integrated with technical trading patterns, astrology can be an effective way of shifting perspective and approaching the market differently. For traders who have always wanted to know what to do when Mercury is in retrograde or the moon is new, A Trader's Guide to Financial Astrology provides information and insight from a leading market educator.

It includes the author's individual books on: Genethliacal Astrology Mundane Astrology Astro-Meteorology Medical Astrology Elections This classic work is filled with numerous examples and its original publication was praised in the the Spiritualist: "Even for those who desire only to obtain a general knowledge of the subject, or at most be able to cast and read an astrological figure, Mr. Pearce's book may be recommended as easily intelligible, and containing much interesting matter, besides the process that will be chiefly useful to the student whose aims are more ambitious. To the latter it is invaluable. It is enriched with many interesting notices of nativities illustrating the different rules and doctrines of the science. "

In order to understand the fundamental principles of astrological influences, why they exist and how they affect us, you must become familiar with the nature of the one who is affected, your own essence. It is all connected. Two things are in existence: you and the universe. If you delve into one with the utmost care, you will automatically understand the other because, in their foundation, they are the same. Astronomy is the science of how the universe works. Astrology is the science of how the holographic universe affects us. It broadens our horizons because it provides a holistic approach to life. Astrology shows us all the details of the way in which our transcendental soul is trapped in the body and events of our life, the ways in which we have been obstructed from attaining self-knowledge. That will make us understand how to set ourselves free. The knot can be untied by learning the way in which it was tied. We do not have to know all the details. It is enough to be acquainted with the basic principles of how astrology works to be able to know the basic principles of liberation and self-knowledge. In former times the calculation of a nativity was esteemed a very difficult process, since the Astrologer was either obliged to take an actual observation of the heavenly bodies from some place where he could well perceive them; or in latter times, at the least, to calculate their elements from those Astronomical tables, which constitute the basis of our Ephemeris. The tediousness of such pursuits may be comparatively guessed at, when it is stated on the authority of a celebrated modern writer, " that Kepler, (who was a clever Astrologer) in calculating only ten oppositions of Tj and, filled a large folio volume with the requisite figures: " and even at the present day, several hours attention are requisite for the calculations (of the ten equations) requisite to the D 's place. But by an Ephemeris, the best of which is that of White, (published annually) the places of every planet may be found in a few minutes only; a most excellent consideration for our modern Astronomers, whogenerally dislike. Will there be peace? Will there be war? Find out with Mundane Astrology. Here, in one volume, are three classic books on the astrology of nations and states, by H.S. Green, Raphael, and C.E.O. Carter: H.S. Green organizes his book planet-by-planet. He tells what each planet will do in the 12 houses. Raphael organizes the topic by house. He tells how mundane houses work when planets are in them. In addition, both authors deal with solar and lunar eclipses, and earthquakes. Green shows the effects of eclipses in the houses, while Raphael describes them by decanate (100 sections of the zodiac). Both mention the effects of comets, although little about these mysterious bodies is known astrologically. Charles Carter, writing after WWII, discusses why astrologers failed to predict the war and what that means for mundane astrology. His plea for better data has largely been met, but the need for more study remains. All three authors give astrological rulerships for countries and cities. These are centuries old and are weighted to England and Europe. Carter's rulers are the most up-to-date. These are the essential texts for serious study of mundane astrology. About the Authors H.S. Green was an astrologer associated with Alan Leo's astrological revival back in the first decade of the 20th century. His various books are highly regarded (all but this one out of print, sadly), but biographical details are sketchy. Raphael was the pen-name of one Robert Cross, 1850-1923. He was the sixth in a series of astrological writers who used the name "Raphael" & remains the best known of them all. He wrote books on virtually all astrological topics. His book on mundane astrology dates from 1910. Charles E.O. Carter, 1887-1968, was one of the outstanding British astrologers of the 20th century. He succeeded Alan Leo as head of the Astrological Lodge of the Theosophical Society, a post he held from 1920 to 1952. He was editor of Astrology, The Astrologer's Quarterly, from 1926 to 1959. Carter's persistent genius reestablished astrology as a serious discipline in England, after two centuries of decline. He wrote his book on Mundane Astrology in reaction to the failure of astrologers to forecast WWII. In 1939, astrologers in London knew there was a full-scale war on in China, they knew the situation with Germany was tense, but they had studied the charts for the year, they knew the fuss would blow over. And they were wrong. Carter set out to discover why, his book was the result.

It was a long time ago and few alive now remember what life was like in England in the years after World War II. Yes, the Luftwaffe and Vengeance weapons had made a fine mess in the south of the country, but during the war years the Yanks were there, millions of them, seducing the womenfolk, brawling in pubs, and, most importantly, spending their pay with local shopkeepers. May, 1945, the war ended and all the Americans left. Most went home, but a sizeable contingent set up shop in Germany, where, to the best of their ability given the local ruins, they carried on as before, seducing the womenfolk, brawling in pubs and spending their pay with the surviving shopkeepers. The Americans were joined by contingents of English, French and Soviet troops. As a result, the surprising fact, long forgotten, is that after the war, conditions in England were even worse than they were in post-Third Reich Germany. Some in Britain rued winning the war, as deprivation became their fate. In London after the war books were so scarce that used vendors had long lists of people waiting for the few books that turned up. For schools in London which taught astrology, the situation was impossible. Responding to the post WWII book shortage, Margaret Hone published this ultimate Astrology Text-Book. She was born in Birmingham, England, on October 2, 1892, at 2:13 am. Her ascendant was 27 Leo; her Sun was 9 Libra; her Moon was 13 Aquarius. Her midheaven was 15 Taurus. Of Ms Hone, James Holden wrote, "English astrologer, educator, and author. She was a professional astrologer and private teacher for many years and later was Principal and Director of Studies of the Faculty of Astrological Studies 1954-1969 and Vice President of the Astrological Lodge of London. Mrs. Hone was an advocate of the Equal House system of house division. She is best known in the U.S. for her two instruction manuals." This book is dedicated to Charles E.O. Carter, 1887-1968. Carter succeeded Alan Leo as head of the Astrological Lodge (1920-1952) and was First Principal of the Faculty of Astrological Studies, which he helped found in 1948. Hone succeeded Carter at FAS. She passed away on October 14, 1969. In his Preface, while quick to praise Hone, a

personal friend, Charles Carter also pointed out that this book's high price was justified, that "padding has been rigorously excluded." He goes on to praise the workmanship, the carefully worded definitions, as well as the fact that the book was complete and entire in itself. Save for ephemeris and tables of houses, this one book would suffice beginning as well as advanced students for some years. In addition, Hone also includes one of the earliest modern histories of astrology, short biographies of leading astrologers past and present, astrology and public opinion (daily horoscopes in the newspapers were a recent innovation). On a more practical side, Hone gives a thorough analysis of the principal house systems of the day (Equal, Campanus, Regiomontanus, Placidus), and even mentions C.G. Jung's recently developed Depth Psychology.

To the uninitiated, the science or art of Astrology appears complicated and its study too intricate to be followed or understood easily; this notion, however, is erroneous and is mainly caused by confusion of thought and the misconceptions which bias or prejudice has introduced into the subject.-from "Chapter 1: The Simplicity of Astrology" Some consider him the father of modern astrology, for in the early 20th century, prominent British astrology Alan Leo opened up the secrets of divination by the stars to the general public with his line of "Modern Astrology" manuals, a popular series of books that set off a craze for horoscopes that continues to this day. In this 1914 guide, Leo explains, in easy-to-understand language, the basic symbology that underlies the reading of the zodiac: the many aspects of the circle that can represent the solar system, the sun, and the moon; the cross, expressing the creative power of life and the physical body; the basic signs that signify each of the houses of the zodiac and each of the planets and what they metaphorically denote, and more. This is an invaluable resource for modern astrology buffs and those interested in the history of the paranormal. British astrologer WILLIAM FREDERICK ALLAN (1860-1917), a.k.a. Alan Leo, published *Astrologer's Magazine* as well as a line of astrological materials; he founded the Astrological Lodge of the Theosophical Society in 1915.

Tapping into the political power of magic and astrology for social, community, and personal transformation. In a cross-cultural approach to understanding astrology as a magical language, Alice Sparkly Kat unmasks the political power of astrology, showing how it can be channeled as a force for collective healing and liberation. Too often, magic and astrology are divorced from their potency and cultural contexts: co-opted by neoliberalism, used as a force of oppression, or distilled beyond recognition into applications that belie their individual and collective power. By looking at the symbolic and etymological histories of the sun, moon, Saturn, Venus, Mercury, Mars, and Jupiter, we can trace and understand the politics of magic--and challenge our own practices, interrogate our truths, and reshape our institutions to build better frameworks for communities of care.

Fearless, radical, and fresh, Sparkly Kat's Postcolonial Astrology ushers in a new wave of astrology revival, refusing to apologize for its magickism and connecting its power to the spirituality and politics we need now. Intersectional, inclusive, and geared towards queer and POC communities, it uses our historical and collective constructs of the planets, sun, and moon to re-chart our subconscious history, redefine the body in the world, and assert our politics of the personal, in astrology and all things.

This book endeavours to show in a clear and simple manner the useful and practical truth that underlies the so-called occult study of reading character and disposition by the "period of birth", and the meaning of the number of each day and the influence of such things on human life. It will, I hope, be seen in reading these pages how perfect is the mechanism of the Universe, by which certain characteristics, and even details as to health, may be traced by a study of such things. In the present book I have drawn largely from my own experiences in this study of character, and I may safely state that there is not a rule I have given concerning character tendencies or health, which has not been thoroughly verified by me in my own work, which has extended in a professional way over a period of more than forty years.

Al Biruni, one of the greatest Arab scholars, was born on September 4, 973, in what is now Uzbekistan. He showed talent at an early age and by his early 20's had written several acclaimed papers. Political unrest in his 20's and 30's found him at one point at Gurgan, on the shores of the Caspian Sea. Peace found him in Ghaznah, which is today in Afghanistan. From 1017 to 1030 he travelled extensively in India, becoming fluent in Sanskrit. From this he wrote his monumental survey, *India*, of the history, customs and beliefs of the subcontinent. His other books include *The Chronology of Ancient Nations*, the *Masudic Cannon*, *Book of Instructions*, and more than 100 others, some of which are lost. He died on December 13, 1048, aged 75. He is buried in Ghaznah. *The Book of Instruction in the Elements of the Art of Astrology* was written for Lady Rayhanah, to whom it is dedicated. R. Ramsay Wright, the translator, said it could be regarded as a primer of 11th century science. Among its highlights are a comprehensive list of more than 150 Lots, various forms of aspects and planetary relationships, planetary positions relative to the sun, an excellent text on rulerships as well as comprehensive notes on weather and meteorological phenomena. This book was unknown to medieval European astrologers. This edition, comprising the astrological part of the original (sections 347-530) has been taken from Wright's pioneering 1934 translation, itself taken from Persian and Arabic sources. For this edition, text and tables have been reset, and a new index added.

The Secret Language of Astrology gives access to an Astrolabe™ website created exclusively for the book, enabling you to create a detailed birth chart for yourself, or for family or friends, within seconds. A historical introduction traces the history of astrology from antiquity to the present day. The second part of the book, "The Elements of Astrology", looks at the planets, the zodiac signs, the twelve houses and the aspects. The emphasis throughout is on equipping the reader to analyse their birth chart, by examining the influences and showing how they combine to shape our lives and our potential for growth. The third part, "Putting the Pieces Together", shows you how to apply all this information when reading a full birth chart. Thoroughly practical, but with a wealth of historical and cultural detail, as well as superb illustrations and photographs, this is a landmark in astrological publishing.

This astrological relationship guide is indispensable for dealing with everyone from friends and family to bosses and coworkers.
